Wilson Charged With Helping Polish Aristocracy Crush Only Real Democracy.

CHICAGO, Aug. 23.—The first of a series of statements instead of speeches in the campaign of Eugene V. Debs, socialist nominee for president, now confined in Atlanta peni-tentiary, was issued today by socialist

Mr. Debs branded the league of nations controversy a "dishonest league" and announced the livest question before the American public was the coal shortage. He declared that while a shortage of cars was making it impossible to meet the demands for coal, "Mr. Wilson has had made by special executive order 4000 cars of a special design to aid the aristocracy of Poland crush out the only genuine democratic government on the face of the earth."

Rival Parties Denounced.

Besides denouncing the republican and democratic parties, attacking President Wilson and Samuel Gompers and branding the farmer-labor party as a one-campaign organization, that will never survive this year's battle. Mr. Debs dwelt on the recent railroad strike and compared the "vacationists"
