of the current month overshadowed interest in the stock market today.

Call loans opened and renewed at 8 percent, rose to 10 per cent at noon, gradually advancing to 14 per cent, a rate only once exceeded this year, in the final hour. For all material purposes time money ceased to exist, further bids of 814 to 9 per cent bringing out only the smallest supply.

Foreign exchange, particularly the London rate, continued to react from the high quotations of recent days. In this connection it was noted that the weekly statement of the Bank of England gave no hint of prospective gold experts to this market. The Bank of France reported only a nominal gain of builton, while its discounts and advances increased almost 70,000,000 frances.

The stock market was inclined to move forward in the early and intermediate periods of the dull session, but most gains were cancelled when money became the dominant factor. Sales, 325,000 shares. An element of interest was injected into the bond market by the increased activity and strength of Holgan 745s, which rose a substantial fraction. Other foreign lesues were steady to firm, but liberty bonds and some of the rails were mostly lower. Total sales, par value, \$12,850,000. Old United Stales bonds were unchanged on call.

Coffee Futures Firmer.

NEW YORK, June 24.—There was a firmer tone in the market for coffee futures loday. The opening was irregular at a decline of 4 points to an advance of 5 points and there was some scattering liquidation on July at the start. Later, however, July shorts seemed to be covering in advance of the notice day tomorrow and ane of the chief trading features was the exchange of 36,000 bags of July in one block for December at a premium of 10 points on the near month. July sold up to 14c and December to 13,05c and the market closed at a net advance of 74 to 22 to 14c and December to 13.95c and the market closed at a not advance of 14 to 23 points.
