

RAILROAD WORKERS MAY REJECT AWARD

Early Submission to Referendum Vote Expected. 1,800,000 MEN AFFECTED

Labor Board Asserts No Good Could Be Accomplished by Granting Plea for Rehearing.

CHICAGO, July 21.—(By the Associated Press.)—Submission of the \$600,000,000 rail wage award to a referendum vote by the 1,800,000 railroad workers without any recommendation from the union leaders either for its acceptance or rejection appeared probable tonight.

This was the opinion in labor circles following rejection by the United States railway labor board of a petition for a rehearing of the case.

At midnight it was reported that six of the great transportation brotherhoods, in addition to the masters, mates and pilots of America, had decided definitely to accept the award.

Eight of the remainder were said to have tentatively rejected the award, with provision that the final decision be left to a referendum vote of the memberships.

The Order of Railway Conductors was said to be still undecided, while the Order of Railroad Telegraphers was reported to have issued strike ballots.

No Recommendation Likely. In view of the division it was believed that the award would be submitted to a referendum by all of the brotherhoods, either without recommendation or the recommendation of each group.

The following brotherhoods were reported to have accepted the award: Brotherhood of Locomotive Engineers, Brotherhood of Railway Trainmen, Switchmen's Union of North America, Brotherhood of Stationary Firemen and Oilers, United Brotherhood of Maintenance of Way Employees and Railroad Shop Laborers, Brotherhood of Locomotive Firemen and Engineers, Masters, Mates and Pilots of America.

The brotherhoods said to favor a referendum are: International Association of Machinists, Sheet Metal Workers' International Alliance, Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Messenger Employees, Brotherhood of Railway Signalmen of America, Brotherhood of Railway Carmen of America, International Brotherhood of Electrical Workers, International Brotherhood of Blacksmiths, Drop Forgers and Helpers, International Brotherhood of Harbormakers, Iron Shipbuilders and Helpers of America.

The more conservative union counsel has steadfastly opposed outright rejection of the labor board's decision. After a series of hearings, it appeared doubtful that the union leaders could consistently recommend acceptance of the award, as their action would be that it was unsatisfactory to them.

Survey Exhaustive One. The labor board declined to reopen the case and the board's decision represented the conclusions reached after an exhaustive survey in which both sides had been given ample time for presentation.

No good could be accomplished at this time, members of the board stated, by reopening the hearing, which would only serve to delay the case and prevent the men receiving the increased back wages in their August 1 pay envelope.

A day of conferences between presidents of the 18 unions recognized in the award and the general chairman of those organizations failed to develop any common ground on which the leaders were willing to issue a statement.

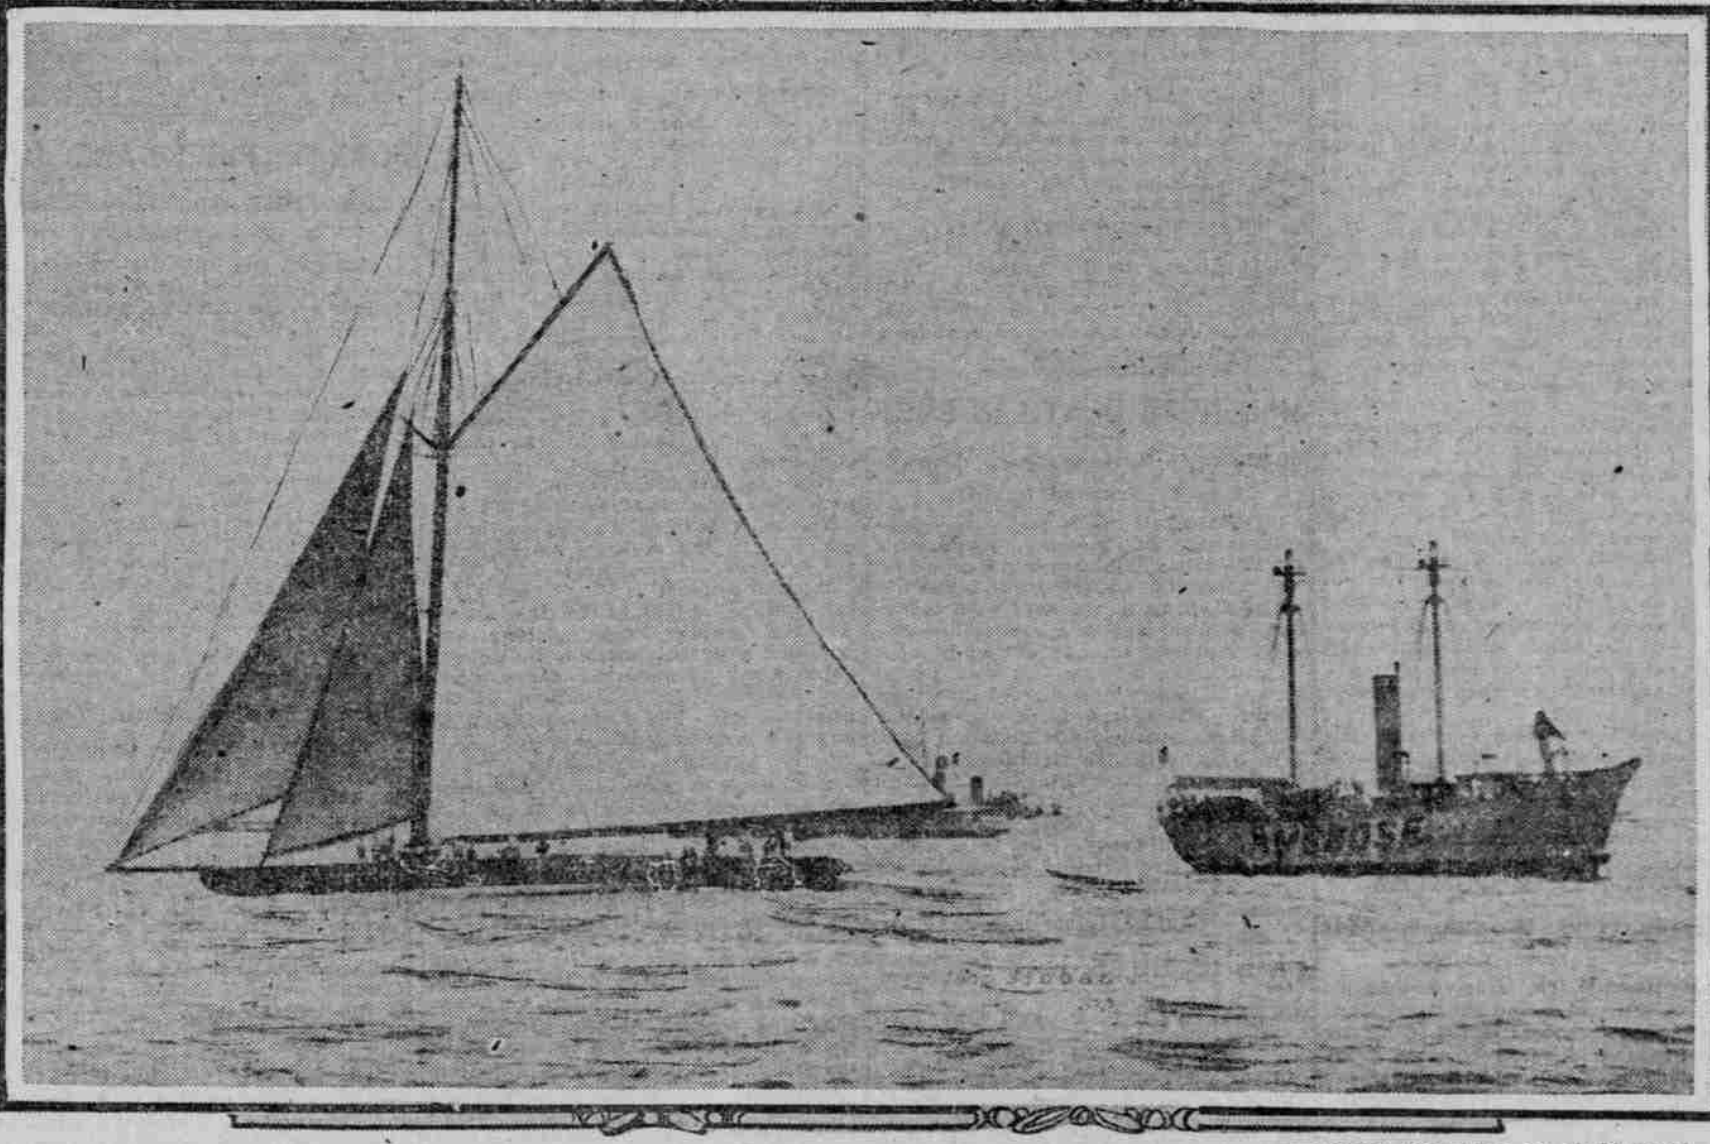

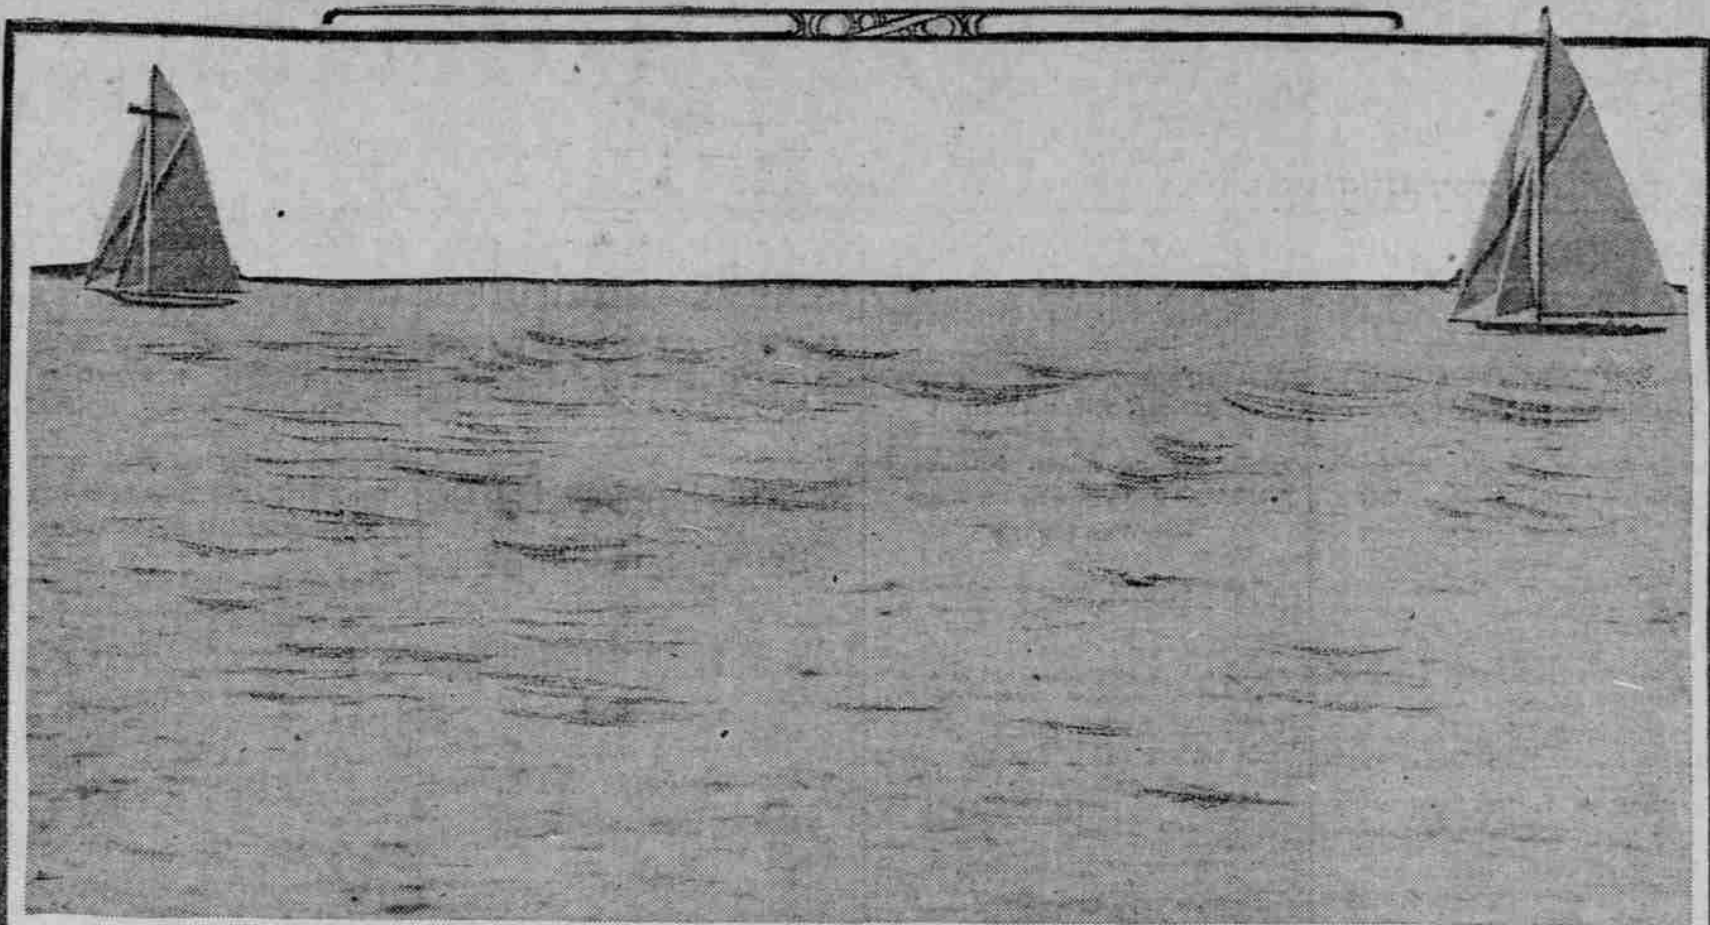

Statement Today Likely. Two days and a night of meetings failed to bring the leaders together and W. G. Lee, general chairman of the brotherhood of railway trainmen, indicated that the presidents would have walking out today to make to the general chairman before tomorrow.

Reports reaching headquarters of both union leaders and managers indicated that in most cases the men were waiting for their officers to act. The first reported strike was recorded in Chicago late today, when about 100 Grand Trunk railroad employees walked out according to company estimates. Strikers, however, claimed that 800 men figured in the walkout. Company officials said no demands had been presented but it was presumed the men were dissatisfied with the board decision.

Some Rejections Voted. From a few cities reports that the men had voted to reject the award and stand on their original demands, but the ones so voting remained at work.

The decision to be made by the brotherhood tomorrow may have an important effect on the future of their organizations in the opinion of close observers.

It is no secret for months there has been dissatisfaction in union ranks over failure of the officers to obtain the increases the men demanded.
