FOR SALE-AUTOMOBILES.

When it is possible to buy used oars from a most responsible dealer, from a dealer who conscientiously rebuilds his motor cars, from a dealer who takes pride in refinishing to the utmost the used cars he sells from a dealer who is handling such a popular make of new cars that his used car trades are only accepted provided they are of the best and at a low enough price so they can be resold below their actual rebuilt value.

Why, kind reader, will anyone so to a dealer who pays long prices on trades as as to stimulate a market for his new care—a dealer who must sell such care in competition with other dealers and cannot therefore afford to expend money to make his offering to you an honest transaction?
