New Hair Growth After BALDNESS

HAIR GROWN ON MR. BRITTAIN'S BALD HEAD BY INDIANS' MYSTERIOUS HAIR GROWER

My head at the top and back was absolutely bald. The scalp is shiny. An expert said that as he thought the hair roots were tinct, and there was no hope of my ever having a new hair growth. Yet now, at an age over 66, I have a luxuriant growth of soft, rong, lustrous hair! No trace of baldness. The pictures shown here are from my photographs.

Indians' Secret of Hair Growth

At a time when I had become discouraged as trying various hair lotions, tonics, specialists' treatments, etc., I came across, in my travels, a Cherokee Indian 'medicins man' who had an elliri that he asseverated would grow my hair. Although I had but little faith, I gave it a trial. From recent photo. To my amazement a light fuzz soon appeared. It developed, day by day, into a healthy growth, and ere long my hair was as prolific as in my youthful days.

That I was astonaithed and happy is expressing my state of mind mildly. Obviously, the hair roots had not been dead, but were dormann in the scalp, awaiting the fertilizing potency of the mysterious pomade. I negotiated for and came into possession of the principle for preparing this mysterious elixir, now called Kotalko, and later had the recipe put into practical form by a chemist.

Photo when bald. That my own hair growth was permanent has been amply proved. Many men and women, also children, have reported satisfactory results from Kotalko.

How YOU May Grow YOUR Hair

My honest belief is that hair roots rarely die even when the hair falls out through dandruff, fever, excessive dryness or other disorders. I have been told by Owl Drug Co., Woodard Clark & Co., A. W. Allen, E. W. Ball Brook Drug Co., Gradon & Coehler. Lauc-Davis Drug Co., Madifineu Drug Co., R. H. Schwartz. Stipe, Foster.
