SAN FRANCISCO, Sept. 2.—A campaign to insure the success at the November election of the proposed initiative amendment to the anti-alien law and also a movement to bring about national legislation aimed against so-called non-assimilable aliens were started here today by the Japanese Exclusion league of California.

The object of the proposed national campaign, as expressed in a declaration of principle adopted was to prevent "the introduction of an alien non-assimilable element whose advantages in economic competition whose standards of living and inherent racial incompatibility make them unfit for American citizenship."

A protest was telegraphed to Secretary of State Colby against a reported plan under discussion with the Japanese ambassador for naturalization of Japanese now in this country and stoppage of immigration.

#### State Well Represented.

Organizations from all parts of the state interested in the proposed initiative amendment were represented at the meeting.

Among the organizations represented were the State Federation of Labor, San Francisco Labor council, Loyal Order of Moose, Native Sons of the Golden West, American Legion of California, State Housewives' league and the Bay Counties' Asiatic Exclusion League.

The league adopted a declaration of policy which included the following three features:

First, the admission as immigrants of any people incapable for any reason of assimilating with the white race and of furnishing desirable material for American citizenship.

Second, the granting of citizenship either by birth or by naturalization to any such people.

Third, the owning, leasing or control by them of agricultural lands.

#### White Silk Trimmed in Gold and Bearing Washington Emblem Shown for First Time.

SPOKANE, Wash., Sept. 2.—Two historic American flags, the one which flew over Chaumont, France, when General Pershing made his headquarters there, and the one fired upon in the Centralia Armistice day parade last November, led the parade of former service men which featured the opening day's session of the American Legion's annual state convention.

### IT'S WORLD BEATER, STATES M'NAMARA

Had Reached the Point Where He Could Go No Further, But Tanlac Restored Him.

"I have picked up sixteen pounds since I started taking Tanlac and now weigh more than I ever did in my life, and if I ever felt better or stronger before I don't know when it was," was the remarkable statement made recently by James M'Namara, 536 Fell Street, San Francisco, owner and manager of the Silverstein Draying company.

"A little over a year ago my health began to fail and I soon got into an awful weak and nervous condition. Then the flu came along and nearly finished me. It sapped just about all the strength and energy I had and left me in about as bad a fix as a fellow can be in. My appetite was gone and, to tell the truth, I was afraid to eat anything much for it nearly killed me if I did. I would blot up with gas so bad I felt like I was going to choke to death and my heart would beat so fast I was afraid to take a deep breath.

"I was so nervous that sleep was next to impossible and right after night I got up out of bed and paced the floor four hours at a time. This knocked me out and the next morning I hardly had the strength to get up. My back ached all over and my right arm and my left elbow became so stiff I could not bend it. The muscles in my leg were so sore they ached all the time and my leg from the knee down to the ankle was swollen twice its normal size. I could hardly drag along and had simply played out entirely. I had dropped off in weight and had reached the point where I could go no farther.

"That was the shape I was in when one of my friends told me what Tanlac was and how it would help me. I tried it, and I want to say right here, before I go any further, that it's a world-beater. Why, I've never seen the like before. The rheumatism has all gone, I believe, for I never have even so much as an ache or pain of any kind. I have a ravenous appetite and my stomach never gives me a particle of trouble any more. My nerves are as strong as steel, and I sleep nearly as soon as I hit the pillow. I never felt better or stronger before. Tanlac was recommended to me and I am keeping up the good work by recommending it to my friends all along."

### Why Men Fail

ARE WE SOON TO BECOME A RACE OF BALD-HEADED MEN?

PROF. JOHN H. AUSTIN

Bacteriologist, Hair and Scalp Specialist of Chicago, Who Now Has Offices at The Owl Drug Co., Talks Most Interestingly About the Hair.

He says baldness is increasing rapidly among men and points out some of the reasons. Prof. Austin is probably right in saying that only about one man in every hundred ever thinks about his hair at all, except to comb it two or three times a day. If it falls out he looks anxiously at the falling hair and then promptly forgets it. If it falls out he uses a comb.

A man will give the utmost attention to his hair, because he knows that when trouble arises he will have more trouble and probably lose his hair if he doesn't go to a dentist promptly. But his hair doesn't ache, it just gradually dies, and when it is nearly gone and the roots are dead he anxiously tries a dozen different remedies at once and then resigns himself to baldness.

Prof. Austin says the use of dandruff cures, mange cures and hair tonics is like taking medicine without knowing what you are trying to cure. The particular trouble with which your scalp is afflicted must be known before it can be intelligently treated.

Prof. Austin examines the roots of your hair with a powerful microscope. He finds out just what is the trouble with YOUR HAIR, and then he tells you what to do for the trouble.

FREE MICROSCOPIC EXAMINATION of the hair and scalp -- both men and women invited. Private Offices at The Owl Drug Co., Broadway and Washington. Hours, 10 to 12 and 2 to 4.—Adv.

### Why Men Fail

BEHIND the failure of men to achieve success and prosperity is often the fundamental reason that they are not savers. They did not learn thrift when young--and could not when older.

We feel, then, that in encouraging the opening of even the smallest Savings Account at the United States National Bank, we aid in laying a strong financial foundation.
