## FRANCE JOINS U. S. ON RUSSIAN POLICY

### Paris Agrees Soviet Can Never Be Recognized.

### ANSWER PLEASES AMERICA

### Dismembering of Russia Also Will Be Opposed.

### POLES TO BE ASSISTED

### Russia Declared to Have Boasted of Its Bad Faith and of Its Plots to Foment Revolt.

### WASHINGTON, Aug. 18.—(By the Associated Press.)—The American and French governments are in agreement in principle as to the future of Poland and Russia. Secretary Colby declared today in a statement interpreting France's rejoinder to the American note to Russia. His statement accompanied publication of the translation of the French note, which was delivered to the state department August 14 by Prince de Bearn, the French charge.

### France's declaration of "its opposition to the dismemberment of Russia" is "most gratifying," Mr. Colby said, and added:

### "The response is a notable declaration from every viewpoint and brings to the position taken by the United States a striking emphasis and powerful support."

### Recognition Not Serious.

### The secretary referred to French recognition of General Wrangel in South Russia as a "divergence" between the two governments on one point, but said the United States was "disposed to regard the declared agreement of France with the principles of the United States as of more significance than any divergence of policy involved in the United States' action of France in this respect."

### "The French note declares that the French government is of the same opinion as the American government concerning the present rulers of Russia," and proceeds to condemn the bolshevik in language almost identical with that in the American note to Italy.

### Negotiations Not Approved.

### Asserting France is in "complete accord" with the United States as to the "necessity for an independent Polish state," the note adds:

### "This is why there is agreement between the French government and the American government as to the necessity for bringing about an armistice between Poland and Russia, while avoiding giving to the negotiations a character which might result in the recognition of the bolshevik regime and in the dismemberment of Russia."

### By this declaration France was regarded here as joining with the United States in opposing negotiations with the bolsheviks such as had been proposed by Britain.

### Mr. Colby also issued a reply to an assertion by Foreign Minister Tchitcherine of the soviet government that the bolsheviks have shown they "seriously adhere to obligations" and that if they promised to protect the United States "against agitation of the third international, all our representatives will rigidly fulfill this pledge."

### Lenine Admits Fraud.

### "I do not suppose," said Mr. Colby, "Mr. Tchitcherine has superseded Lenine as the authoritative spokesman of soviet purpose. The actual words of Lenine are in sharp contrast to the utterances of his foreign minister."

### "Said Lenine before the council of the people's commissaries during negotiations on the Prinkipo conference: 'I have never hesitated to encourage terms with the allied governments when by so doing I thought I could weaken the bourgeoisie. . . . The time has come for us to conclude a second Brest-Litovsk, this time with the entente. We must make peace not only with the entente but also with Poland, Lithuania and Ukraine and all other forces opposing us in Russia. We must be prepared to make every concession, promise and sacrifice to entice our foes into the conclusion of this peace. We shall know that we have but concluded a trap permitting us to complete our preparations for a bolshevik onslaught, which will assure our triumph.'"

### Treaty Held Trifle.

### "In the same connection, on February 2, 1919, Zinoviev, intimate associate of Lenine and Trotsky, said: 'We are willing to sign an unfavorable peace with the allied governments, would only mean we should put no trust in the bit of paper we should sign. We should use the breathing space to gather our strength in order that the more government exists to encourage our government would keep up the world-wide propaganda which soviet Russia has been carrying on for more than a year.'"

### "On another occasion, he is reported by Mr. Lincoln Steffens to have said: 'Our propaganda system is as strong and as far reaching as ever. . . . The Third Internationale is primarily an instrument of revolution. This work will be continued, legally or illegally. The soviet government may pledge itself to refrain from'"
