

### RED FORCE NEARING CAPITAL OF PERSIA

#### Teheran Expected to Fall to Bolsheviks Soon.

### BRITISH TROOPS RETREAT

#### Indian Contingent Said to Be Heading for Bagdad—Polish Cabinet Has Resigned.

PARIS, June 10.—The bolsheviks are rapidly extending their operations in Persia, according to advices received by the French foreign office today. Teheran, the capital, is in danger of falling into the hands of the bolsheviks in two or three days, it is declared. The Persian government is organizing resistance. The British, the advices state, have retired to Manjil under bolshevik pressure.

A Russian soviet wireless message received yesterday declared that a provisional government had been formed in Resht by the revolutionary leader, Mirza Kutchuk, and that the British were hurriedly retreating towards Bagdad, having abandoned Resht without fighting. The British Indian troops were declared in this message to be opposed to fighting against the Persian revolutionists.

LONDON, June 10.—The bolsheviks have held up the forward movement begun in the Crimea early this week by the army of General Wrangel, who succeeded to the command of the remnants of the Denikin forces in southern Russia, it is reported in an official soviet statement received by wireless from Moscow today.

LONDON, June 10.—Russian bolshevik forces are advancing near Kiev and southwest of that city, according to an official wireless message from Moscow.

Bolshevik cavalry has broken through the Polish lines after defeating cavalry and infantry detachments, the statement declares. In the Bohemian region, along the Polish reaches of the Berezina river, a Polish attack has been repulsed, while fighting continues north of Gornal, near the mouth of the Berezina.

WARSAW, June 9.—By the Associated Press.—Poland will send a peace note to the Russian soviet government within a few days, according to the newspapers here.

The cabinet of Premier Skulski resigned Wednesday. The resignation of the cabinet is understood to have been brought about chiefly by opposition to the government's policy with regard to the creation of a buffer state between Poland and Russia.

### SUGAR HARVEST BEGUN

#### PHILIPPINES TO HAVE ABOUT 225,000 TONS FOR EXPORT.

#### Price of Tea to Be Increased Despite Prospects of Good Production in Japan.

SEATTLE, Wash., June 10.—(Special.)—The sugar crop now being harvested in the Philippine Islands will aggregate 225,000 tons for export, said a statement received today from Honolulu by the chamber of commerce foreign trade bureau. The statement said that of the 225,000 tons available for export, 75,000 tons are centrifugal and 150,000 tons muscovado, and between 75,000 and 100,000 tons will be available for home consumption.

Centrifugal sugar, 96 per cent pure, forms only a small percentage of the production, while muscovado, in which a larger percentage of molasses remains, forms the bulk of the production.

In spite of a prospect for a good crop of tea in Japan this year, manufacturers said that they would have to increase the price of tea products in view of the increased wages occasioned by the scarcity of farm labor and absorption of female labor by the textile mills, said advices received by the bureau from the orient.

Good crops and high prices point to a profitable tea trade this year for Japan, and prices probably will be 20 to 40 per cent above those of last year.

The 1919 harvest of rice in Formosa will be approximately 1,500,000 bushels greater than in 1918, it is reported.

### CLAM PACK 60,000 CASES

#### Between 400 and 500 Persons Employed During Season Just Ended.

BERDEEN, Wash., June 10.—(Special.)—The clam pack for Grays Harbor for the season which closed June 1 totals 60,000 cases, or 2,880,000 cans. Between 400 and 500 persons were employed in the industry for three months. Five plants were in operation. These were the C. O. Swenson plant at Copalis; two Pioneer Packing company plants at Moclips and Copalis; the Grays Harbor Fisheries plant and the P. S. Gullifer plants at Westport.

The pack this year was approximately 10,000 cases over last year. The price of clams to diggers was high.

### TRUCK HITS BOY ON CURB

terday shortly after noon when he was struck by an automobile driven by John P. Wilson, 515 Morrison street, driver for the Hazelwood Ice Cream company, at the intersection of East Forty-fifth and Lincoln streets.

### SUGAR CHARGES ARE FILED

#### UTAH-IDAHO SUGAR COMPANY ACCUSED OF PROFITTEERING.

#### Sale of Product Costing \$9.50 to Manufacture at \$23 Hundred Pounds Charged.

BOISE, Idaho, June 10.—(Special.)—Charges of making excessive profits contrary to the Lever act, were filed today at Pocatello against officials of the Utah-Idaho Sugar company before United States Commissioner Turner, federal officials here announced. The complaint was filed by E. E. Marrine, head of the department of justice in Idaho, following investigations conducted by him and other members of the department in the southeast.

The complaint charges that the Utah-Idaho Sugar company, directed by Heber J. Grant, C. W. Nibley, W. T. Pyper and S. H. Love, has made excessive profits in the selling of sugar to dealers at Pocatello, and four different points are cited in the complaint, which charges that the corporation sold sugar, which cost \$9.50 to manufacture to two different mercantile concerns at prices ranging above \$24 a hundred, and that on May 5, at Pocatello, the Utah-Idaho Sugar company consigned to the Zion co-operative mercantile institution 25 bales of beet sugar at \$24.81 a hundred, the total cost of manufacture being \$22.38 a hundred. On May 8 the charge of the sale of 100 sacks to the same concern at \$23.38 a hundred, and other sales are to the Idaho Wholesale Grocery company, and consists of 100 sacks on May 5 and another 100 sacks May 12 at \$21.67 a hundred.

## Why Trifle With Green, Unripe Drinks? Drink Schlitz—It Is Aged

YOU would not eat green fruit—fruit which is unripe. Yet unless you exercise care you will drink an unripe beverage—and suffer consequences.

There is a tendency today to cheapen and hasten beverages to meet a quantity demand.

Schlitz is not rushed. It is a scientific product—not a trifling concoction of the moment.

The years of experience and the hundreds of thousands of dollars worth of equipment that made Schlitz famous is making the Schlitz of today.

Schlitz is thoroughly aged—fully ripe. Then it is cooled in plate glass rooms, in filtered air.

The final step, after bottling and sealing, is sterilization by Pasteur's process—through which it is impossible for any germ to exist.

When we say Schlitz is pure we mean also that it contains no living organisms—no bacilli—nothing to cause fermentation in your stomach.

Drink Schlitz today. The Brown Bottle protects it.
