OREGON INDUSTRIAL **COURT IS PROPOSED**

Bill to Be Submitted to Next Legislature.

THREE JUDGES PLANNED

Judicial Group to Be Appointed by Governor With Consent of Senate to End Disputes.

SALEM, Or. Aug. 18.—(Special)— Settlement of all industrial disputes and regulation of industries by three judges to be appointed by the governor is the purpose of a bill which will be prepared by J. M. Devers, attorney for the state highway department, and presented for consideration of the state legislature at its next session in January. The judges, according to Mr. Dever's proposed measure, will constitute a court of industrial relations, and the appointment of the personnel must be made with the advice and consent of the

senate.
Although the proposed bill will be copied to some extent from the in-dustrial court law enacted in Kansas at the instigation of Governor Allen, that feature of the measure provid-ing for the abolishment of the public service commission probably will not be followed. It is likely, however, that if enacted the bill will merge the affairs of the present public serv-ice commission with the tribunal of industrial relations to avoid any duplication of effort.

Employments Affected Listed. The bill will provide that the op-eration of the following-named em-ployments, industries, public utilities and common carriers will be subject to regulation by the state and under the jurisdiction of the proposed court of industrial relations: of industrial relations:

Manufacture or preparation of food products whereby, in any stage of the process, substances are being con-verted, either partially or wholly, from their natural state to a condi-ilor to be used as food for human beings

Manufacture of clothing and all manner of wearing apparel in com-mon use by the people of this state whereby, in any stage of process, natural products are being converted, either partially or wholly, from their natural state to a condition to be used as such clothing and wearing

Mining or production of any subatance or material in common use as fuel either for domestic, manufac-turing or transportation purposes. Transportation of all food products and articles or substances entering into wearing apparel, or fuel, from the place where produced to the place of manufacture or consumption.

Discretionary Power Vested. The bill will provide that in case of a controversy arising between emof a controversy arising between employers and workers, or between groups or crafts of workers engaged in industries under the jurisdiction of the court, the tribunal may, in the event it believes the controversy is likely to endanger the efficiency of the industries, effect the transportation and production of necessaries of life, or threaten the public health, summon before it all necessary witnesses and make temporary findings and orders as will insure public peace and preserve the status of all parties interested. Authority also will be given the court to investigate wages and labor conditions. After completing its investigation the court shall serve upon all parties interested when \$50,000 was advanced to the ployers and workers, or between \$515,000 was advanced to the construction fund from all sources, wention on a bicycle. Will leave Tacoma at \$0 cclock Thursday morning ance on hand of \$4555.01. Other resources, including deposit made with the convention fund from all sources were \$215,766.89, leaving a cash balance on hand of \$4555.01. Other resources, including deposit made with the convention fund from all sources were \$215,766.89, leaving a cash balance on hand of \$4555.01. Other resources, including deposit made with the convention fund from all sources were \$215,766.89, leaving a cash balance on hand of \$4555.01. Other resources, including deposit made with the convention fund from all sources were \$215,766.89, leaving a cash balance on hand of \$4555.01. Other resources, including deposit made with the convention fund from all sources were \$215,766.89, leaving a cash balance on hand of \$4555.01. Other resources, including deposit made with the convention fund from all sources in a color of the government possible damage to government the court of the government of the grand-contain fund aviation field by noon. He will deposit and the hopes to arrive at the convention fund with the couvet with the convention of the court of the court

ing and living conditions, hours of labor, rules and practices and a reasonable minimum wage, or standard of wages, to conform to the findings of the court in such matters. of the court in such matters.

Henry W. Myers of Salem to Suc ceed Del A. Dinsmoor.

SALEM, Or., Aug. 18 .- (Special.) Del A. Dinsmoor of Portland has submitted his resignation to the gov-ernor as a member of the group representing the state at large on the committee of 15, which was appointed to pass upon proposed changes in the workmen's compensation act. Business conditions made it impossible for Mr. Dinsmoor to give proper atten-tion to the work of the committee, he

The governor has appointed Henry W. Meyers of Salem to succeed Mr. Dinsmoor as a member of this group. For many years Mr. Meyers was a leading merchant of Salem, retiring a few months ago by disposing of his mercantile interests. He is well known among the business men throughout the state.

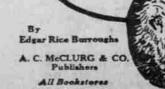

Were partially outlined at a meeting held here tonight.

In attendance at the meeting were: Robert E. Smith of Portland, who was in charge of the Oregon liberty loan drives during the late war; Lloyd Riches, secretary of the State Editor.

The good roads boosters of Forest Grove, Vernonia and the towns and communities of the Tualatin valley gathered yesterday afternoon at Banks for a rally to center the attention and support of the community of t ention and support of the commun

Is Your Skin Ablaze With Fiery Itchings?

Wrong Treatment.

At last science has determined the eal source of all skin diseases, and with this enlightenment comes the reason why the prevailing treatment heretofore used has proven such a complete failure. It has been proven that impurities in the blood cause millions of tiny disease germs to set up their attack on the surface of the skin, and in the form of pimples, bolls, scaly eruptions and itchy, burn-

ing irritations, begin their disfiguring and destructive work.

Don't Continue to Suffer Because of 1 no effect whatever. That is why salves, ointments, lotions, washes and other remedies applied to the skin can do no more than give merely temporary relief. Soon the fiery itching breaks out again, for such treatment cannot reach the source of the trou
