DIFFICULTY POINTED OUT

Poles Declare Consequences Must Be Considered if Offensive Is Stopped at Soviet Line.

WASHINGTON, Sept. 1.—(By the Associated Press.)—Entire satisfaction was expressed today by state department officials with the formal reply of the Polish government to the American note requesting a Polish declaration to abstain from transgression of Russia territory.

Poland is understood to have replied that strategic operations must govern the halting of hostilities in their pursuit of the bolshevik at the frontier line of Poland tentatively fixed by the supreme council. Suggestions have been made by the American government in its note that Poland make clear that her intentions toward Russia were not imperialistic and that her armies should not advance beyond the ethnographic line laid down by the supreme council.

Note Publication Canceled. The reply was delivered to the state department yesterday by the Polish minister. Announcement was made today that the American and Polish notes would be made public at once, but this plan was canceled later.

The first portion of the reply consists of an expression of gratitude of the Polish government to the United States for the American note to Italy. The second portion serves as the specific reply of the Polish government to the American note.

DIFFERENT OPINIONS HELD

While insisting that the Polish government is in entire accord with the United States in the contention that Russian territory should be respected, the note declares that Poland is forced to consider the serious consequences likely to ensue from the abandonment of the present offensive against the bolshevik upon a fixed line without satisfactory guarantees.

POLISH REVERSES REPORTED

LONDON, Sept. 1.—The repulse of Polish attacks all along the line is reported in the Russian soviet official statement of Tuesday received here today by wireless. Polish forces have attacked Lithuanian troops near Augustowo, about 30 miles northwest of Grodno, according to a telegram from Kovno to the Lithuanian representative in London. Recent advances from Lithuania have referred to a boundary dispute between that country and Poland.

PEACE DELEGATES DISGUSTED.

BREST LITOVSK, Poland, Sept. 1.—(By the Associated Press.) Tired, dirty and disgusted, M. Domske, M. Grabek and several other members of the Polish peace delegation arrived here from Minsk Monday and were received by Prince Sapieha, the Polish foreign minister, at army divisional headquarters. The foreign minister said that he had known members of the indignities suffered by the Polish delegates they would have been recalled long ago.

PUBLIC HELD CAUTIOUS

WASHINGTON, Sept. 1.—Refusal of the public to pay "excessive prices" caused a continuation of the downward trend of values in August, the federal reserve board declared in its monthly review of business conditions, issued last night. The board declared that the "reaction" against high prices had been accompanied by a general slowing up of demand in the wholesale and retail trade, and a decrease of unemployment in some sections.

REVIEW SAYS PRICES SHOW DOWNWARD TREND.

Business Shows Signs of Greater Stability and Buying Is on Better Basis. The position of Great Britain is understood to be that the Polish armies should immediately halt upon the frontier line now reached, while France has contended that the armies should advance until a strategic point beyond the line was attained. It is believed that the United States now takes the position that the Polish armies may continue, even if the frontier line shooting armistice is assumed as assurances are forthcoming that Poland's intentions toward Russia are not imperialistic.

MINORITY HELD IGNORED

Plea Made for Better Publicity Chance for Small Political Organizations of Country.

CHICAGO, Sept. 1.—Farley P. Christensen, presidential nominee of the farmer-labor party, appeared at the senatorial investigation of campaign funds today and asked to be heard. Senator Kenyon, chairman of the committee, adjourned the hearing.

Mr. Christensen read a prepared statement in which he charged that "both the republican and democratic parties are being financed by Wall Street and that whichever won the government during the next four years will remain in the hands of the minority capitalist and manufacturer groups who have been masters of the government during the past 30 years."

TWO HELD EQUALLY GUILTY.

"It appears to us of the farmer-labor party to be of very little moment that republicans should appear before you and charge the democratic party with being financed by Wall Street, and that democrats should come charging that the republican party is financed by Wall Street," said the statement. "We wish to know with you the charge that both of these parties are financed by Wall Street, that both are controlled by the same invisible forces, and we respectfully suggest that the committee, in its report, should immediately inform the country that no matter which of these two parties wins the election, the government during the next four years will remain in the hands of the combined capitalists and manufacturer groups who have been masters of the government during the past 30 years."

INTERESTS ON BOTH SIDES.

"Your committee can develop for the public information a mass of facts which would convince the inter-related corporate interests of this country are on both sides of the fence, and that the campaign between the two old parties and convince the people for once and for all time that the only issue at stake between the two parties is an issue of degree, which of them shall have the privilege of serving the combinations of trusts and corporations which control the country."
