New proposals have been made for resumption of auction sales after October 1, under restrictions which would prevent the wool owned by the British government being sold in competition with the 1920-21 clip, which would be free of government control. The main features of the new plan are as follows: Export of 1929-21 wool to be prohibited until October 1, public auctions of wool in London to be suspended from October 1, 1920, to May 1, 1921.
