We hand-lap pistons, scrape bearings, etc., which insures a perfect running motor. Genuine Ford parts only used. All work guaranteed.

THE REASON
the Ford engine starts hard and the lights are dim is because the MAGNETO is weak. Have it RECHARGED by EXPERTS.

LISTEN.
Would you take your watch to a blacksmith to have it repaired? Of course you would not. Then why trust your automobile to inexperienced would-be mechanics when you can have an excellent automobile repairing done here at low prices and guaranteed work. We guard against any misunderstanding.

AT THE COVEY MOTOR CAR COMPANY PLANT.
"I saw your ad in Sunday's paper, where you recommended the purchase of cars not carrying with them the general popularity of some of the more fortunate makes on the market."
"Yes, if you want to get a good car for a small amount of money, we would recommend that you purchase a car such as this. Many of these makes are built by very responsible firms and are really good cars. We have a wide range of makes and models, some manufactured as early as 1913 to 1916, may be purchased at ridiculous prices."
"Let me see something you can recommend at about $400."
"Here is a Reo, 1914 model, a good-looking car, mechanically perfect, new top, new paint, good upholstery and tires, will run just as well as a car you would pay $800 for. You may pay $50 down, sign a note for the balance and be a proud owner of a good automobile in 10 minutes."
"It sure looks good to me, let's try her out."
