

GERMANS BALK ON COAL DELIVERIES

Marshal Foch and Field Marshal Wilson Called.

FORCE MAY BE REQUIRED

Demands of Powers Impossible, Say Teutons—Change of Attitude Thought Possible.

SPA, July 13.—(By the Associated Press.)—A deadlock has been reached by the allies and the Germans on the coal question and Marshal Foch and Field Marshal Wilson, the allied military chiefs, have again been summoned to discuss possible enforcement measures.

The allied premiers, having been informed that the Germans were ready, called a meeting this evening, instead of tomorrow, as planned. The German reply was not acceptable and the summoning of Marshal Foch and Field Marshal Wilson, it is understood, means immediate measures to enforce the treaty unless Germany modifies her attitude.

Allies' Power Concurred. The German foreign secretary said to the Associated Press: "The allies may, under the treaty, give us an order concerning coal. If they give an order we, of course, would try to obey it, but we do not believe we could. That would not be a voluntary co-operative arrangement."

Dr. Simons said later: "The allies can occupy the Ruhr or other territories which can send their own agents into Germany and probe the situation. They may fix any penalties. We are not in a position to resist."

The secretary expressed the attitude of the German delegation as it is tonight, but the allied ministers hope, before they take further measures, that the Germans may change their decision.

Foch Expected Today. Marshal Foch left Paris tonight and will arrive at Spa tomorrow morning. Field Marshal Wilson is also expected to reach here from England before tomorrow afternoon or evening. The supreme council will meet immediately after their arrival, the German delegation remaining here.

The German delegation, when asked to amplify their proposals, sent a letter to Premier Delacroix saying that it would be impossible for them to be definite in their demands until the coal question was settled.

M. Millerand, French premier, regrets that it is not possible for the allies to co-operate with the allies in the execution of the treaty, but he is firmly resolved to stand on the position taken by the allies.

Germans Desire Mines. According to the official communication on proceedings, Dr. Simons outlined the German proposals for coal delivery—56,000 tons daily from October and 68,000 from October, 1921, and declared that the demand of the allies could be better fulfilled if Germany were permitted to operate the Silesian mines.

Chairman Delacroix expressed great dissatisfaction at the inadequacy of the offer.

Some members of the German delegation have complained to Chancellor Febrbach of aggressions of which they claim to have been victims since their arrival at Spa. One journalist attached to the German delegation came to blows with a former Belgian officer whose house he occupied at Spa during the war.

Clash Occurs at Cafe. According to these claims, last evening as the Germans were seated in a cafe the orchestra struck up the British national anthem. When the Germans began singing in their native tongue, a Belgian civilian took offense and ordered them out. They refused to leave but were finally ejected after a sharp scuffle in which the same journalist received a blow over the nose with a cane.

It is understood the German delegation will make representations to the Belgian authorities regarding the affair.
