Kendall replies that he favors the league with full reservations and he favors prompt ratification of the treaty as a plank in the party platform. Edward A. MacLean replies he is for the league with reservations.

VETERAN SEEKS NOMINATION FOR STATE SENATOR

Walter D. Whitcomb, entering the war as a private, was a lieutenant-colonel when the war closed. Mr. Whitcomb is now a candidate for nomination for state senator from Multnomah county in the republican primary next week. Mr. Whitcomb was western member of the board of examiners of the institute of American accountants when war was declared in 1917 and immediately enlisted as a private. His assignments as accountant were such that he won rapid promotion overseas in some of the most responsible accounting work connected with the American expeditionary forces. Later he was ordered to the United States in connection with administrative work and on completion of his mission was sent again back to France.

VANCOUVER HARBOR HEARING TO BE SET

Deep Sea Project Inadvisable, Army Board Holds.

DISTRICT REPORT DOUBTED

Board of Engineers in Reply Declares Port of Portland Is Not Yet Overtaxed.

OREGONIAN NEWS BUREAU, Washington, May 18.—The time and place for a hearing on the proposed harbor improvement at Vancouver, Wash., will be fixed at a meeting of the board of army engineers for rivers and harbors here on May 24. The board is considering the question of whether the hearing can best be held in this city or at Vancouver. A tentative report made by the district engineer, which is favorable, has failed to convince the board of engineers that the improvement is practicable, but the board wishes to give the local interests at Vancouver an opportunity to be heard. The board's position is that the proposed improvement at Vancouver is rendered unnecessary by the convenience of that city to the deep sea port of Portland, in its report the board says, in part: "The river and harbor act approved April 5, 1917, contains the following items: "The secretary of war is directed to make a survey and submit a report to congress upon the advisability of securing a channel in the Columbia river from the mouth of the Willamette river to the eastern limits of the city of Vancouver, Wash., equal in width and depth to the project channel from the mouth of the Willamette river to the city of Portland, Or., and what co-operation, if any, should be given. "The report of the district engineer is favorable for the improvement of the locality by the provision of a channel 30 feet deep from the mouth of the Willamette river to the interstate highway bridge, contingent upon the necessary dikes on the Washington side being provided by the property owners. "After viewing various cost estimates, the report continues: "The plan of improvement is for a channel along the city front between the interstate highway bridge and the Spokane, Portland & Seattle railway bridge, and thence generally near the center of the river, with dikes on one or both sides. "A supplemental report considers an alternative plan for a channel along or near the Washington shore. "In accordance with the law, the report has been referred to the board of engineers for rivers and harbors for consideration and recommendation. The report is accompanied by a statement and request by the port of Vancouver in behalf of the secretary of war, and by copies of letters from parties in interest urging the improvement. The board is not convinced by the facts presented of the advisability of the United States undertaking the improvement proposed for the following reasons: "It is believed that the commerce present and prospective to be benefited by the increase in depth is not sufficient to justify the cost of the work. "It would be more economical to lighten to and from Portland the comparatively small amount of deep-sea commerce than to provide and maintain the deep channel to Vancouver. "Few full cargo loads could be ex-

The Man You Should Nominate FOR SHERIFF Captain John E. Cullison

Candidate of all the people. Not dominated by politicians or any clique or class. Stands upon a war record of things accomplished. Was a prime factor in helping Oregon achieve the glorious record of "first" of all states of the Union in its contribution of men to military and naval service during the world war. Organized 169 boards constituting the Selective Service in Oregon. Selected the personnel, totaling 1500 citizens. Registered 173,438 men for military service. Disbursed all governmental funds in connection with the War Registration and Draft. Won general recognition for his administrative capacity, his industry, his impartiality and his thoroughness. Was universally applauded for his efficiency by army officers, civilians and the press. If nominated and elected will give to the taxpayers an administration of the office of Sheriff as successful from the standpoint of economy and efficiency as characterized his direction of the Selective Service for Oregon. Courteous treatment and justice to all.

pected at Vancouver and going there with or for part cargo is of doubtful economy. "It is believed that for the present, Portland, which is 13 1/2 miles by water and 15 miles, or less, by rail from Vancouver, should be regarded as the head of the deep-sea project, and that it is, therefore, inadvisable to develop another deep port so near to Portland whose facilities for handling additional water traffic are far from being taxed to their capacity. Dr. H. M. Greene Candidate for CORONER

Is recommended for your consideration. His slogan is economy, fairness and impartiality. His past reputation is his guarantee for the future. He is recommended particularly on account of the way he sacrificed to serve his country while his opponent enjoyed all the comforts of home, an income from a lucrative practice and pay from a public office. All else being equal, give the ex-service man preference. Vote 153 X Greene, H. M.

WOOD OR JOHNSON? Hoover Withdraws in Oregon to Block "No League" Candidate.

POINTS OUT DANGER HERE "The inflexible attitude of the president and his supporters and of Senator Johnson and his supporters has brought this issue into the election at an immeasurable moral and economic cost to our country and to the world. If the Republican party, however, is to voice the will of the people and is not to forfeit the certainty of leadership in the next four years, it must embrace the great opportunity which the majority of the American people are prepared to give it. It must support the league with reservations. It must not fall into the trap the president and Senator Johnson are enticing it into." —From Hoover's message to Oregon. LEONARD WOOD HAS DEFEATED JOHNSON BY CLEAN MAJORITIES IN NINE STATES. HE MUST NOT BE PREVENTED FROM DEFEATING JOHNSON IN OREGON. Don't Waste Your Vote! Save Oregon! WIN WITH WOOD! JOHN KELLY COUNTY COMMISSIONER REPUBLICAN OF COURSE—A BUSINESS MAN FOR THE COUNTY'S BUSINESS Vote X 137 (Paid Adv.—by Kelly for Commissioner Club.)

On Friday, May 21 VOTE 310 (X) YES The Higher Educational Tax Act

Chas. N. Ryan

Mr. Hamaker, on account of an article in the Oregon Journal, issued another letter yesterday, going into his life history. The most important part of the latest statement from Mr. Hamaker said: "The last few years I lived in Iowa, I operated a drug store at Stanhope, and at that time druggists were authorized under the law to sell intoxicating liquor for medicinal purposes. Provisions under the law allowed the county attorney a part of the fines collected. The county attorney who was holding office at that time during the term of court which was the last during the term of office of the county attorney caused charges to be brought against almost every druggist in the county, about 20 in number, myself included. I was known as the man who was opposed to the sale of liquor in drug stores. "The principal charge against me was the selling of alcohol under a physician's directions to a man dangerously ill and expected to die at any moment. The county attorney who brought the charge against me operated through a party to whom I refused liquor. I fought the charge, had two trials without conviction, covering a period of about two years, and in the meantime sold my drug store and settled the matter with the county attorney who conceded the one who brought the charges in the first instance, by paying a small fine. "The county attorney who caused the charges to be brought against me was disbarred from the law practice forever. "The anti-Chamberlain democrats are stressing the point that in the democratic primaries the issue is whether the party shall stand with Wilson or Chamberlain, for, according to Mr. Wilson's letter to Mr. Hamaker, the treaty of Versailles is the test of loyalty to the president, and Senator Chamberlain voted for the Lodge resolutions. A vote for Chamberlain, his opponents declare, is a vote against Mr. Wilson. "One of the sidelights on the row among the democrats is the situation in which democrats, who are registered as republicans, find themselves. They are unable to take a hand in the only real scrap that the party has had in years, and all they can do is take the pose of very interested but helpless spectators. "E. A. Spencer Not Candidate. E. A. Spencer has telegraphed The Oregonian from San Francisco that he is not a candidate for delegate to the democratic convention and that he is a supporter of Senator Chamberlain. Mr. Spencer's telegram follows: "Having just learned that in my absence from Portland that I have been nominated by one of the democratic factions for delegate to the national democratic convention, I wish to state that this action is without my consent or approval and that I have no interest in this election from a democratic standpoint except inasmuch as it relates to the renomination of Senator Chamberlain, whose defeat I believe would be a distinct loss to Oregon."
