"My little boy Curtis is fourteen years old and never in his life had he seen a well day until he began taking Taniac. I worried and worried over his condition, but in spite of everything I could do he didn't seem to gain any strength and was weak and delicate practically all his life. He seemed to have a very weak stomach.

"He had no appetite at all and what little he did eat seemed to sour on his stomach. Sometimes his heart would palpitate terribly and he would get so dizzy he could hardly walk and as I stood and looked at him I as I stood and looked at him I thought he would surely fall over. He would have bad headaches and was nervous and could never sleep well at night. At school he was never able to keep up his work and he had to stay out a great deal on account of poor health.

I had heard so much about Tanlac can't imagine how overjoyed I was when he began to improve! I kept right on giving him the medicine until now it is hard for me to believe he is the same child. His health is better than ever before in his life and he is bright and playful all the time and he enjoys going out and playing with other boys. He has a splendid appetite and I let him ever before the conduction of the old Umpoua academy, established at Wilbur in 1853, to attend. Each year Wilbur is the Mecca for the pooper students and teachers of the academy. I decided to try it and see if it wouldn't help him. Well, you just can't imagine how overjoyed I was other boys. He has a splendid appetite and I let him eat anything he wants. He is not the least bit nervous any more and is asleep as soon
