MRS. COMSTOCK IS DEAD

PORTLAND PIONEER PASSES AT DAUGHTER'S HOME.

Trip Made to Oregon With Party Reaching State in 1845.

Funeral Is Tomorrow.

Mrs. Martha P. J. Comstock, widow of C. B. Comstock, and one of the first pioneers to come to Portland, died Saturday night at the home of her daughter, Mrs. A. D. Charlton.

Death was caused by heart trouble. Mrs. Comstock was born in Clifton, Mo., March 3, 1828. She was a member of Captain Chamber's immigrant party which crossed the plains and reached Oregon City in 1845.

This party consumed a year's time in crossing the plains, making a trip which was replete with thrilling episodes and encounters with hostile Indians.

When Mrs. Comstock reached Oregon City she was but 7 years old. When she first visited Portland there was but a single shack in the territory which is now occupied by 258,288 persons.

The greater portion of her lifetime has been spent in Portland, giving her an opportunity to watch a great city grow.

Mrs. Comstock was married when she was 16 years old to C. B. Comstock, and immediately following her marriage moved to Impqua valley, where she lived for two years. She then accompanied her husband to Portland where Mr. Comstock constructed grain elevators and wharfs at Springville, near Clatsop town.

Mr. Comstock is survived by three daughters—Mrs. T. B. Howes, Mrs. A. D. Charlton and Mrs. J. A. Mackenzie, all of Portland. She was a member of the First Presbyterian church and of the Oregon Pioneers' association.

The funeral will be held tomorrow afternoon at 2:30 o'clock from the home of Mrs. A. D. Charlton. Interment will be in Riverview cemetery.

FARMER SPOKESMAN NEEDED

SENATOR CHAMBERLAIN AD-DRESSES GRANGE.

Agriculture Should Have Representation at Capital to Present Needs, Says Chamberlain.

That the farmers of the country should have their representatives and spokesmen to present the needs of the farmers along legislative lines to congress, as do practically all other industries in the country, was the declaration of Senator Chamberlain, who was one of the speakers before the Multnomah county grange at the annual grange picnic and meeting Saturday at Gresham.

The event was largely attended by farmers from all over that section, and a musical programme, speaking, athletic events and games filled the day. The grange members and friends began to assemble in the morning, bringing picnic lunches, and the event lasted until late in the afternoon.

In the matter of proper legislation for the farmers, the farmers themselves can do a great work by aiding congress by suggestions and information. Senator Chamberlain declared. Practically all other industries, he said, are represented by leaders at Washington, who appear before committees and give valuable information to congressmen, as well as guarding against detrimental legislation.

Some steps should be taken by the farmers to be represented by leaders from among their group to give advice and suggestions to congress relative to the farmers' problems, he urged.

Senator Chamberlain also spoke of the way the government has been endeavoring to co-operate with the farmers and bring them greater production and greater prosperity through the department of agriculture, citing the valuable research work of the department, which has led to the eradication of fruit and vegetable diseases and the development of new species of grain, fruit and vegetables to fit climatic conditions in different parts of the country.

Closer co-operation among the Oregon senior senator to be of particular advantage by bringing more and more of the farmers into the government programme of aid in rural development and progress. The senator urged the farmers to meet this impending change intelligently, to avert this chaos and destruction, our party offers the only sane and practical programme.

CHANGE IN SOCIETY IS HELD IMPENDING

Socialist Vice - Presidential Nominee Summarizes Aim.

CAPITAL SYSTEM RAPPED

Hope Is Declared Still Cherished for Peaceful Change to Co-operative Scheme.

CHICAGO, Aug. 1.—In his letter accepting the socialist vice-presidential nomination made public today by socialist national headquarters, Seymour Stedman of Chicago summarized the party's aim as the "transformation of the present capitalist system into a collective and co-operative society."

"We have always," he added, "advocated a peaceful change and this high hope is still cherished by us."

Eugene V. Debs, five times head of the socialist ticket, was notified in prison at Atlanta, Ga., by a special committee several months ago and made an informal address in reply. Notification ceremonies were dispensed with relative to the vice-presidential candidate.

At Stedman society, Stedman declared, is impending, and he said that the socialist party offered the only practical programme to avert threatened chaos. He urged immediate socialization of railroads and mines, four mills and stock yards.

Nominations Accepted. "I accept the nomination you tender me," he wrote, "deeply appreciating the confidence and comradeship with which it comes and pledge my best efforts to meet the duties and requirements of the task you have set for me."

"Our beloved standard bearer is mute by the judgment of a harsh and unfeeling majority based on wartime legislation. His imprisonment is continued by a ruthless, despotic chief of the democrats, supported by a republican congress. By a clarion call will rally together all intelligent workers of hand and brain, all who love liberty and believe in freedom and humanity."

"Of the work of the peace conference," Stedman said, "Self-determination meant to our party and comrades what it said. It was a declaration which first came to life from a convention of our party and we are the only political party in the United States which stands for the Russian socialist republic, the only party in the United States which recognizes the Irish republic."

Proposed League Denounced. "We denounce the proposed league of nations as an organization of international capitalists based on war for the purpose of subjugating and exploiting the peoples of the world. The league is a league of free peoples administered by delegates elected directly by and responsible to the people."

Dealing with domestic affairs, Mr. Stedman continued: "Freedom of speech has become a byword, the liberty of the press is a lost liberty; representative government is attacked and successfully destroyed in the legislature of New York; to the citizens of a congressional district have twice been elected representatives by our party and participation in congress; to newspapers, the most enlightening of the country, are denied the use of mails; mob violence and murder have been and are being tolerated and approved; houses have been searched and papers seized and people arrested without warrant or legal procedure."

Profit-Grabbing Seared. "Large industries are backed in grabbing profits; the railroads are handed back to private privilege with a loan and guaranteed dividends; the miners and railroad workers are crushed by injunctions and indictments and tried under war statutes for offenses charged to have been committed within the last few months. And now, by no means do we behold a relaxation. The most firmly entrenched capitalists of the world are in this country. The world has solidified and united them. They control the press and the avenues of information and the economic power and wealth of the country. They are drifting into a firmly established capitalist despotism with thousands of spies, reckless power and subjugated workers. Capitalism may topple over and bring in its wake chaos, starvation and destruction; to meet this impending change intelligently, to avert this chaos and destruction, our party offers the only sane and practical programme."

Cost of Living Is Cited. We are pre-eminently the American party, because we stand foursquare with the ideals and traditions now betrayed by self-styled patriots. We offer the only possible solution for the preservation of civilization.

"The ever-increasing cost of living, shortage of coal cars, scarcity in coal production, high interest rates, increasing unemployment, call for immediate remedy."

"We declare the remedy now: Socialize the railroads, the coal mines, now; the flour mills and stock yards, now; open unused land to cultivation, now; prepare to substitute for the capitalist oligarchy the social ownership and democratic management of the means of production and the control of government for the producers by the producers."

"More political issues will not meet the requirements of today's social problems. Economic readjustment of a fundamental character must be made, and can be made peacefully if we prevail. We enter the conflict with the call from the dungeon to liberty, from the white walls of Atlanta's bastille, to the White House at Washington."

150 Shaves!

Every tube of Purola Shaving Cream contains the "makin's" for about 150 cool, satisfying shaves. Each particle of cream multiplies itself hundreds of times with water.

We waited years before we put out a "Purola" Shaving Cream. We were not satisfied to put the "Purola" name and guarantee on record until we had a cream that represented a real improvement.

Now, make this test! Take a several days growth of beard—those boasting of tough, wiry beards, especially invited. Use hot water and a pinch or so of Purola Shaving Cream. Sixty seconds of lathering and you'll have the face covered with the creamiest, softest lather a man could want. It'll retain its creaminess without replacing until you've been over the face, and leaves a comfortable, exhilarating impression that lasts long after you shave.
