WASHINGTON, May 4 .- (Special.)-The comments on the results of last week's primaries seem to overlook what impresses your correspondent as his life Guy Marsico had been beaten

what impresses your correspondent as the most important single aspect of them. That aspect is the changed situation of Senator Harding.

The headlines are all saying that "Harding Carries Ohio," and so he does in the sense that he has secured nearly five-sixths of the delegates. But that is not the true sense of earrying a state. The really significant fact is that Harding did not carry Ohio. He got less than 50 per cent of the state vote. This aspect of the Ohio result is obscured by the fact that the opposition vote is distributed among three other canditions. tributed among three other candi-

The whole theory back of Senator Harding's candidacy, so far as it had a sound theory, was that Ohio is a big state and doubtful as between republicans and democrats. The democrats carried it in 1916 and by carrying it elected Wilson. The theory was that by nominating a man for president who was qualified in other respects and who had the additional qualification of being a son of Ohio and popular in the state, the republicans could guarantee Ohio.

That theory now disappears. It has been demonstrated that an outsider

been demonstrated that an outsider can carry Ohio for the republicans more certainly than Harding can. It is impossible to imagine the republi can leaders on any sound theory of politics, continuing to regard Harding as being as available a candidate as he was thought to be before the Ohio primaries. They cannot on any sound theory of politics regard Harding as now heing so available as several to the manner of the Hologogouth of the primary of the Hologogouth of the Hologouth of the Hologogouth of the Hologogou ing as now being so available as several others are. All that is here said is in terms of the political strategy, so to speak, that applies to Senator Harding's per-

But that does not alter the effect of the fact in Harding's fortune. Evore the fact in Harding's fortune. Evore person with political experience or judgment knows that Harding to day has a wholly altered relation to the republican situation. How Is Your Weight?

While it is true that too much weight is not to be desired yet the fact remans that many men and women are thin to the point of danger. This danger lies in their having no reserve force or nerve power to combat deadly diseases. A little extrafiesh is needed by all to feel well and to look well and this calls up the question of how best to increase the weight. Physicians and chemists by experiments have solved the problem of increasing the white and red corpuscies of the blood by the administration of 3-grain hypo-nuclane tablets, and this is usually followed by an increase of weight. Obtain in sealed packages, and take for a period of several months, according to directions with package.
