That the state highway commission acted in good faith in the Polk county road controversy, was the opinion of Judge McCourt yesterday when the testimony in the Polk county road injunction trial was completed.

Members of a committee from Dallas who have been attending the proceedings stated yesterday that what they want is to have the highway commission assume the cost of paving from Dallas to Salem, which will give them a good thoroughfare to the state capital.

Mr. Benson, chairman of the commission, pointed out, however, that the agreement of the commission was with the county court and not with citizens of Dallas or Independence because the commission can deal only with the county courts.
