QUEEN CLAIRE (MRS. CAMERON SQUIRES).

The most brilliant and formal festivity of the 1920 Shrine gathering of interest to the women was the banquet last night at the Benson hotel in honor of Mrs. Freeland Kendrick, wife of the Imperial Potentate. The crystal room presented an inspiring scene with a wealth of Oregon's choicest roses, an assemblage of lovely women, an array of sparkling gems, diamonds, rubies and pearls of great price and an air of cordiality and friendliness that made the function a most auspicious event.

There were 37 tables and each was centered with a mound of roses of various colors and varieties.

Mrs. A. H. Lea, wife of Oregon's illustrious Potentate, was chairman of the committee that arranged for the entertainment of the Ladies of the Imperial divan, of which this dinner was the most notable feature.

Following are the women outside of Al Kader who attended:

Forrest Fisher, Mrs. Harry Beals Torrey.

MR. AND MRS. FINLEY BACK

Extended Trip Along Gulf Coast Made to Study Bird Life.

Mr. and Mrs. William L. Finley returned to Portland yesterday from an extended trip along the gulf coast of Texas, where they have been taking motion pictures of bird and animal life, fishing and other outdoor studies. They exposed about 10,000 feet of motion picture negative and took a large number of still life photographs.

In conjunction with T. Gilbert Pearson, secretary of the national association of Audubon societies of New York City, they visited a large number of the islands all along the Texas coast, where innumerable water birds live, many of which are extremely rare and have never been photographed. Some of the more tropical birds and animals found in Mexico are not found in any other place in the United States except in the locality visited by the Finleys. They discovered a large colony of reddish egrets, the only known nesting place of these birds within the borders of the United States.

LUNCHEON SERVED TO 800

Committee Undaunted by Delay of Hour and Half to Shriners.

The auditorium luncheon committee was undaunted by the matter of a delay for an hour and a half in adjournment of the Imperial Shrine representatives at their initial session yesterday, and the service was of the best and menu most satisfactory for the 800 nobles who represent officially the temples at the session. It was 1:45 P. M. when the representatives marched down to the laden tables. There was no ceremony, but the hour of refreshment gave opportunity for visiting among the representatives and exchange of opinion on matters to be considered during the session.

The full committee was engaged in handling the disposition of the visitors in the big dining room, headed by E. N. Strong, chairman, and Carl Tipton, vice-chairman, and with the following members as hosts: A. Feid-

Youthful, Beautiful Skin Easy to Have

You may be as healthy as a bird in the air and still have a poor complexion. Changing seasons and temperatures, winds, dust and dirt, are apt to injure any skin, even though the general health be good. When these external influences spoil the complexion, the natural thing is to remove the spots by external means. Ordinary merrillized was will do this. It will actually absorb the weather-soiled film skin, a little each day. In a week or two you'll have a brand new complexion, a new skin. The exquisitely beautiful and youthful complexion thus acquired, comes so easily, without harm or discomfort, there's no reason why any woman should not adopt this simple treatment. Just get an ounce of merrillized was at any drug store, apply nightly like cold cream, washing it off morning. This will not fail in any case. It is the best thing known for freckles, moth patches, liver spots and pimples.—Adv.
