

BONUS LEGISLATION HELD UNLIKELY

Hope for Soldier Relief Measure Waning.

TAXING PLAN IS OPPOSED

Lawmakers Appear Not Disposed to Place Further Burden on Shoulders of Taxpayers.

OREGONIAN NEWS BUREAU. Washington, May 4.—Word was passed around at the capitol today that soldier's bonus legislation is dead.

It was explained that since the consideration of the bonus bill is blocked by the demands of a group headed by Representative Royal C. Johnson, of South Dakota, for a change in the taxing plan, the reaction has set in against the so-called soldier relief measure.

Westerners Regret Action. One member of the house, Representative Herbert H. Pell, representing a populous district in the heart of New York City, has announced in a public statement that he will not vote for any kind of a bonus for able-bodied soldiers of the late war.

Some of the western members of congress are regretting now that they permitted their scheme for enlarged reclamation development to become entangled in the bonus question.

It was learned that a suggestion has been made by some members of the ways and means committee that the taxing plan of the proposed bonus bill be adopted in separate legislation, the money so raised to be used in stabilizing liberty bonds.

Increased Burden Opposed. A complaint frequently made is that those who remained at home and bought liberty bonds on the authorized representations of patriotic salesmen that they were "better than twenty-dollar gold pieces" have paid dearly enough without being asked to shoulder an additional burden for soldiers.

William G. McAdoo, while yet secretary of the treasury, disapproved such a bill in the senate, and Secretary Curry, of California, and Secretary Glass followed with a veto of the same bill.

WOMAN'S GRAVE IS FOUND

The burial place of the woman Watson was said to have confessed murdering.

Only yesterday, researchers said, they had dug at almost the same spot but had not gone deep enough to penetrate the shallow grave.

The earth turned by their spades, however, evidently had attracted coyotes during the night, for the body had been partly uncovered, although it had not been actually harmed by the animals.

I. W. W. TO INVAD KANSAS

WHOLESALE MIGRATION DURING HARVEST PLANNED.

Members of Organization Intend to Demand \$1.50 an Hour for Working in Fields.

KANSAS CITY, Mo., May 4.—(Special).—Secret information intended only for leaders of the I. W. W. showing the wholesale migration to Kansas during the harvest, in which a demand will be made for \$1.50 an hour for harvest hands, has been obtained by federal investigators.

The investigators yesterday submitted their information to Fred Robertson, United States attorney for Kansas. The report shows that the I. W. W. has made a careful study of the crops of both Kansas and Oklahoma. One section of the document obtained by federal agents points out that Kansas has a 75 per cent perfect crop and details those sections of the state where the outlook is best.

It is evident from the document that the plan for the invasion of the two states was made in the recent convention of the agricultural workers' industrial union of the U. S. at Sioux City, Ia., at which time organizers were issued to 100 field organizers for the Kansas drive.

"The people of Kansas again will have to buckle on their armor for the fight against the I. W. W.," Mr. Robertson said today. "But this year the farmers will have the additional protection of the criminal syndicate law passed in January by the Kansas legislature."
