SPORTSMEN DEMAND FISH, GAME HEARING

Mr. Price Makes 15 Charges Against Commissioner.

LETTER SENT MR. BEAN

Padding of Accounts Aggregating Thousands of Dollars is Alleged in Protest.

Richard W. Price, president of the Oregon Hotel Men's association and director of the Multnomah Anglers' club, yesterday addressed a letter to Louis E. Bean, chairman of the fish and game legislative investigating committee, demanding that that body give a full hearing to charges the sportsmen sought to present at a meeting held here August 13.

The session adjourned sine die over the protest of two committeemen, Representative Norman and Senator Lachmund, and in spite of the fact that Price and his attorney, Arthur I. Moulton, were present to set forth evidence against members of the executive fish and game commission.

Issues Are Declared Dead.

Chairman Bean, Representative Cross and Senator Norblad, the other legislators on the committee, held that all controversies it had been intended to take up had automatically been settled by reorganization of the commission and that hearing of Price's statements would mean a rehashing of dead issues. They declined to consider any things which have transpired since the committee was appointed.

Fifteen charges were set forth in Price's letter, which also related what took place at last week's meeting. He further said he "sincerely believes that the future of the fish and game of the state of Oregon is imperiled by the conduct of the fish and game commission, and that action should be taken for the preservation thereof for the people of the state."

Other Charges Are Made.

The document alleged that Fish and Game Commissioners Frank M. Warren, I. N. Fleischer and Marion Jack sanctioned padding of accounts aggregating thousands of dollars; that State Senator R. S. Farrell, in collusion with Warren and other salmon packers, paid \$4000 to prevent filing of petitions for the enactment of a law protecting commercial fish; that ex-Games Warden Shoemaker interested himself in politics and solicited campaign funds from the fish and game commission's employees; that Warren employed his office in politics and in legislative lobbying in the interest of the salmon packers and against the best interest of fish and game; that the game protection fund was expended improperly, and both commercial and game fish were depleted for want of protection and propagation; that Commissioners Warren, Fleischer and Jack lobbied through the special session of the legislature in 1920 the "present vicious act reorganizing the present fish and game commission, divesting the governor of the appointive power as to such commissioners and perpetuating the then existing members in office, and that Warren wrongfully influenced Senator Gus Moser to vote for the measure.

CLUB BRANCH PROMISED.—Old Colony Club to Open Portland Organization for Business Men.

Portland branch of the Old Colony club, organized four years ago for the benefit of business men, will be opened in the Multnomah hotel early in September. It was announced yesterday by Eugene C. Batten, executive secretary of the national advisory board of the club, who arrived here yesterday from San Francisco. Mr. Batten is the guest of Eric V. Hauser.

The Old Colony club, according to Mr. Batten, now has about 13,000 members throughout the world and about 50 members in Portland. To be eligible for membership, a man must be a business executive, owner or part owner of a business, or a manager or officer of a corporation. It is expected that at least 300 Portlanders will be members when it opens here. Temporary offices are to be established this morning in the lobby of the Multnomah hotel.

Why is it that a cup of fine tea, with all its rare fragrance and richness of flavor, actually costs less than a cup of common tea? That's easy! The costs of getting tea from the teaplant to you are heavy—have to be. They are a large part of the price of tea; and about the same for common as for fine tea. You see, now, don't you? It really isn't worth while to bring over that common tea, with its weak flavor and vegetable taste. Schilling Tea is the fine practical economical tea of this country.
