Persons of every denomination and of many faiths were in the audience. Undisturbed and undisturbing children amused themselves with their wares on the edge of the congregation. "Motorsists passing through the park in many instances stopped their cars, forming a transitory audience, listening from the roadway, a distance of several hundred feet from the speaker's platform."

Women's Activities

The women's auxiliary to the Railway mail association will hold its annual picnic for all postal clerks, their families and friends on Thursday, July 29, at Peninsula park. Luncheon will be at 1 o'clock and dinner at 6:30.

Mrs. Ida Callahan, state president of the federated clubs, in her address at Gladstone Chautauqua stated that the united efforts of the clubwomen would be devoted to Americanization, thrift and community service. The watchword adopted was "service" and the women were to begin a campaign to double their membership with the purpose of doubling their service. Mrs. Callahan met and made many new friends among clubwomen.

On W. C. T. U. day at Gladstone Chautauqua Mrs. Mattie M. Sloth spoke at the 11 o'clock session. Mrs. Ward Willis Long delivered the address with her wonderful voice. Mrs. Mary and Mrs. Hans led the congregational singing. The symposium speakers were Mrs. Lee Davenport, Mrs. A. C. Newell and Mrs. C. J. Searfath. A picnic supper was served by the Evergreen W. C. T. U. the baby union.

The Chautauqua directors provided the tables and Mrs. C. J. Emory Dye made the arrangements. Members of all unions of the state and W. C. T. U. members of other states were guests. Mrs. Full, president, presided. Mrs. Andrews, Clackamas county president, made a brief inspirational address, telling of the things accomplished by this young but flourishing union. A member of the library board offered a collection of books and pay express of exchange shipments. This offer was accepted and Mary D. Russell, state chairman, asked to pay the express on the first library board offering. Mrs. Mattie Sloth, state president, and several other prominent workers responded to toasts. A very large number were present.

CROWDS CLASH AT SEUL

Japanese and Koreans Fight During Spring Festival.

A description of the ill-feeling existing between the Japanese and the Koreans is contained in a dispatch from an English publication at Seoul, a copy of which has been received here by the library board. It states that the W. C. T. U. would assume responsibility for the books and distribution and pay express of exchange shipments. This offer was accepted and Mary D. Russell, state chairman, asked to pay the express on the first library board offering. Mrs. Mattie Sloth, state president, and several other prominent workers responded to toasts. A very large number were present.

The account tells of the observance of the spring festival at Seoul on May 5. The day was a great public holiday but was marred by a free-for-all fight between the Japanese and the Koreans, according to the account.

"The Koreans came out on top in the majority of the athletic events," says the clipping, "which greatly displeased the Japanese spectators and players, who became distinctly hostile to the Koreans."

When the final race was in progress a Japanese judge stopped the race and the Korean runner, Mrs. Belle Bradley, was going to win. This action resulted in a free-for-all fight.

He knows nothing of its true import and connotations.

He opposes moral reforms. He sympathizes with the lawless. Such characters, arid and unfruitful, unless held in check, will submerge all righteous social order, like the sands of the passer, into the evil life of the backslider and self-centered moralist, and the vicious man might all be checked into a better condition. But it would require a radical change in conditions. God has promised this today. Why not let him do it?"

MINISTRY CALLING LAUDED

Dr. Stansfield Delivers Sermon in Reply to Dr. Pratt.

"The Ministry, the Highest of High Callings," was the subject on which Dr. Stansfield delivered his address at the First Methodist church, preached last night. The sermon was in answer to one recently delivered by Dr. Robert Murray Pratt, upon resigning from the pastorate of the Pilgrim Congregational church of this city and at the same time withdrawing from the ministry as a profession.

Petty politics within the denomination's ranks has been a subject of the laymen binding down conscientious pastors who attempted to teach more liberal views were among the reasons for the church's declining secular calling. Dr. Stansfield said:

"My attention was called only a week ago by a subject yesterday morning; or rather address—for the speaker declared he had preached his last sermon—upon resigning from the pastorate of the Pilgrim Congregational church of our city, closing the ministry of the pastor of the church and withdrawing from the ministry as a profession."

"This brother had evidently never known the 'divine call' to the ministry and to preach, for he said, 'My duty to preach came from my fellow-men.' The real call to true and best preaching comes from God, and is an imperious obligation which no man can easily lay aside. 'Who is it I preach not the gospel.' If this earnestness has first heard the call and command of God as clearly as I, more so than the voice of his brethren, it would have been worth much, and it would have been worth his high calling and could have done great service to his generation; and he might have had a more advanced mental perspicuity and moral discernment of a high order, and a grasp of essential principles of Christianity and the fundamental laws of life very desirable to an effective preacher and preaching."

TRUE OPTIMISM DESCRIBED

Pastor Finds Much Usefulness in Pollyanna's Philosophy.

Rev. Charles L. Kloss, pastor of the Plymouth church of Oakland, was supplying the pulpit at the First Congregational church for the past two Sundays. His subject yesterday morning was "Playing the Game With Pollyanna." He said in part: "Some prominent old maid critics of sentimentalism, and many a worldly philosopher, would rather follow her philosophy and play the game with her than be the pessimist who, of two evils, chooses both."

"Of course there is a foolish optimism. You do not get anywhere in facing a hard task by simply repeating 'God is good, God is good, God is good.'"

"Most people can be cheerful if they possess a sanguine temperament, a large digestion and a comfortable bank account. A healthy optimism, however, is based on the facts of nature and religion. Nature is kind. She is not red of tooth and claw. She forgives unto seventy times seven. She is always healing and comforting. There is another outstanding fact. That is, evil in the long run defeats itself."

"There is much need of Pollyanna's philosophy of life. It is a philosophy of crochety folk who live on the shady side of the street. There are devils, divorce, disease, the holocaust and the demagogue flourish; there is a dark side to the scheme of things, but so inescapable is the goodness of life that it is worth the effort to be good to those who love God."

"In the mud and scum of things something always, always shines. 'All things work together for good to those who love God.'"

"It is easier to make a fortune than it is to make character." "Mothers and fathers spend too much time fussing about what nothing they shall wear rather than insisting and seeing to it that these children are trained to lives of service to others."

"In our church we are 300 priests short of normal requirements. 'It is next to impossible to get young men to enter the ministry to save souls—they prefer instead to enter business careers where money is made quickly.'"

Such are thoughts taken from a sermon preached yesterday by Rev. Charles L. Kloss, pastor of St. David's Episcopal church. He proceeded to say that we are living in a material age, in which worldly preformance is advanced erroneously to first place. He pleaded for purity in daily life, an adherence to the teachings of the Bible and a steadfast love for doing things worth while—with service first. We ought as a nation to rise from our senseless money-grabbing, he thought.

Chester A. Lyon, founder of the "Big Brother Farm for Boys," arrived in Portland Saturday with a group of boys returning from the farm.

"Never before in the history of our work with unfortunate boys has there been such a demonstration of interest and support as we have received this year," declared Lyon.

The Big Brother farm was founded seven years ago and is devoted to the welfare of children during the summer. In the school year, Lyon is one of the court assistants in Judge Jacob Kanzier in the court of domestic relations. Mr. and Mrs. Lyon personally conduct the farm in the vacation months.

While no contributions are solicited for the upkeep of the institution, many voluntary subscriptions come in. These contributions go directly to the benefit of the boys.

After the boys leave the farm, Mr. and Mrs. Lyon keep in personal touch with them through correspondence and by an occasional visit to the city. Through this means many of the young of Portland are aided annually to become better citizens.

AIRPLANES THRILL CROWD

Attendance at Columbia Beach 15,000; Bathing Girls Attract.

Daring acrobatic exhibitions were given by two aviators at Columbia Beach yesterday as thousands of persons at the park literally held their breath. All of the thrills known to the "game" were included in the programme. Out on the wings of the "game" the performer hung by his knees or stood on the top of the fuselage and waved jauntily to the crowd.

The bathing girls were on hand, as usual, for the further production of the comedy in which they are appearing. Most of the traffic along the board walk was tied up by the curious persons attracted by their antics. The attendance at the park yesterday exceeded 15,000.

The Federation of Churches, presided at the service. Music was led by a union choir composed of choruses from the Sunny-side churches. C. J. Searfath led the community singing, playing the cornet.

"LIVES LIKE DESERTS," TOPIC

Rev. George Bennett Criticizes Make-Believe Christians.

"Human Life Like the Deserts" was the subject upon which Rev. George H. Bennett of the Patton Methodist church preached yesterday morning. "Vast areas of the world consist of desert, reminding us of various types of human character," declared Dr. Bennett. "The polar continents have no summer, no green fields and teeming forests, nor inhabitants save in places along the coasts. Their only rivers are the great glacial rivers of ice which slowly press to the sea, where huge masses break off—and so fleets of icebergs are set adrift. The polar regions were once subtropical, and covered with swamps, forests and green fields. Those life deserts remind us of the man, once a Christian, active in religious life, prayerful and devout, who gave time and talent, money and influence for the uplift of mankind. But the summer of his active, living faith is ended. His deeds of love are like the polar fossils, relics of the past."

"Another kind of desert is the tundra. They are low, flat plains lying between the Arctic and Siberia are frozen 500 feet deep. These bleak deserts remind us of persons who were once Christians, but whose influence they had praying parents. They attended religious worship and the Sunday school. They have a form of godliness, but it is only a form. They are make-believe Christians."

"All another kind of desert is the arid, sandy waste. Two great zones of arid desert encircle the world. The arid desert reminds us of a class of men in evidence today. He is irreligious and the enemy of religion."
