Her Happiness is the Result of Preparation and Care

THE expectant mother who does not realize in its full meaning the great responsibility of bearing children properly is making a mistake which may easily lead to everlasting sorrow.

No expectant mother should ignore the better way of preparing for baby's coming. To neglect the approved method may easily destroy their baby's chance of happiness and success and impair their own health. The expectant mother's need for an application that softens the muscles, relaxes nervous tension of the delicate organism involved in maternity, and prepares the way for an easier, quicker and practical delivery is found in Mother's Friend.

USED BY THREE GENERATIONS It is only natural for mothers who have enjoyed the benefits of Mother's Friend to write such a letter as Mrs. S. P. Consler of

"I take pleasure in stating to you that I have used Mother's Friend with my last baby, which is now two weeks old, and brought her with only two pains. I am the mother of five; four taken with instruments. The last was born without a doctor. I will recommend it highly to everybody and if my name is of any good to you it may be used."

# There's No Picture Like the Picture of Health

The greatest master-piece in the Art Gallery of Life is Nature's "Picture of Health".

It is a marv-lous portrayal of the human body at its best. One beholds in its composite detail a true symbol of strength. It presents a figure of striking appearance in its erect carriage, clear skin, sparkling eyes, atrong limbs, steady nerves and firm muscles: fairly vibrating in animation—keen, alert, fresh, and spirited; with an air of unbounded confidence and a face radiant in color and illuminated with a glow of hope and cheerfulness.

Could Nature have taken you for her model? Suppose you study yourself in the mirror of the present and compare your looks, your feelings and your condition with the general characteristics of this picture of the human body in perfect working order, all parts of which are sound, well organized and disposed, performing their functions freely, naturally. If you fall in any single point of resemblance, you are not the picture of health. It's imperative, then, that you look to a means to robuild your strength, energy and vigor—to bring your body up to a normal state of efficiency in all of its parts.
