

### ELECTION TO DECIDE SCHOOL LEVY TODAY

Two Members of Board Also to Be Chosen.

### SEVEN ARE IN RACE

Problem of Having Permanent or Portable Buildings for Increased Classes Is Faced.

Two members of the board of education of school district No. 1 are to be chosen by the voters of Portland at the regular school election today, and the important problem of whether the school district will erect permanent buildings to care for the needs of the school children or will continue to erect portable structures will be up for decision through a special tax levy measure on the ballot.

The polls will open at 12 o'clock and will close at 8 P. M. For the election of school directors, anyone who is qualified to register for a primary or general election, whether he be actually registered or not, is eligible to cast a vote, while for the special tax levy only those who are paying taxes for real or personal property held in his own name, or who are stockholders of a corporation paying such taxes, are eligible to vote.

**Heavy Vote Is Expected.**  
In view of the interest in the election of school directors at this time and also because of the desire of many residents to see the school housing problem solved by the erection of adequate permanent buildings, a heavy school election vote is expected. A complete list of the polling places was published in The Oregonian Friday morning.

Seven candidates are seeking the two positions to be filled on the board of school directors, and each voter will be qualified to vote for two of the seven. Among the candidates are two prominent local business men, Frank L. Shull, manager of the Globe Grain and Milling company, and William F. Woodward of Woodward, Clarke & Co. Both were prevailed upon to make the race and are being actively supported by a large number of citizens and property owners.

**O. M. Plummer Also Candidate.**  
The other candidates are O. M. Plummer, who is running for re-election; Mrs. Francis A. Sherman, Arthur W. Jones, S. A. Murhard and J. N. Peary. All are well known and have been waging active campaigns.

The special tax measure to be voted upon at this time calls for a 2-mill levy, designed to raise approximately \$500,000, which, if obtained by the passage of the measure, will be used for the erection of permanent buildings in districts where increases in population have made classroom facilities inadequate.

If the tax levy is passed, the construction of more than a score of portable schools will have to be rushed this summer to provide for all the children at the fall opening of school. The school directors, however, will immediately take steps toward obtaining plans for permanent school buildings and would probably have actual construction under way shortly after the money would be available the first of the year.

**Coal Scarce at Baker.**  
BAKER, Or., June 18.—(Special.)—Coal shipments to Baker are few and far between and consumers see no chance of laying in an early supply for winter. The price now is \$12.50 a ton and with an advance in railway freight rates, as anticipated, the price will go higher, it is expected.

**Spark Causes \$50,000 Fire.**  
SPOKANE, Wash., June 18.—The lumber mill, owned by the firm of Russell & Pugh at Springston, Idaho, was destroyed by fire today, with a loss estimated at \$50,000. A spark from the mill engine is supposed to have started the fire.
