

TWO GIRLS SOUGHT IN DUBINSKY CASE

Part of St. Johns Telephone Found by Police.

ARRESTS EXPECTED SOON

Detectives Comb Peninsula Searching for Missing Chauffeur's Body or Companions.

In the belief that two girls living somewhere in St. Johns formed a party of four with the man in the gray suit and Harry Dubinsky, taxi driver, on the night of the latter's mysterious disappearance, could give valuable evidence in the clearing up of the mystery and supposed murder of the driver, inspectors are making every effort to secure the identity and apprehension of these girls.

Lieutenant of Inspectors Goetz predicted last night that, with the evidence now in the hands of the police, the two girls would be taken into custody in a few hours and the work of clearing up the mysterious disappearance would be under way.

Girls' Phone Number Sought. A portion of the telephone number of the two girls, who are said to have taken a joy ride with the missing taxi driver and the man in gray on Friday night, preceding the disappearance and who are believed to have been with Dubinsky on the night of his disappearance, is in the hands of the police and, with this, a check is being made. The police know that the number has a Columbia prefix and they have at least one of the figures.

After the man in gray asked for the telephone number of the girl, he was said to have gone away and to have returned about an hour later. At this time he called Dubinsky to one side and conferred with him for some time.

Police believe that the four went out later in Dubinsky's machine and that while on the joyride the missing driver must have been murdered. The man in gray, who was seen Saturday by Dubinsky's friend, is believed to have been the same man who was seen to abandon the blood-spattered automobile Sunday at the mouth of the river in the vicinity of the peninsula.

AUTOISTS TAKE PLEDGE

SIX SPOKANE COMMANDMENTS ISSUED IN EMERGENCY.

Gasoline Shortage Is Not Thought Acute in North if Saving Is Encouraged.

SPOKANE, Wash., June 17.—(Special.)—"I pledge myself to save gasoline. I will not let my engine run idle. I will not race my engine. I will not make unnecessary trips. I will have my carburetor adjusted at once to use thin mixture. I will encourage the conservation generally and will report any one found wasting gasoline to the automobile chamber of commerce."

These declarations on a pledged printed card signed by the owners of the city are the basis of a gasoline conservation campaign being launched in the city yesterday by members of the automobile chamber of commerce. Persons having this pledge on their machines will be recognized as supporters of the conservation campaign and will receive consideration from gasoline dealers in the city.

"There is no real shortage of gasoline here at this time," said Ed M. Rock, secretary and manager of the automobile chamber at a meeting of gasoline and automobile men today.

"The supply of gasoline in Spokane and the surrounding territory is approximately 15 per cent short, which does not make the situation an alarming one."
