

### RECKLESS DRIVING GETS SIX MONTHS

Defendant Is Fined \$500 and Sent to Prison.

### JUDGE TALKS SEVERELY

Accident Caused by Failure to Give Right of Way Leads to Municipal Court.

"I think the defendant is the sort of a man who should be ruled entirely off the road," declared Municipal Judge Rossman yesterday in commenting on the case of George Vrvilo, driver of an automobile which overturned at Nineteenth and Thurman streets, resulting in the death of Tony Polich, of 583 Xavier street, and seriously injuring two other occupants.

The judge fined Vrvilo \$500 and sentenced him to six months in jail, the heaviest penalty possible under the charge of reckless driving. The prosecution was in charge of Deputy City Attorney Stadler.

In fixing the penalty, the judge expressed the belief that the complaint, which had been filed against the man, was not big enough to cover the case.

"Here we have a man who, after overturning his machine and mortally injuring one companion and seriously injuring others, runs away and hides instead of giving assistance to the injured," said the judge. "Such a man has no business on the street."

The judge also remarked that the only way to treat such individuals was just as they do the public, "treat them rough."

### Accident Due to Racing.

The accident occurred as the culmination of a race down Nineteenth street, which Vrvilo is said to have had with another machine. He attempted to turn west on Thurman street, with the result that his car overturned, pinning some of the occupants beneath. Witnesses estimated the speed of Vrvilo's machine at about 35 miles an hour.

Vrvilo, when arrested by Motorcycle Patrolman Stiles, was concealed in a house six blocks away from where the affair happened, the patrolman testified. A companion, M. Ulrich, 583 Xavier street, admitted that both he and Vrvilo left the scene of the accident before the police or ambulance arrived. Ulrich swore on the witness stand that the car was only going eight or ten miles an hour at the time it overturned. He was unable to explain how a machine going at such a low rate of speed could be carried over the curb and onto the lawn by its momentum.

J. L. Shaw, of 315 North Twenty-second street, who was driving down Nineteenth street at the time, said that the car driven by Vrvilo went four blocks while he was driving on. He said his own speed was about 12 or 15 miles.

Mrs. H. H. Root, 993 Minnesota street, estimated Vrvilo's speed at "at least 30 miles. Robert N. Cruise, 391 North Twenty-second street, placed the speed of the wrecked machine at about that figure.

Attorney for Vrvilo announced that they would appeal the case. His bail was placed at \$1000.

E. Abrams, 412 1/2 Park street, drew the second highest penalty for the day, when Judge Rossman fined him \$100 on a charge of failing to give right of way to a car.

Abrams was arrested by Sergeant Keegan and Patrolman Stanton on Wednesday night following an accident in which his machine could be driven by L. H. Butler, 186 East Sixty-first street North, at the intersection of Seaside and Thurman streets, damaging Butler's automobile and throwing Mrs. Butler to the pavement, bruising her severely.

When Abrams made a report at the police station he minimized the character of the collision and failed to mention that Mrs. Butler had been hurt.

Municipal Judge Rossman declared war yesterday on drivers of machines arrested with improper tags on their cars. A number of such drivers, some of whom had tags belonging to other cars, appeared before the judge charged with violating the state auto law.

"It seems that the only way to put a stop to such business is to fix fines heavy enough to make you drivers take notice," declared the judge.

**Bribe Difficult to Fix.** "If a man should be injured by one of you men with improper license tags it might be impossible for the authorities to fix the responsibility. Even though the victim did take the license number it would do him no good."

Jess Ingram and Guy Ingram, who fitted up two machines for demonstration purposes with license tags from other machines, were fined \$25 each. Harold Simpson was fined \$25 and G. D. Randolph \$10 on similar charges of having improper license tags.

E. C. Larson was fined \$25 on a charge of permitting his son, a minor, to drive his machine.

A speed of 44 miles an hour resulted in Ed Carlson being fined \$25. Other traffic fines levied included: E. A. Kritz, violating traffic ordinance, \$10; John F. Galkofen, speeding, \$10; R. T. White, speeding, \$5; W. Gravel, speeding, \$8; O. A. Zirkelby, glaring lights, \$5; Albert Nelson, glaring lights, \$5; C. L. Reed, glaring lights, \$5; Fred Beymer, glaring lights, \$5; Oliver D. Brunkow, glaring lights, \$5; H. Therkelson, improper lights, \$10; Dr. Lacy, speeding, \$10; W. L. Phillips, cutting corner, \$5.

### REED "FROLIC" TODAY

College Seniors Plan to Establish Commencement Tradition.

Today is "frolic day" for Reed college seniors—and wives and husbands. It is the last reunion of the class prior to receiving diplomas at commencement tomorrow, and the seniors plan to make the day a tradition.

Rankin, 207 Fourteenth street, at the intersection of Fourteenth and Taylor streets Wednesday night, were both charged with reckless driving yesterday. Their bail was placed at \$1000 each.

The police reported that the two men were driving at a high rate of speed at the time of the accident, apparently racing for the intersection. The car driven by Libke struck the other machine on the side, bowled it about 20 feet and it careened into Mr. Rankin just as he had started to cross the street. He was knocked down in the path of Libke's machine, which ran over him.

Mr. Rankin was reported in a critical condition at St. Vincent's hospital yesterday. He suffered a fractured skull and possible internal injuries.

### IMMEDIATE ACTION ASKED

MAYOR IMPATIENT WITH SUB-COMMITTEE ON RENTS.

No Report on Profiteering Likely to Be Ready for Month, or Perhaps More.

Delay by the sub-committee appointed to outline a plan of procedure for the guidance of the anti-rent profiteering committee has aroused Mayor Baker to demand immediate action. Ten days have elapsed since the committee was appointed and no report had reached the mayor's office up to yesterday.

Mayor Baker yesterday wrote to A. L. Veazie, chairman, requesting that the committee complete its work and formulate a report to guide the city in its action against rent profiteers.

"There is no intention on my part to allow the investigation of rent profiteering to end without a complete report," said Mayor Baker. "I realize that the committee members are all busy people and I do not want to criticize them. However, I have written to Mr. Veazie, urging that the sub-committee conclude its work at once."

At the last meeting of the committee the entire time was consumed in discussion of procedure. No investigation of rents was made, but Mayor Baker designated A. L. Veazie, C. C. Colt and R. W. Price as a sub-committee to formulate procedure.

Several of the committee objected to publicity given in cases unheeded by the investigators. Such objection was made in the face of instructions given the investigators to cause publication of any cases where it was believed that publicity would stir rises in rents.

It is probable that a meeting of the main committee will be called early next week. It is not expected that a report will be ready for a month or more, however.
