ALLIES TAKE ACTION TO SUPPORT POLAND

Limitation Placed on Possible Soviet Demands.

MUNITIONS ARE ON WAY

Stocks Originally Intended for Denkin Now Being Sent to Warsaw for Poics.

PARIS, July 30.—The limitations which Great Britain and France would put upon soviet demands of Poland in the arrangement of an armistice are set forth in a notification which has been dispatched to the Warsaw government by the British and French governments, it was learned here today.

As bearing on the military situation, it develops that vast stocks of munitions from the allies are moving toward Warsaw today from Danzig, on the Baltic, and from Rumania and Czechoslovakia.

PREMIER COURT FOR DEFENDANTS IN THE ROCKHILL SUIT

DEPUTIES SUPPORT MILLERAND DESPITE REPORT.

ADOPTION OF 200-MILLION FRANC ADVANCES TO GERMANY CARRIES BY

Vote of 356 to 169.

PARIS, July 30.—(By the Associated Press.)—Premier Millerand again won the support of the chamber of deputies for his government today in its Spa coal arrangement, in the face of an adverse report by the commission on finances. He obtained a favorable vote of 356 to 169 for adoption of the 200,000,000 franc monthly advance to Germany.

"Coal is the question of the hour," the premier said in his address, urging favorable action by the government.

Value has never determined the selling price of Milk

What is Milk worth? Isn't it a fact that no price would be too high to pay for Milk if it was a question of paying or doing without?

The slow returns on the farmer's investment would never satisfy the business man in the city, even though he dealt in luxuries that half the world could do without.

How often has Mrs. City Dweller shuddered at the thought of milking a cow? And declared that no amount of money could induce her to forego the conveniences of town.

One of the greatest of these conveniences is the Milk bottle at your door every morning before you rise.

Perhaps your daily ration is only one bottle of Milk. Even so, breakfast would be utterly ruined without its cream "top"; the cooking that you would later enrich with it would lose its flavor and a high per cent of its real food value.

Then there's the question of QUALITY. You are perfectly well aware that Milk may vary in quality. But—have you ever taken the trouble to become informed on the special inspection service and special equip-

ment required to maintain the quality you demand? These cannot be taken for granted; they must be paid for.

What a prodigious amount of effort and expense has been left in the wake of that cool white bottle you receive every morning! Could you follow back, step by step, you would be convinced that Milk is cheap at ANY price.

Now make this resolve! That you will not allow slight fluctuations in the Milk market to cause you to cut down on the quantity of Milk you are accustomed to using. Rather, use more if possible. This prevents losses on the surplus that must be sold at away below cost if it is refused by the consumer.

Farmer Dependent on Wife and Children for Work in Field. Editor:—Just a few lines to endorse the sentiments of the correspondent, Mrs. W. E. Rice. I am a farmer's wife myself and live on off an 8000 place without any small children, too small to be kept in the way of chores, so do much of it myself. I want fresh vegetables average city, woman. Then I have on which the cow could not be kept succulent feed in the winter. Women often have I heard of these milk toils of closing up her house and going camping for two months children would like it just as well as if my husband had to hire help and two of my small children do, I or worse still, the supply absolutely ceases. It is a well-known fact that the industrial production of the high cost of the farmer's wages have not only the produce and his family are asked to produce more than ever before in the history of the industrial laborer in this amount of help as he cannot pay the wages necessary to compete with the exorbitant prices of the city. A FARMER'S WIFE. Use of "More" and "Most." PORTLAND, July 22.—(To the Editor.)—In comparison with the "pleasant" winter of 1919-20, the summer of 1920-21 is a "pleasant" one.

ment required to maintain the quality you demand? These cannot be taken for granted; they must be paid for.
