future deliveries of wheat, most of the demand coming from houses with seaboard connections. After the upturn in values, though, had reached the highest level for some time past, the market began to actired. Then came advices that foreign demand at the seaboard was poor. Bulls were also handicapped by pressure from cash interests on all the hard spots in the late dealings.

Corn advanced sharply at one time with

Mr. Kent's report	naya:		

Weather Conditions-The first few da of August were about normal for that da but on the 12th the Portland weather t reau station recorded a maximum temp ature of 98 degrees, maximum tempe tures ranging upward to 108 degrees be reported from other portions of the sta Rather high temperatures prevailed un the 24th when a light rainfail was record at Portland. Unsettled weather follow until the 30th, with a total precipitati at Portland of 1.25 inches (August nor-mul 0.65 inch). Reports indicate more or less rainfall all over the state during the period mentioned. Threshing was de-layed a few days but in 'full swing' on August 30 and 31. No damage to cut grain resulted further than a little discol-oration. There was a pretty heavy wind one day which did some damage to attand-ing grain (of which there was but little), also blaw down considerable corn.

"Spring Wheat-In the western part o the state some very late sown spring wheat was damaged by hot weather, but most of this crop was fretty well matured before the occurrence of the hot weather. In some of the counties in the eastern portion of the state there was considerable shriv-

"Pats-Fields that promised 40 to 50 bushels per acre have notually yielded 30 to \$5 bushels. The green aphis was fairly abundant on oats during part of the growing season and producers are of the opin-ion that this condition cut down the prospective yield. Some late sawn oats were badly shriveled as a result of mid-August

'Hops-In the hop producing counties pinking was pretty generally under way during the week beginning September 5. While most yards have a good crop, only a very light yield is being obtained from while most yards have a good crop, only a very light yield is being obtained from others. County assessors' reports already turned in to the state tax commission show a total acreage of 'old hops' of 8163 acrea and 'baby hops' 2803 acres. A few hundred acres will probably be added when all counties have reported. Marion and Polk counties combined report 5533 acres of old hops and 1387 acres of baby hops.

"Prunes—Prines have matured rapidly per pound. Prunes-Prunes have matured rapidly per pound. of late and picking will start earlier than was expected a month ago. A few driers will begin operation during the present week. Much of the fruit will be of large size, owing to a light crop on many trees, size, owing to a light crop on many trees, and the favorable growing conditions of DRY SALT—Short, clear backs, 25@27c late. The crop as a whole will doubtless be close to a record-breaker, ewing to much new acreage coming into bearing in BACON—Fancy, 46@58c; standard, 32@ much new acreage coming into bearing in

to Manitoba and other English possessions and the continental countries are also ignoring American wheat, buying in Canada

Five thousand bushels of September soft white were sold on the local board at \$2.44, or 4 cents more than was bid on Wednesday. Hard white bids were raised 6 cents, white club 4 cents, hard winter 7 cents, northern spring 9 cents and red pound.

The course grain market averaged lower, Barley bids were reduced \$1, corn 50c 271, and September white oats 73 but September gray bids were

Weather conditions in the middle west, as wired from Chicago: "Kansus City, raining throughout the southwest, St. Louis had 3 inches of rain yesterday; brilliant now. Rains last night in Illinois, Iowa, Missouri, Kansus, Nebraska."

The weekly weather and crop report said: "Relatively low temperatures are delaying the maturity of the corn crop. In Nebraska it needs one to three weeks of f killing frost. With normal weather 42

CANADIAN WHEAT RETURNS GOOD.

Montreal reports prairie sections with the exception of a few scattered sections where rain occurred, harvesting of all crops has progressed under favorable conditions and threshing returns are showing

ricids well up to and above the average.

Broomhall's Argentine cable follows:
"Estimated shipments wheat 750,000
bushels; corn, 3,000,000 bushels; oats.
350,000 bushels. The drought persists in
the 'central and southwest districts espewilly. The dryness is causing consider-ble alarm and crops are suffering con-iderably. Sowing of corn is about to com-nence and farmers are experiencing much difficulty due to the lack of moleture. Corn

Hop Harvest Responsible For Smaller Butter Receipts.

The egg market is firm with an advance

The Oregon wheat crop this year is placed at 21,924,000 bushels, according to the September report is used yesterday by F. L. Kont, agricultural statistician of the bureau of crop estimates, United States department of agriculture. This is an increase of 1,429,000 bushels over the entimated crop of last reasonable.

OPENING BULGE IN WHEAT PRICES NOT MAINTAINED.

Chicago Market Is Unsettled at Close Owing to Lack of Foreign Buying.

CHICAGO, Sept. 9.—Wheat prices went up with a rush today owing to reduction of the government estimate of the 1920 unsettled, \$c to 2c net higher, with De-cember \$2.47 to \$2.47 % and March \$2.43%. Corn finished 1 %c to 2 %c down, oats un-changed to %c higher and provisions at a rise of 10 and 40 cents.

# Loan Oversubscribed

The books for the French Government \$100,000,000 8% loan closed in just one hour, with the loan he avily oversubscribed. Anticipating such would be the case we subscribed for a large amount, of which we have available about \$150,000, and offer to our clients at the original price of par and interest, yielding a minimum of \$40% up to a possible 18%. Anglo-French Fr accepted in exchange at 102½.

This offer is subject to withdrawal without notice.

ADVANCE DUE TO SUCCESS OF NEW FRENCH LOAN.

Lower Money Rates and More Promising Crop Outlook Are Also Favorable Factors.

late dealings.

Corn advanced sharply at one time with wheat, but averaged lower, influenced mainly by the record-breaking figures in the government report as to corn.

Outs were firm.

Export business, together with higher quotations on hogs, lifted provisions.

The Chicago market letter received yesterday by Overbeck & Cooke company of Portland said:

Wheat—There was an active demand for futures early in the session, stimulated by the government report issued after the close yeaterday, which showed a reduction of 25,000,000 bushels in the spring wheat NEW YORK, Sept. 9 .- The investmen situation was a factor of paramount importance in the stock market today, taktions and the more promising crop outlook. Anneuncement of the successful offering of the new French loan, which was oversubscribed before the opening of the books, was accepted as an indication that ventors are eager to participate in at-

books, was accepted as an indicator the investors are eager to participate in attractive underwritings.

The only noteworthy drawback was again furnished by foreign exchange, which continued to move against the markets.
Out-of-town banks contributed to the callenged supply of money on call, most of which was offered at T per cent, but reliaxed to 8 per cent later.

Shippings, oils, dividend-paying rails and chemicule led the day's higher range of prices. United Fruit made a not gain of 13½ points on rumors of a forthcoming cash or stock dividend and American International rose almost 5 points.

Marked strength was shown by Mexican and Pan-American Petroleums. Royal Dutch, Union and Southern Pacific, Delaware, Lackawanna & Western and National Aniline. Sales were 450,000 shares. Liberty bonds were irregular, but some of the Internationals were stimulated by the success of the new French Issue, which rose a fraction over par on the curb. Sales, par value, \$5,550,000. Old United States bonds were unchanged on call.

Cash prices were: Wheat—No. 2 red, \$2.58@2,50%; No. 2 hard, \$2.57@2,57%; No. 2 northern spring, \$2.52%; 2.524; Corn—No. 2 mixed, \$1.44@1.44½; No. 2 yellow, \$1.45@1.45½; Casts—No. 2 white, 68½ @67½c; No. 3 white, 68½ @67c; Rye—No. 2, \$1.93@1.07; Barley—\$1.03@1.12; Timoth seed—\$4@7.70; Clover seed—\$22@27; Pork—Nomical.

CANNERY HELP SOUGHT More Than 200 Women Can Be Used in The Dalles.

THE DALLES, Sept. 9 .- (Special.)-The dehydrating plant here and the cannery are both appealing to the women of Oregon for assistance in putting up the pear and prune crops of this season. Both plants are short more than 200 women employes, and it is feared by the managers that the crops may rot before they can be taken care of. The highest scales of vages are paid, and company restau rants reduce the living costs. Positions are open for all comera.

The dephydrating plant started work yesterday on Bartlett pears and prunes, paying an average of \$70 per ton for pears, and \$60 for prunes. At present they have 400 tons of pears on hand, and 700 tons of prunes.

### FALL FROM HORSE FATAL

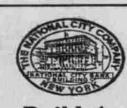

Mrs. Amy Curry of Albany Dies 15 Days After Accident.

ALBANY, Or., Sept. 9 .- (Special. -Mrs. Amy Ellen Curry, wife of Harvey W. Curry of Scie, a young woman widely known in this vicinity, where she has spent most of her life, died yesterday morning at St. Mary's hospital as the result of an accident when she was on a vacation 15 days ago. Mr. and Mrs. Curry and some friends

from Scio were in the mountains near Snow Peak above Lacomb when the accident occurred. Mrs. Curry got on a horse to go for some water. The horse reared. She fell off and the animal fell on her.

School Attendance Increased. TACOMA. Wash., Sept. 9.—(Special.)—Tacoma's school census shows an increase of 1069, a gain of 7 per cent over last year, figures at the end of the first day disclose. High and grammar schools as well as kinder gartens show a total enrollment of 15,224 pupils. Private and parochial

schools reported an increase also.
