choice include the information quietly passed down the democratic line that Postmaster-General Burleson is for Mr. McAdoo and expects to be able to deliver the 40 administrative

tion delegates to be chosen in Texas as the result of last Saturday's Wilson triumph. Another ardent supporter of Mr. McAdoo is said to be Louis F. Post, assistant secretary of labor, who is having a barrel of trouble defending his course in alien deportation cases and only continues to hold his job by the grace of the president. After all, it appears to have been the White House and not Mr. McAdoo who was speaking when democrats in all of the states were urged to keep the names of candidates off the primary ballots and to send un instructed delegations to the San Francisco convention.

Other Aspirants Felled. By this method other aspirants for the democratic nomination have been prevented from framing up delegations that might be inimical to the White House choice and the delegations have been packed largely by federal appointees, including several United States district attorneys, one or two members of the cabinet and a large number of others who owe their political advancement to Mr. McAdoo's illustrious father-in-law.

PANAMANS' IRE AROUSED

U. S. ACQUISITION OF TABOGA ISLAND PROTESTED.

Stones Thrown at Prominent Officials—General Pershing's Automobile Halted.

PANAMA, May 2.—Several thousand Panamanians tonight marched through the streets in torchlight parade as a protest against the acquisition by the United States of the major portion of Taboga island for the purpose of fortification as a part of the Pacific defense scheme of Panama Canal. An automobile in which General Pershing was driving to a ball in his honor at the Union club was halted by the procession and forced to return to the Tivoli hotel.

Mobs later formed in the streets and irresponsible persons threw rocks at prominent Panama officials, a number of whom were injured. Mounted policemen, acting on orders of Mayor Boyd, charged and dispersed the demonstrators.

Major-General Chase W. Kennedy, commander of the American troops in the canal zone, following receipt of reports of rock throwing, ordered all American officers attending the ball to leave immediately. Earlier in the evening General Pershing attended a reception at the Balboa administration building, where thousands of American employes shook hands with him. Tomorrow he will inspect the Atlantic canal defenses.
