

RESTAURANT STRIKE DANGER IS AVERTED
Caterers to Consider Request of Workers.

EMPLOYERS MEET TODAY
Three Unions Appoint Committees to Confer With View to Adjusting Case.

Any danger of a strike or walkout of the employes of Portland restaurants was averted yesterday...

The following committee was named by the union leaders: E. R. Hatch, president of the cooks' union...

Strike Not Contemplated. "First of all, we want to assure the caterers and the general public that we are just as much interested in the Shrine convention as any other group of citizens..."

"We are, therefore, asking our employers to appoint a committee to meet with the sub-committee of the joint board to discuss the present situation so that the minds of the skeptical may be eased and to see what can be done to promote our mutual best interests..."

Request Goes to Board. "And if there is any member of our committee who cannot understand those principles we shall put him off and elect someone else," Mr. Butler declared.

Mr. Beach asserted he was but the mouthpiece of his organization, but that he would put the request of the joint board, which had been before that body yesterday in the form of a motion, before the caterers in a special meeting today.

"And if they appoint a committee we can meet with them as soon as their session is adjourned. We shall be able to get our men together in a few minutes," added Mr. Johnson.

There are 1650 members of the unions involved in Portland and 229 eating establishments have signed the original agreement with the unions. Sixty-five restaurants and hotels are members of the Caterers' association, Mr. Beach said.

MORNING LENDER ACCUSED
PURCHASE OF ALTERED WAR SAVINGS STAMPS CHARGED.

Morris Silverman Held to Grand Jury Under \$5000 Bonds Following Hearing.

Morris Silverman, a Portland money-lender, was held to the federal grand jury under \$5000 bonds yesterday on a charge of purchasing altered war savings stamps...

Silverman is said to have admitted to Operative Workers of the United States secret service that he purchased the stamps in Portland. After holding the stamps for two months or more, Silverman, according to Assistant United States Attorney Reames, went to San Francisco where he disposed of them through several different persons.

In the complaint filed against Silverman and on which he was heard yesterday before United States Commissioner Drake, he is accused of having purchased 140 of the stolen war savings stamps, but federal investigators said this is but a small part of the number which were stolen from the Bank of Dayton and which were sold at San Francisco.

The three persons in San Francisco to whom Silverman is said to have sold the altered stamps will be brought to Portland early next month to appear before the grand jury when it makes a complete investigation of the case. It was said yesterday at the federal building that others probably will be involved.

Evidence at the commissioner's hearing yesterday developed that the stamps were purchased in lots of 100. The stamps were not attached to the certificates when bought, and the mullage also had been removed, thus indicating plainly that they had been altered.

In addition to the lack of mullage, it was shown that the registered numbers on all stamps had been removed by acid. Under a strong glass the register numbers can be read, thus giving the government positive proof that they are a part of the large number of stamps stolen from the Bank of Dayton.
