#### LOCAL TRADE SLOWS DOWN

Warm Weather Checks Demand for Cubes for Storing, but Prices Are Maintained.

The warmer weather has had the effect of checking the demand for cube butter in the local market, but former prices are generally maintained. Where shading has been done, it has been because the butter has showed the effect of heat.

The eastern markets continued very steady during the past week, opening with later. The increase in storage holdings for the mosth of June last year was approximately 35,000,000 pounds against only 20,500,000 pounds this year. The rate of increase for the past week has been the best of the month, but still a million pounds lighter than last year. If July remains cool with good rains, storing during July probably will be heavy. Canadian years greatery was received at Boston and disperse year sack; yellow, \$2 per sack; yellow, \$2 per sack; dian creamery was received at Beston and dian creamery was received at Beston and Chicago and more is rolling. This scores 92-92, and what is available is being stored. Preference is for domestic "con-tralized," as it can be bought at the same peice. The storage of Danish butter con-

tinues at New York. The American Creamery Butter Manu-SALT—Half ground, 100s, \$11.25 per ton;
50c, \$18.75 per ton; dairy, \$27.75 per ton;
p RICE—Blue Rose, 15%c per pound.
BEANS—Small white, 7%c; large white,
7%c; pink, 15%c; lima, 15c per pound;
bayous, 11%c; Mexican reds, 10c per lb.
COFFEE—Reasted, in drums, 39@50c. an output for April, May and June of 43,000,000 pounds this year, against 51,000,000 last year. The bureau of crop estimates reported more cows January 1. 1920, than last year, but milk production is evidently short as the output of all kinds of dairy products appears light. At San Francisco the market was fea-tured by light receipts, and active demand for the finer grades of butter for local At San Francisco the market was featured by light receipts, and active demand for the finer grades of butter for local consumption. The democratic convention and the increase in demand for stocks for over the holidays served to reduce trading stocks to an inusually low level. As a consequence the price for 92 score butter showed a net increase of 2½ \$\pm\$3c for the wook, and towards the close a part of the trade was turning to medium grades on account of the scarcity of the finer quality butter. Although the market ruled steady to firm throughout the week, a weaker undertone developed at the close.

HIDES—Salt hides, over 45 pounds, 14c; green hides, over 45 pounds, 13c; green or salt calf to 15 pounds, 15c; green or salt calf to 15 pounds, 15c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 25c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 25c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 25c; green or salt kip, 15 to 30 pounds, 25c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 15c; green or salt kip, 15 to 30 pounds, 15c; dry calf under 7 pounds, 10c; salt hides, over 45 pounds, 12c; salt hides, over 45 pounds, 13c; salt hides, over 45 weaker undertone developed at the close

### NO DEMAND FOR EASTERN CORN

#### COUNTY HIRES MEDIUM Claim of \$50 for Locating Body in River Is Allowed.

CHAMPAIGN, III., July 8.—The board of supervisors of Champaign county has allowed a claim of \$50 for the services of a clairvoyant in locating the body of Raymond Geske.

the clairvoyant told him and three others the body had drifted under two bridges and that the head was fast in a barrel.
The body was found within two fee of where the medium had designated

ANY warehouses, storage sheds, tool houses, and farm buildings are put up for a use that does not justify a large expenditure. You may want five years or ten years or twenty years of service.

It is for such buildings that Carey Roll Roofings are especially designed. And for your convenience they are made in light weights for short term buildings and in medium, heavy, and extra heavy weights for more permanent buildings.

You can have your choice of red or green fadeless crushed slate surface, grape-vine or smooth talc surface, mica or sand finished surfaces.

Because each kind is sold in several different weights you can protect any type of building for the term required at the minimum cost per year of service.

#### \$25,000,000

#### GOVERNMENT OF SWITZERLAND

Twenty-Year 8 Per Cent Sinking Fund Gold Bonds

To Be Dated July 1, 1920

To Mature July 1, 1940

Interest Payable July 1 and January 1

Coupon Bonds in Denominations of \$1000 and \$500 Registerable as to Principal Only.

Principal, sinking fund premium and interest payable in New York city in United States gold coin of the present standard of weight and fineness at the office of Lee, Higginson & Co., fiscal agents of the government of Switzerland, exempt from any Swiss taxes present or future.

These bonds cannot be called during the first 10 years. On any interest date after July 1, 1930, they are callable at the option of the Swiss government as a whole or in part at 105 and accrued interest.

Sinking fund of \$1,000,000 per annum payable in quarterly installments for the purchase of these bonds in the open market at or below 105 and accrued interest. If bonds cannot be obtained in the market the payments shall accumulate to the credit of the sinking fund. After July 1, 1930, sinking fund moneys not used in the purchase of bonds shall be applied to their calling at 105 and accrued interest.

Principal and interest will be payable as well in time of war as in time of peace irrespective of the nationality

PURPOSE-The proceeds of this loan are to be used in the United States. This loan is part of a programme for the gradual electrification of the government railway system of Switzerland.

COMMERCE-According to the figures of the United States department of commerce, post-war trade balance of Switzerland in 1919 was slightly better than the average of the 10-year period before the war. The volume of the foreign trade of Switzerland then reached the highest figures known in the history of the country from the standpoint of value, but even allowing for a general increase of 100 per cent in prices the indicated volume of commodities is greater than normal.

FINANCIAL CONDITION-The general debt of Switzerland (including this issue, but after deducting the debt on account of the national railways, which in normal years have shown a profit over interest and sinking fund requirements) amounts to about \$365,202,988, or about \$85 per capita, against which the national wealth in 1913 was estimated at about \$4,400,000,000, or about \$1135 per capita, and is now estimated at about \$6,000,000,000, or about \$1400 per capita. The financial credit of Switzerland is high.

WE RECOMMEND THESE BONDS FOR INVESTMENT

Price 100 and Accrued Interest Yielding 8 Per Cent

Bonds are offered when, as and if issued and received by us and subject to approval of counsel. It is expected that temporary receipts will be ready for delivery on or about July 12, 1920.
