PHONE RATES TO GO UP INCREASE AT DALLAS AND SHERWOOD AUTHORIZED.

Public Service Commission Finds Present Charges of Two Concerns Are Inadequate.

SALEM, Or., Aug. 9.—(Special.)—Service rates of the Dallas Telephone company and Sherwood Telephone company were increased by orders of the public service commission issued today.

The Dallas company operates exchanges at Dallas and Falls City, services farmer lines, has connection with the toll lines of the Pacific Telephone & Telegraph company and the Northwestern Long Distance company, and has a trunk line of its own running to Independence.

The Sherwood company has an exchange at Sherwood in Yamhill county, and also serves the surrounding community. Irving F. Low is lessee of the Sherwood lines.

No complaint was registered relative to the service at Dallas, but the Falls City service was harshly criticized and the order requires correction of defects in the service.

The commission found relative to both companies that returns under present rates were inadequate to meet costs of operation.

The Dallas order allows a toll charge of 10 cents for the first three minutes and 5 cents for each additional three minutes or fraction thereof for interchanges of service between stations on the Dallas company's lines and stations on the Independence and Monmouth lines.
