LARGE LAND HOLDINGS are a blessing to a community, in the hands of a man like Governor Frank O. Lowden, of Illinois, who uses his means and wonderful business ability to develop lands in Texas, where he grows cattle. In Arkansas, where he drains swamps and grows cotton, on his model Illinois and Iowa lands, both operated on a profit-sharing basis with young farmers. Two letters that speak for themselves

Dear Rodin, Yes, I am in the Army now, and here at Camp Vail, learning telegraph operating and telephone and telegraph repair work. I like the life and I really believe I am fitting myself for a good paying job when my enlistment is up. The work is laid out so that it reaches the average man and you don't have to be a high-brow to start in. The school now has ten commissioned instructors, three consulting engineers from civil life, and twenty-four privates. I can be promoted up to one hundred and five dollars a month, practically clear money, for everything you need in life. How are James and Hines? Give my regards to your father. Let me hear from you some time. Yours as ever, Dewey
