

THOMAS R. MARSHALL RUNS FOR PRESIDENT

Hopes for Nomination Are Expressed in Speech.

MR. WILSON IS DEFIED

Vice-President Holds Any Party Has Right to Vote Either For or Against League.

OREGONIAN NEWS BUREAU, Washington, May 20.—Thomas R. Marshall, vice-president, may now be considered an open and avowed candidate for the democratic nomination for president. His candidacy is one of opposition to the president's attitude on the league of nations.

This is the interpretation placed here on the address made by the vice-president at Indianapolis, where he expressed the hope that the president and the senate would seek to reconcile their differences.

Defiance to the president as expressed in the executive's Chamberlain telegram to G. E. Hamaker of Portland, Or., in which he sought to read out of the party anyone not agreeing with him on the league was clearly seen in the vice-president's statements.

"Reading Out" Is Opposed. "I grant to no man the right to read me out of the democratic party nor say to me that I cannot stand upon its platform, advocate the election of his candidates and vote for them myself. I myself will not say to any man that he should leave the league of nations inevitably place him without the democratic fold."

This was regarded as direct answer to the president and aligned the vice-president with those democratic senators who regard themselves as proscribed by the president's Oregon telegram.

The vice-president has been toyed with the thought of becoming a presidential candidate, but it was not until within the last few days that he began to take the situation seriously. How seriously he regards his possible candidacy was clearly indicated by the Indianapolis speech, notwithstanding that he delicately precatory mention of himself in that connection.

Candidacy Not Openly Admitted. The vice-president has undertaken to follow the rules set by other democratic candidates, with the exception of Mitchell Palmer, of not openly admitting his candidacy, while enacting the part of a de facto seeker for the office.

The decision by Mr. Marshall to enter the lists was the result of developments which have been fast following one another in the democratic situation. The president's telegram to the Oregon democrats was the first step in this unfolding drama which has been quickly followed by others. Indication of administration leaning toward Mr. McAdoo was followed by the sudden development of evident strength on the part of Governor Cox of Ohio, which in turn has developed unexpected strength on the part of the anti-Wilson factions of the party.

The result is a crazy-quilt patch work with so many parties and interests running through the narrative that it is impossible to analyze them. The opposition to the president which is finding expression among the strong delegations of New York, Indiana and Illinois, finds itself in harmony with some of the objects of William B. Bryan, while these same factions are utterly at variance with Mr. Bryan on the prohibition question.

Administration Leans to Bryan. On the other hand the administration forces are leaning towards Mr. Bryan in the efforts to overcome the anti-league following and are equally at odds with him on his attitude towards the administration. Mr. Bryan finds himself in the happy position of being able to transact business with all factions opposed to himself and to engage in his party of throwing rocks at all of them.

The president's Oregon telegram and the "wet" issue are the two elements in the situation which are fast working havoc with the democratic plans based on administration control of the convention.

Quick to take advantage of this, Governor Cox has come forward with his heaviest battalions, chief among them being the advantage of choosing a candidate from Ohio. It is so well known that Governor Cox is a "wet" that it is believed it will be unnecessary to put that embarrassing plank in the platform. The Ohioan's candidacy being sufficient to advertise the party's attitude.

Wilson's League Stand Upheld. At the same time Governor Cox has come out squarely in support of the president's position on the league, thus inviting administration support on the double ground of being a supporter of the league and a personal opponent of any position that Mr. Bryan may take.

At the same time Cox followers are quietly circulating the report that McAdoo and Bryan are flirting with each other in the hope that administration supporters will take alarm and that the people may be induced to forget the relative merits which lie between his son-in-law and himself. The Cox followers hope to take advantage of the support which is clustering about Governor Edwards of New Jersey on the "wet" issue without being so openly identified with the issue and, with those advantages, plan to wear out the advantage which Mr. McAdoo will have with the few ballots that remain. It is the same situation which has

PRESERVERS PLEDGE NOT TO BUY SUGAR

Association to Wait Until Prices Come Down.

SUPPLY HELD PLENTIFUL

So-Called Shortage Does Not Exist, Says Head of Body Claiming 85 Per Cent of Manufacturers.

NEW YORK, May 20.—The National Preservers and Fruit Products association announced here today that its members will stay out of the sugar market until the price of sugar comes down from its present high level. The association says it represents 85 per cent of the manufacturers of the country who make jams, jellies and preserves.

The so-called shortage of sugar does not exist, read a statement by Marcus Blackmore, president of the association, who has investigated available supplies with the help of the department of justice and representatives of the refining industry. "Present prices represent pure inflation, caused through hoarding by sugar speculators."

Sugar Held Plentiful. He said that with the sugar that has already been received in this country and the amounts contracted for and available on the Cuban market, an excess of more than 500,000 tons over last year's total consumption is in sight.

It is the hope of the association, Mr. Blackmore said, to start a nationwide movement among manufacturers using sugar and also among the housewives of the country aimed at the present high prices.

"If the housewives want to help they should begin by using up the small supplies of 25 to 100 pounds which most of them have stored away," he said. "As soon as the dealers see that buying has ceased, prices will tumble and the enormous stocks now stored in warehouses and freight cars will become available at reasonable figures."

Foreign Invasion Noted. "Foreign countries which never before shipped sugar to the United States are now invading the American market, content to deprive themselves of their normal supply in order to profit by the high prices this country is willing to pay."

Mr. Blackmore said that other associations of manufacturers using sugar largely were expected to support the preserve and jam makers in their stand against high prices. He said that the National Association of Manufacturers of Fruit Products and Soda Water Flavors had recommended that its members make no contracts for sugar at present prices and the Candy Manufacturers' association was expected to take similar action during their convention next week in St. Paul.

PAPERS FORCED TO QUIT

HUNDREDS HELD WRECKED BY PAPER SHORTAGE.

"Sit Tight and Eliminate Non-Essentials," Is Advice of Chicago Editor to Publishers.

CHICAGO, May 20.—Several hundred daily and weekly newspapers were put out of business last year by the shortage of print paper. It was stated Wednesday at the final conference of members of the Inland Daily Paper Association.

"The best remedy is to sit tight and eliminate non-essentials," Robert H. McCormick, one of the editors of the Chicago Tribune, advised the members, "such as cartoons and extra illustrations. We have to pay the price, for if we don't others will, and they will use print paper for soap and other wrappers."

Colonel McCormick said the Tribune, of which he is the head, would co-operate with any group of paper mills in helping out publishers in distress. He said the Canadian government had placed an embargo on the paper in helping out publishers in distress. He said the Canadian government had placed an embargo on the paper in helping out publishers in distress.

"This is bolshevism and could be termed burglary," he added, "but burglary has another meaning."

TEACHER SHORTAGE SEEN

Educational Conference Urges States to Remedy Laws.

WASHINGTON, May 20.—Addressing the first general session of the National Citizens' Educational conference last night, Commissioner of Education Claxton urged more liberal laws by state legislatures to meet the menacing shortage of teachers. The situation has been brought on by insufficient pay and the lure of high wages in industrial occupations, Mr. Claxton said.

About 120,000 new teachers for the elementary schools will be needed next year, Mr. Claxton estimated, while 50,000 will be required to meet the shortage in high schools.
