Scott Stars in Box While Hammering in Scores.

PORTLAND GANG HOGTIED

McCredie Men Stage Mixup on Old-Fashioned Play and Help Rivals Along.

Pacific Coast League Standings.

At San Francisco, Sept. 2.—(Special.)—The seals came out of their trance at Oakland today for they stood up well behind the clever pitching of Jim Scott and they hammered the ball as a ball club should. As a result they won, 6 to 2. Scott had the Portland gang hogtied except in the eighth inning when they broke away from him and they swung, and clean hitting. But he soon got them in hand again and snuffed out the first three men who faced him in the ninth.

The hitting of young Jimmy O'Connell was very easy to look at. This young man looks like a hitter and he acts like a hitter, but he has not been crashing the ball like he should. He lifted three of them yesterday, however, in regular Sam Crawford style and he came mighty near beating out an infield tap for still another hit. If the kid would only take his natural swing and let the ball offered him, he would get himself talked about quite a lot, for when he does take a good swing, and meets the ball, he drives it like a shot.

Mixup Enables Score.

Hasbrook did some timely hitting, his total being four, but he did not have the power behind them that O'Connell had.

Three players got mixed up on a rule that has been in the book a long time, and in the confusion the Seals scored their first run with runners on first and second. Joe Connolly struck out, but catcher Koehler dropped the ball and runners advanced automatically out, but he ran for first base and Sam Agnew for second. Koehler threw to first either to catch Connolly or to pick off Agnew and he threw the ball away. Walsh scored on the hit and runners advanced to follow him home, but he was pitched at the pan.

Scott pitched swell ball, Jim Schaller hammered two of the runs. Jim does not believe a pitcher should be a cripple at the bat, and he is not going to let any one call him out on strikes. He took his swings and drove out two swell hits, a run scoring each time.

Schaller and Wistler Hit Hard.

A single by Wistler, a three-bagger by Cox and a single by Schaller scored the two runs for Portland in the eighth. Wistler and Schaller led the Portland team in hitting, each getting three. Scott had a lot of stuff on the mound and he struck out seven and walked only one man. Kallio was lifted for a pinch hit in the seventh and Wistler finished the game. Score:

DEMPSEY AND MISKE GET SPIRITED WORKOUTS.

Both Men Weigh 189 and Have But One Day Remaining of Hard Training.

BENTON HARBOR, Mich., Sept. 2.—With one more day of hard work remaining in their training grind, Jack Dempsey and Billy Miske today gave their sparring partners a vicious and a watchword, and after the workout Dempsey and the challenger derided their boxing at the top of their form.

Dempsey, however, got the best workout, as he traveled three rounds, while Harry Grab, the Pittsburgh light heavyweight, and another trio with Marty Farrell, Pacific coast middleweight. Miske feels the lack of capable sparring mates, and he was compelled to set the pace himself.

The three-round set-to between Grab and Dempsey was more in the nature of a real fight, instead of a training romp. Dempsey bore into the Pittsburgher with savage rights and

CHANNEL TRACK STARTS

Only Two Men Have Ever Crossed by Own Efforts, but Many Have Made Attempts.

LONDON, Sept. 2.—The English channel, which has so long flouted the challenge of its strong currents and rough seas before the world's best swimmers, with only two defeats recorded against it, is again the object of a determined attack. Not only have swimmers, but oarsmen, and even onych-cyclists have been bending their endeavors towards overcoming the tremendous obstacle of the turbulent water.

Mrs. Arthur Hamilton's failure to swim across last night and thereby making the attempt tomorrow. The American swimmer, Henry Sullivan of Lowell, Mass., who made an unsuccessful effort last week, plans to try the attempt tomorrow.

Last week two young oarsmen started out to scull across from England but were compelled to give up. Recently Miss Zetta Hulls got almost across on a water-cycle but the machine broke down.

The only two of the many swimmers who have succeeded are Captain Webb, who crossed in 1876, and P. W. Burgess, in 1911.

Mrs. Arthur Hamilton, daughter of the late Charles and Lady Fairfax Cunningham, started from St. Margaret's bay last evening at 6:10 o'clock with Capt. G. N. near Calais, as her objective. This morning she was forced to abandon the attempt because Kellerman failed 12 years ago.

Mrs. Hamilton was in the water 12 hours and the boat to which she was miles of France. She attributed her failure to the heavy sea. "Nevertheless," she declared, "she had accomplished what she set out to do—to set a record for women swimmers."

Coast League Gossip.

Seattle is the sensation of the Pacific Coast league. Rarely does a team which got to such a bad start make such a phenomenal recovery. The team, which was shown by the Sifters during the last week the northwesterners have through nine series without a defeat. They have not been able to carry the series in the past.

Will Seattle be the dark horse to win the Coast league pennant? Such things have happened in the past, and it is nothing to prevent it from happening in the future.

Vernon is the only club in the league which has not lost a game in the last week of play, after which it never dropped below .500, but was largely due to the fact that the team was standing up to nearly .500 at the end of two months of play, and had a margin to draw from when they began to hit the togs.

While on the subject of the Vernon and Seattle clubs, an interesting fact here on the last batting averages released, is the fact that Vernon, who has the highest batting average, had only one player on its payroll hitting the ball for better than a percentage of .300. Seattle led the league in the number of its players hitting .300 or over, with a total of seven men.

This evidently has not had anything in particular to do with the rise of Seattle, for the reason that even before they began their great upward climb, they had six men who registered .300 or better, which was a matter showing that any other team.
