

DOZEN WARS GROW OUT OF URK TREATY

Entire Levant Is Rent by Bloody Conflicts.

OLD HATREDS REVIEWED

Turks, Arabs, British, French, Greeks, Slav Reds All Engaged in Terrible Struggle.

CONSTANTINOPLE, July 18.—(By the Associated Press.)—The prediction of disinterested statesmen that the proposed treaty with Turkey apportioning the choicest parts of the Turkish empire among the various European powers would Balkanize the entire Levant seemingly has been realized.

War exists today from the Black sea to the Dead sea, the Turks and Arabs being engaged in fighting with the British, French and Greeks in almost countless places.

Palestine, Syria, Cilicia, Anatolia and Thrace are in religious ferment. The Mohammedans are massacring or deporting Greeks and Armenians. The Christians are retaliating wherever they are strong enough to do so. The Russian Bolsheviks are taking a hand through their contact in the Caucasus with the Tartars, connecting the Asiatic struggle with their battle front from the Baltic to the Black sea, and stirring the Moslem world to greater resistance by promising additional contact with soviet Russia through Rumania and Bulgaria. The Bolsheviks declare they will subjugate these latter countries as soon as they have attended to Poland and thwarted the possible domination of Turkey by Great Britain through support of Grecian territorial aspirations.

Hatreds of centuries are being displayed in their most hideous forms. Religious and race prejudices and internal battles for commercial advantages in territory and for fuel oil appear in the swirl of which Constantinople is the center.

It is said Russians here hope for absolute control of Constantinople in the event of their defeat.

The indications are that Dama Ferid Pasha, the grand vizier, who is decidedly Anglophile, is preparing to organize a new government and sign the treaty to check a further Greek advance into Asia Minor. Kemal Pasha and his regular troops and bandit associates are still to be dealt with.

CONSTANTINOPLE, July 17.—(By the Associated Press.)—The British and Greeks are preparing to clear the Scutari peninsula of all nationalists and establish a line from Ismid to Chik on the Black sea, which will control the bandit raids against Bosphorus towns and check communications between Angora and Constantinople through the Scutari peninsula mountains. The British forces headquarters will be Ismid.

The Greek patriarch reports that Fouladjik, a Greek village, with a population of 3000, was virtually wiped out by Turkish nationalists July 15.

The Greeks were shut up inside the church, which was set on fire. The patriarch reports that there are only 150 Greeks alive in the village.

British destroyers have ruined Riva, a nationalist stronghold on the Black sea near the entrance to the Bosphorus, and are carrying out spasmodic bombardments elsewhere.

STORM OF 1880 RECALLED

FIRST PRESBYTERIAN CHURCH LOST ITS STEEPLE.

Damage to Same Church in Saturday's Storm Calls Forth Reminiscences.

When the spire of the First Presbyterian church was damaged by lightning during the heavy electrical storm which swept over Portland early Saturday morning it recalled to the minds of old-time residents of Portland an accident to the spire of the same church back in 1880.

It was early on the afternoon of January 9, 1880, that the most violent wind storm in the history of the northwest struck Portland and did damage estimated at many thousands of dollars. At that time the First Presbyterian church stood at the northwest corner of Third and Washington streets, and during the height of the storm the spire was lifted bodily from the building and hurled into the front yard of a residence nearby. Other buildings were either blown down or badly damaged as the storm continued throughout the afternoon.

"I recall the incident clearly," said Eugene Protzman, a pioneer resident of Portland, yesterday. "I was standing in a doorway directly across the street and saw the spire lifted from the building and hurled to the ground. The iron roof of another building in the most adjoining church also was blown off."

During the wind storm of 1880 there was hardly a building in the business district which escaped damage of some sort. Pioneer residents say they have never seen anything like it before or since in Portland or the northwest.

SOLDIERS' BODIES ARRIVE

Funeral of Explosion Victims to Be Held Today at Marshfield.

MARSHFIELD, Or., July 18.—(Special.)—The bodies of Corporals E. G. Scott and Clyde Dindinger, killed by the explosion of a cannon at Camp Lewis, were brought here this afternoon, in charge of Captain Ben S. Fisher and an escort of eight men from the second company coast artillery.

The funeral of Corporal Dindinger will be held at 10:30 Monday in the Coos Bay undertaking chapel and that of Corporal Scott in the Methodist church at 1 o'clock in the afternoon.

Private Peterson, who was wounded in the face when the cannon exploded, was sent home as a member of the escort.

THOUSANDS HEAR MUSIC

Campbell's American Concert Band Gives Two Programmes.

Two band concerts at the Oaks Amusement park yesterday were enjoyed by thousands who went to the popular family resort on the river to hear Campbell's American concert

band in two programmes, which proved the best yet given. Miss Irene Altman made another hit, as she had done last week, in her solo work. The Portland girl is making a distinct impression with her audiences, and is proving an added attraction to Mr. Campbell's band. Manager Cordray has announced that on next Thursday at 8 o'clock the band will put on the musical comedy, "The Death of Casier" or "The Battle of the Little Big Horn." The park illumination and setting will be in keeping with Indian life, to give coloring to the music. The concerts will continue each evening this week and Sunday afternoon.

PROBE TO MOVE NORTH

IMMIGRATION COMMITTEE TO GO TO TACOMA.

Japanese Situation Investigators Also Will Stop in Seattle After Leaving California.

SAN FRANCISCO, Cal., July 18.—The house immigration and naturalization committee investigating the Japanese situation on the Pacific coast will hold hearings this week in Tacoma and Seattle, Wash., following the completion of the inquiry in California, it was announced today by Representative Albert Johnson, committee chairman.

The committee has been divided into three sub-committees to accomplish even a portion of the work immediately on hand. Chairman Johnson will convene here and leave California for the north Thursday night. California districts to be visited by the committee prior to its departure include Los Angeles, San Diego and other southern California points; Auburn, Loomis, Penryn, Fresno, Livingston, Tullock and adjacent territory.

The testimony and exhibits already collected will be carefully re-checked before being put into permanent form for submission to congress. Chairman Johnson said, and a sub-committee will return to California with the transcript of testimony for this purpose.

The committee will not attempt to make a study of border immigration problems in California, Arizona, New Mexico and Texas at this time, he said. An independent investigation of border questions will be made by a special sub-committee of the house immigration and naturalization committee which will be sent for this purpose in November.

AIR PLAN HALT REFUSED

MILLERAND WILL NEGOTIATE WITH BERLIN CABINET.

Claims of Poland to Indemnities From Hungary, Austria, Bulgaria Are Ranked Last.

PARIS, July 18.—Premier Millerand, receiving the correspondents on his return to Paris last night, expressed satisfaction at the results at Spa.

"The conference," he said, "seems to me to mark the first stage in the execution of the treaty."

Indemnities received by the allies from Austria, Hungary and Bulgaria will be divided into two equal portions, according to advices received from Spa. The first half will be distributed to the various nations in the same proportions as were decided upon in apportioning German reparations. Of the second half, Italy will receive 30 per cent and the rest will be divided between Serbia, Roumania and Greece. The claims of Poland will be decided later.

BERLIN, July 18.—Indignant protest against the action of the German delegates in agreeing to the allied terms relating to coal deliveries in the Spa conference is voiced in a manifesto published here by the league of independent trade unions representing 1,000,000 workers.

Man Faints While Taking Bath.

Allan Oakes, 26, fainted last night while taking a bath at 44 1/2 Union avenue and was still unconscious at Good Samaritan hospital at an early hour today. Physicians were unable to diagnose his case.

Seven Frazer Home Boys Escape.

NEW YORK, July 18.—(Special.)—After they had assisted Neil H. Van Dewater, acting counsel for the Nassau County association, raid on alleged gambling house, elaborately furnished, on Broadway, Hewlett, Long Island, and had arrested five men shortly before dawn today, state troopers, in searching a room on the second floor, stepped on a push button under a rug, causing a secret panel in the wall to open, revealing a compartment three feet wide and four feet long in which the troopers say they found cards and poker chips.

Had not the button been trod upon each 10 years old. The lads were dressed in blue overalls, and some of them were without hats. They got away while playing in the yard.

FULL SLATE FAVORED BY PROHIBITIONISTS

Delegates Gather in Lincoln, Neb., for Convention.

EYES ON BRYAN, SUNDAY

Dry Leaders Will Watch Congress, to Keep Enforcement of Law From Becoming Farce.

12,000 VISIT COLUMBIA

PORTLAND TOTS AND PARENTS ENJOY SUNDAY AT BEACH.

Crowds See Bathing Girls Filmed for a New Comedy, Which Is Becoming Weekly Feature.

LINCOLN, Neb., July 18.—Delegates to the prohibition national convention which begins here Wednesday next, began arriving today. The early arrivals are chiefly from the east and central states. They were making no predictions on the outcome of the convention, preferring to await the arrival of leaders before indulging in forecasts. Among the few who are here the sentiment is strongly for the nomination of a national ticket, but none of those mentioned as possible head of the ticket appeared to have a dominating lead.

W. C. Calderwood of Minnesota, vice-chairman of the national committee, who has been in Lincoln several days, has expressed a preference for a ticket headed by William J. Bryan for president, with William A. ("Boss") Sunday as vice-president.

Mr. Calderwood, however, made exceptions to a statement credited to Mr. Bryan that enforcement of the prohibition law rests more with congress than with the president.

CONGRESS TO BE WATCHED

It is true," said Mr. Calderwood, "that we should not go to sleep at the congressional switch, but the president can, as the present president has, appoint wet enforcement officers who will make the law ridiculous and bring it into such disrepute that even the dregs will be disgusted. A very prominent citizen told me that in the wet portions of Nebraska the law was a farce. The same man called attention to what the whole nation knows—that the same thing has occurred in other wet centers with like results."

Mr. Calderwood said "prior to the national conventions of the two major parties, he did not believe the nomination of a national ticket advisable, but since the republican and democratic parties have ignored the wet and dry issues in their platforms" he had changed his mind and was now strongly in favor of not only nominating a ticket, but of making a vigorous campaign. He believed that was the sentiment of a large majority of the delegates.

DELEGATES EXPECTED

National Chairman Hinshaw is due to arrive Tuesday. The California delegation and those from the far west are expected Monday night or Tuesday morning. Present expectations are that the convention will be made up of about 400 delegates with an equal number of visitors.

Dr. Clinton N. Howard, chairman of the National Reform association, mentioned in connection with the presidential nomination, made three addresses today, taking for his subject, "Missing Planks of the Political Parties." J. A. Murray, chairman of the Nebraska prohibition committee, is quoted as saying Dr. Howard will receive the support of the Nebraska delegation for the presidential nomination.

Vice-Chairman Calderwood spoke at a church mass meeting today on "How the Committee of 48 Met the Call."

BUTTON REVEALS SECRET

TROOPERS ACCIDENTALLY FIND GAMBLER'S PANEL.

Cards and Poker Chips Disclosed When Officers Step on Right Spot Under Rug.

NEW YORK, July 18.—(Special.)—After they had assisted Neil H. Van Dewater, acting counsel for the Nassau County association, raid on alleged gambling house, elaborately furnished, on Broadway, Hewlett, Long Island, and had arrested five men shortly before dawn today, state troopers, in searching a room on the second floor, stepped on a push button under a rug, causing a secret panel in the wall to open, revealing a compartment three feet wide and four feet long in which the troopers say they found cards and poker chips.

Had not the button been trod upon

the compartment would never have been discovered, the troopers say. To the edges of the panel, which was of wood, had been nailed moulding, and it was not unlike others in the room. The push button was in the center of the room where the rug was least walked upon.

Residents of the exclusive neighborhood aroused by shouts and the sound of breaking glass when the troopers broke down the front door. In an elaborately furnished room on the first floor of the handsome two-story dwelling, the troopers say, they surprised a dozen men whom they allege were playing cards and roulette. When the troopers appeared seven of the players escaped through a rear door. The five who remained were placed under arrest as common gamblers.

12,000 VISIT COLUMBIA

PORTLAND TOTS AND PARENTS ENJOY SUNDAY AT BEACH.

Crowds See Bathing Girls Filmed for a New Comedy, Which Is Becoming Weekly Feature.

Approximately 12,000 persons visited Columbia beach amusement park yesterday. The beach was crowded from early in the day until dusk, hundreds of children wading and hundreds of adults taking the opportunity for a dip in the cool Columbia. The bathing girls with the Columbia Film company, which is producing a comedy at the park with the boardwalk and the sandy stretch of beach as the settings, attracted considerable attention. About 40 young women appeared in the various roles. The taking of moving pictures is becoming one of the big attractions at Columbia beach where the cast almost every Sunday is "shot" in some unusual comedy scene.

The warm weather, however, made the bathing and the water sports the most popular events of the day. The hydroplane was kept busy from the time it arrived until it left after dusk.

One of the big events during the week will be the band concert to be given next Wednesday night by the Multnomah Guard band.

VULCANIZING METHOD NEW

BULLETIN ON RUBBER EXPERIMENTS ISSUED.

Manchester College of Technology Uses Sulphurated Hydrogen and Sulphur Dioxide Gases.

WASHINGTON, July 18.—(Special.)—Experiments conducted by the Department of Engineering, Manchester College of Technology have led to the discovery of an important process for vulcanizing which is expected to have far-reaching effects on the rubber manufacturing industry.

An official report states that in the new vulcanizing process two gases are used—sulphurated hydrogen and sulphur dioxide—which react on each other to produce water and free sulphur.

It has been found that when crude rubber, either in solid form or in solution, is treated with these gases the sulphur produced vulcanizes the rubber. If the sulphur is mixed with a waste material, such as sawdust, leather scraps or even paper and the mixture vulcanized, the result will serve a variety of useful purposes.

The report states that the importance of the discovery lay in the fact that it makes vulcanizing possible, the present method being to heat rubber and sulphur to a temperature of 325 degrees centigrade, and it has been difficult to get a combination of rubber with raw materials which would stand such a high temperature.

One claim is that the discovery will make possible the manufacture of one-piece boots without stitching, and that its use will extend to the manufacture of linoleum flooring, artificial leather upholstery and wall paper, and probably affect the production of rubber tires.

LUCKY STRIKE
"IT'S TOASTED"

GENUINE LUCKY STRIKE CIGARETTES
ROLL CUT TOBACCO

THE famous real Burley Cigarette.
And what made it famous—in three short years? The delicious and very unusual taste of toasted Burley tobacco—not raw tobacco—a new creation in cigarette manufacture. It's toasted—there's a story of success in two words. Until you've smoked Lucky Strikes you cannot appreciate the delicious flavor of toasted Burley.

IT'S toasted for your pipe. The original Lucky Strike formula that pipe smokers have known and loved for years. Lucky Strike pipe tobacco is the finest toasted Kentucky Burley tobacco—not raw tobacco; and like the cigarette, it's toasted to seal in the flavor. The flavor is held and every bit of bite taken out—by toasting. You must try it, soon!

Both are made of the finest tobacco—toasted—not raw tobacco.

IT'S TOASTED

Guaranteed by The American Tobacco Co. INCORPORATED

—which means that if you don't like LUCKY STRIKE you can get your money back from the dealer

Clicquot Club GINGER ALE

NOT to the fleetest of foot, but to the driest of throat goes the first delightful sip of Clicquot Club Ginger Ale. But every kiddie shall have a glass if mother will thoughtfully keep a bottle or two on ice.

How the children love Clicquot! There's a snap and zest in the bubbling, sparkling golden liquid that makes them want to drink the whole bottle. Let them—there's nothing harmful in Clicquot; only pure spring water, juice of lemon and lime, clean cane sugar, and mild Jamaica ginger that prevents the too sudden chill of an ice-cold drink.

Buy Clicquot by the case from your grocer or druggist, and always have in your home a daily drinking habit that is always safe and good for little ones and adults both.
