

HOOVER AND OTHERS UNDER SENATE FIRE

Probe of Campaign Expenditures Goes On.

McADOO FUND HINTED AT

Reports of \$5,000,000 Collection to Push Ex-Secretary's Interests Not Verified.

WASHINGTON, May 25.—In its inquiry into the pre-convention campaign expenditures and pledges of presidential candidates, the senate investigating committee dealt in quiet succession today with the candidacies of Herbert Hoover and Senator Francis B. McDonald, republicans, and Governor Edward J. Kelly of New Jersey and Senator Owen of Oklahoma, democrats.

From B. M. Baruch, the committee sought information as to the campaign being made in behalf of William G. McAdoo, democrat, of New York, the first witness at the afternoon session.

Mr. Baruch told the committee he knew absolutely nothing about Mr. McAdoo's campaign or its expenses. Big Fund Hinted at.

Reading from newspapers, Chairman Kenyon put into the records assertions that Mr. Baruch, Henry Morgenthau, ambassador-designate to Germany, and others had taken a "straw vote."

"I know anything about Mr. Hoover's publication, the Washington Herald, or others?" asked Senator Reed.

"Nothing but what I've read," Mr. Baruch said, adding that he had only read about "plans for a Hoover newspaper to operate during the Chicago convention."

E. M. Baruch, who appeared for W. G. McAdoo, democrat, of New York, was the first witness at the afternoon session.

Mr. Baruch told the committee he knew absolutely nothing about Mr. McAdoo's campaign or its expenses.

GROGGER SAYS SUGAR BEING SOLD AT LOSS

Sweets Declared Handled to Capture Trade.

DEMAND EXCEEDS SUPPLY

Witness at Probe Says Jobbers Must Be Allowed Profit 'To Avoid Trouble.'

NEW YORK, May 25.—Although entering sugar at 27 cents a pound yesterday, Harry Baife, chairman of Austin, Nichols & Co., wholesale grocers, today testified before the joint legislative committee investigating profiteering that every pound of it handled showed a net loss to the firm of 5 to 7 1/2 per cent.

He said he believed the present wide variation in prices to wholesalers was due to demand exceeding supply.

"We can't seem to get anything done," he added. "The same amount of pep isn't there." He said various company employees have received pay increases ranging from 12 per cent for salesmen to 49.8 per cent for wagon drivers.

Pep Seems Gone. In reply to inquiry as to why he sold sugar when it showed the firm a net loss, he explained: "The trade buys its other goods where it makes its sugar purchases elsewhere."

Mr. Baife said increased overhead expenses, amounting to 2 1/2 per cent more for the first quarter of 1920 than for the same period last year, were due to the "high cost of loafing."

"We can't seem to get anything done," he added. "The same amount of pep isn't there." He said various company employees have received pay increases ranging from 12 per cent for salesmen to 49.8 per cent for wagon drivers.

Prediction Comes True. Henry W. Wilmet, vice-president of the Cuban-American Sugar Company and the West Indian Sugar Finance Corporation, another witness, put in evidence a copy of a letter from Manuel Rionda of Cuba, to George A. Zabriskie, former head of the sugar equalization board, advising purchase of the Cuban sugar crop.

Unless this was done, said the letter, dated July 29, 1919, "the wild orgy of speculation will follow which will be without precedent in the history of sugar."

Had the Cuban crop been bought, Wilmet testified, sugar would have been 12 cents a pound in this country.

Boston Takes Action. BOSTON, May 25.—The federal government today took action against sugar refiners here for alleged profiteering and hoarding.

The Reverse Sugar Refinery and Henry E. Worcester, its vice-president, were charged with exacting excessive prices and withholding sugar from the market.

and the American Sugar Refining Company and W. K. Green, its general manager, were charged with selling sugar at excessive prices.

The complaint asserted that the companies had made millions of dollars by hoarding and regulating the price.

SUGAR RISE IS PREDICTED Increase of 2 Cents Each Pound Likely to Be Made in Canada.

OTTAWA, Ont., May 25.—Immediate increases in the price of sugar at Canadian refineries were predicted by refiners at an informal inquiry of the board of commerce here today into the sugar situation in Canada.

An increase of 2 cents a pound in the wholesale price probably will be made this week, it was explained later, with other increases likely during the next few months.

The present retail price of sugar here is about 22 cents a pound.

FIFTEEN LAWMAKERS OUT

(Continued From First Page.) is announced the result will not be known.

Later reports yesterday indicated that Charles F. Hopkins had defeated Representative George for renomination from Douglas and Jackson, Glen R. Metzger apparently has also won the nomination from Representative Ballagh of Columbia county.

In the district consisting of Lincoln and Polk counties, D. E. Fletcher appears to have won the nomination for representative from George T. Gerlinger.

On the face of the returns so far as compiled the following nominations have been made for the senate: Douglas—R. Eddy; Josephine—Dr. J. C. Smith; Coos and Curry—Charles Hall; Washington—William G. Hare; Clackamas—Thomas F. Ryan; Multnomah—George W. Joseph; Clatsop—Robert S. Fernald; Wasco and Lincoln—W. H. Eddy; Elmer R. Lundberg (democrat);

Nickelsen; James H. Haslett (democrat); Crook, Deschutes, Jefferson and Lake counties—Sherman and Wheeler—O. B. Robertson; Union and Wallowa—Bruce Dennis or Walter W. Pierce (democrat); Grant, Harney and Malheur—Charles W. Hill; Lincoln, Tillamook, Washington and Yamhill—C. J. Edwards; Nominations for state representatives: Marion—Frank Davey, Thomas B. Kay, D. H. Looney, J. C. Ferry and Ivan G. Martin; Linn—Robert S. Acheson, Charles Childs and W. C. Templeton; Lane—Seward D. Allen, Louis E. Bean and W. T. Gordon; The contest for the second place lies between Arthur H. Marsh and B. F. Nichols; Coos—T. T. Bennett; Coos and Curry—E. F. Peirce; Josephine—J. N. Johnston; Jackson—E. V. Carter and Benjamin C. Sheldon; Douglas and Jackson—Charles F. Hopkins; Benton—E. H. Belknap; Polk—O. Powell; L. D. Brown (democrat); Lincoln and Polk—D. E. Fletcher; Yamhill—Ed Cary and C. M. LaFollett; Tillamook and Yamhill—F. R. Beal; Washington—Earl E. Fisher, A. B. Flint and A. E. Westcott; Clackamas—Philip Hammond, F. D. Shank and William M. Stone; Clackamas and Multnomah—W. R. McDonald; Multnomah—Harvey Welle, Barge Leonard, K. K. Kocub, W. C. McKinnis, J. D. Lee, Oren R. Richards, O. W. Horford, Herbert Gordon, E. C. McPherson and L. E. Denton; G. Burdick and H. J. Overturf; R. E. Bradbury (democrat); Morrow and Umatilla—C. E. Woodson; Umatilla—S. A. Miller and Frank

He said: "It must be right or wrong"

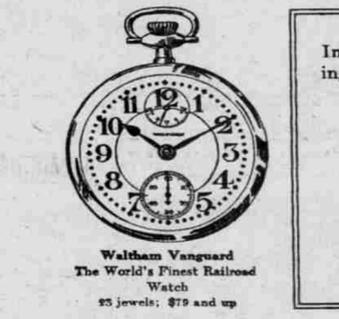

GREAT men come into this world to set new standards, to lead us by the hand, to show us our latent possibilities, to point out to our errors, to add wisdom unto our knowledge and leave us enriched by their living.

Many illustrious names have graced the annals of Waltham progress in the craft of watch and clock making.

And none greater than Duane H. Church, a man whose inventive faculties were amazing and whose work in the field of applied mechanics placed America first in the great industry which Waltham represents.

At a memorable banquet given some years ago in New York, representative of American genius, Duane H. Church was an honored guest as one of the greatest Americans of his time. He was invited there as co-guest with Edison, Morse, Bell, and others whose names are international household words.

It was an axiom of Duane H. Church that a mechanical thing was either right or wrong. He would not tolerate any middle ground. He rigorously applied this principle to the marvelous machinery he invented, to his original creations in time-keeping mechanisms, and his clear thinking mind concentrated just as eagerly on an infinitesimal part in a watch as upon the problems involved in automatic machines.

Waltham Vanguard The World's Finest Railroad Watch 25 jewels; \$75 and up

chinery he invented, to his original creations in time-keeping mechanisms, and his clear thinking mind concentrated just as eagerly on an infinitesimal part in a watch as upon the problems involved in automatic machines.

"Is it right? If not, it must be wrong." And to make mechanical things "right" was his life work.

And it is this ever-living ideal that has given the Waltham Watch a greater mechanical "rightness" than any other watch in the world.

We make this statement fearlessly and the "works" of a Waltham Watch are its unanswerable proof.

WE are talking now of the unseen excellences that go deeper than fancy cases, or odd-looking dials, or claims to ultra thinness, fancies, or preferences, or general statements about this or that watch—we are talking of the hidden things, the secret things in watch construction, things that when you go to buy a watch you don't know anything about, yet which mean everything to you for time-keeping and durability.

Did you ever hear of a "steady pin"? No! Well, it's a tiny pin that guides and helps to fasten together in correct position the plates of your watch. The genius of Waltham has been concentrated on a "right" steady pin. A

pin that will hold firmly; indefinitely; that cannot become loose; that allows the particular part to be readily removed without stress or friction; that will keep the Balance Wheel true.

And the Waltham steady pin is the "right" steady pin. It is different from all other steady pins. And has more to do with good time-keeping, low repair bills, and dependable life-service for which Waltham Watches are famed, than one can even imagine.

AND there are many, exclusive inventions, little hidden things, in Waltham Watches which we are telling the world about in our national advertising campaign. It will profit every man and woman who contemplates buying a watch to read about them.

The tremendous, far-reaching demand for Waltham Watches is a tribute to Waltham excellence. The resources of our great institution are intensified to answer this demand. From all over the world hands are stretched out to own a Waltham Watch. Thousands are patiently waiting until the beautiful and dependable timepiece is their own. If you are one of that number your confidence will be rewarded with a watch whose every mechanical part is made "right."

A Waltham Watch will therefore protect the money you pay for it by a life-time service.

In this series of Advertisements the following Waltham Watches will be Featured:

- 10 Ligne (Ladies) \$80 and up
Men's Opera \$85 and up
1 1/4 Ligne (Ladies) \$250 to \$1,500
Colonial A (Men's) \$300 to \$325
