RAILROAD \n
WASHINGTON, D.C., May 26—Two men today were arrested by a posse at the home of Joseph Proctor, near the former's home, after the former was arrested in Portland, Ore., on charges of conspiracy to commit murder.

The two men were identified as a son and daughter of Mr. and Mrs. Joseph Proctor, who live at 2120 s. and N. Pacific Ave.

The son, who was identified as a person of interest in the Proctor case, was arrested at 11:30 this morning at his residence.

The daughter, who was identified as a possible suspect in the case, was arrested 10 minutes later.

The son, 22, was charged with conspiracy to commit murder, and the daughter, 19, was charged with aiding and abetting the murder.

The investigation began last week after Proctor, a former member of the Portland Police Department, was found dead in his home.

Proctor was a registered Democrat and had been a political campaign worker.

The exact cause of Proctor's death has not been determined, but authorities believe it was a result of a dispute over political donations.

The son was released from jail this morning after posting bond.

The daughter is still in custody and will be arraigned later today.

Missouri claims to have discovered a new mineral that could change the course of American history.

The claim was made by a local resident who said he had found a rare and valuable mineral that could be used to create new technologies.

The resident, who requested anonymity, said he had discovered the mineral while prospecting in the mountains.

The mineral is said to be highly valuable and could lead to a new era of technological advancement.

The resident said he had already contacted several companies interested in investing in the discovery.

LONDON, May 26—More than 300 German soldiers were killed in an ambush in the Rhine Valley today, according to the latest reports.

The German forces, which have been advancing into France for several days, were caught off guard by the ambush.

The fighting continued throughout the day and night, with both sides suffering heavy casualties.

The German forces, led by General Erich von Manstein, have been advancing into France for several days in an attempt to cut off the British and American forces in the north.

The fighting has been fierce and bloody, with both sides suffering heavy casualties.
