

TAMMANY CHIEFTAIN CHARGED WITH PLOT

True Bill Alleges Conspiracy to Get \$125,000.

FIVE OTHERS INDICTED

Reported Attempt to Coerce Defendant in \$10,000,000 Damage Suit Also Cited.

CONGRESS OPENS SESSION

INTERNATIONAL MEETING HAS FRENCH CHAMPION.

Opening Address Says Gathering Due to American Initiative and Energy.

OWLS TERRORIZE GIRARD

ONE MAN MAY LOSE SIGHT; MANY PERSONS ATTACKED.

Belligerent Birds Invade Towns and Go Into Action Against Residents Regardless of Sex.

MURPHY REFUSES TO TALK

Indictment Is "Business Suit," Says Leader of Tammany Hosts.

SAN FRANCISCO, June 23.—Charles F. Murphy, leader of Tammany hall, accompanied by Governor Alfred Smith of New York, came to town tonight but the spirit of loquaciousness was not upon him and he refused to say anything.

RUSS GENERAL IS HERE

Commander of Hussar Guards Lands at San Francisco.

SAN FRANCISCO, Cal., June 23.—Lieutenant-General Nikolai Nikolovich Golovine, commander of the Russian Hussar guards on the Gallian front in 1914 and later chief of staff of the Russian armies on the Rumanian front arrived here today on the steamer Tenyo Maru on what he termed a "pleasure trip." General Golovine's last commands were under Admiral Kolchak.

MOUNTED POLICE ARRIVE

(Continued From First Page.)

Tren, Finkle, Kirkpatrick and Woodman making up the personnel. Every man of them is an overseas veteran. All saw active service in the great war and are typical of the sturdy manhood that has made the north-

west mounted police the synonym of physical vigor and mental acumen. The 17 horses that they will ride while in Portland are splendid equine specimens, ranging in weight from about 1360 to 1200 pounds. The horses were unloaded at a chute at the west end of union station terminal yards and were taken thence to the Portland riding academy at Twenty-first and Johnson streets.

Accommodations and luggage of the men was taken by auto truck to the quarters. Reservations for the men of the command were made at the Multnomah hotel, and the management succeeded in shifting guests to make the rooms available.

Blake Wilson, president of the Vancouver board of trade, came through with the party and will officially represent that commercial organization at the Festival. He proceeded to the hotel to see that all was in readiness for the party.

There's a Touch of Tomorrow In All Cole Does Today

Aero-EIGHT Hot-Blast Manifold Assembly

Operation of Aero-EIGHT Hot-Blast Manifold

The Cole Aero-EIGHT Manufactures Its Own High-Test Gas at No Additional Cost

Perfect Combustion—Smoother Running—Quicker Get-a-way In Cold Weather—Less Carbon With Aero-EIGHT Hot-Blast Intake Manifold

Quick to realize that in order to get the maximum motor car efficiency something must be done to combat the handicaps imposed by the rapidly deteriorating fuel supply, Cole engineers developed a superheated intake manifold.

Through this device, the gasoline was heat-treated before entering the carburetor and properly vaporized to insure smooth running, quicker get-a-way in cold weather, and the elimination of carbon deposits usually associated with the use of low-test fuel.

From this early vaporizer the present highly efficient HOT-BLAST MANIFOLD of the Aero-EIGHT was evolved. This new device manufactures high-test gasoline as it is required by the motor. There is no additional drain on

the fuel supply carried by the car—no subsidiary appliances, nothing to get out of order, nothing to require adjustment.

The heat expended from the time of the first explosion of the engine is utilized to accomplish the results, being concentrated where the fuel is most susceptible.

The quick get-away of the Aero-EIGHT, its smooth operation on low throttle, its exceedingly high mileage per gallon of gasoline, its freedom from carbon annoyance, its adaptability to varying conditions of temperature and its ability to give maximum efficiency even though the poorest test fuel is used are all traceable to the Aero-EIGHT HOT-BLAST MANIFOLD. It is a true revelation.

First, let us take you for a ride in an Aero-EIGHT that you may appreciate its superior performance. Then let us show you how the Aero-EIGHT HOT-BLAST MANIFOLD manufactures its own high-test fuel while the car is running

KILL CORNS AND WEAR SMALLER SHOES

Home Method Discovered by Chemist Ends Painful Growths.

Many persons are unable to wear the shoes that actually fit them because they are troubled with corns or callouses. Extra-size footwear is not necessary, however, after these painful growths have been painted with Cactus Corn Compound. This preparation stops the pain of corns at once and causes them to dry up and soon fall off.

This method of removing corns can be employed at home by anyone and is perfectly safe, while cutting is very dangerous. A small bottle of Cactus Corn Compound, costing only a few cents, will remove dozens of corns. Your druggist has it and will refund your money if it does not please you. —Adv.
