Anti-Saloon League Would Impeach Lax Judges.

100-PROOF CONGRESS AIM

Power of Wets Not Entirely Downed and Prohibition Is in Peril, Say Leaders.

WASHINGTON, Sept. 15.—A programme designed to "rid" the government of officials who do not observe or enforce the "spirit as well as the letter" of the Volstead act was put under way at the first session today of a national conference of Anti-Saloon League officials.

As the first step the conference appointed a committee to draft a resolution which, league officials said, would serve notice on federal judges that their "sacred duties must be sacredly performed."

Administrative Officers. It was indicated, also, will be brought within the league's programme, several speakers among them. The opinion was expressed that liquor interests might seek to defeat the aim of the law by obtaining the appointment of officials who would wink at some kinds of violations.

Revenue Bureau Criticized. The internal revenue bureau was criticized for issuing "sleazy" permits and federal judges were accused of "coddling" moonshiners and bootleggers. Many judges were pictured as too lenient and having permitted violators to escape punishment with light fines.

Law May Be Voided. "If the outlawed brewers can defy the constitution of the United States," Mr. Wheeler said, "then any other group of citizens who do not like a law can proceed to nullify it and the government itself would be in jeopardy."

CROWD HEARS GORDON. GOSPELS HAVE TANG OF TREES, DECLARES SPEAKER.

The story of "Why a Shrewd Old Jew Quit Money Making" formed the text of the talk given by S. D. Gordon to a good crowd at his noon meeting at the Hellig theater, which was under the auspices of the federation of churches of Portland.

FIGHT OVER SEWER ENDS. PAVING OF FIVE STREETS ALSO CONSIDERED VICTORY.

East Twenty-First, Twenty-Second and Twenty-Third Eliminated From Project.

A long drawn-out battle between residents of the various districts over the construction of the proposed Killingsworth avenue sewer was ended yesterday when the city council ordered the sewer and pavement laid on East Sixteenth, Seventeenth, Eighteenth, Nineteenth and Twentieth streets from Killingsworth avenue to Alberta street.

some new angle has always developed which postponed settlement. However, yesterday Mayor Baker announced that a decision would be reached and that all who desired to make a final statement should avail themselves of the opportunity.

Finally Commissioner Bigelow expressed a desire to authorize the entire project without eliminations. Commissioner Barber, in charge of the public works department, stated that he favored the elimination of the three streets and the authorization of the remainder of the plan.

48-HOUR WEEK AFFIRMED

TYPOTHETAE OF AMERICA DISAPPROVES REDUCTION.

Resolution to Eliminate Closed and Open Shop Branches Is Defeated.

ST. LOUIS, Sept. 15.—Resolutions disapproving any reduction from the 48-hour working week generally observed by the printing industry in the United States were adopted at the convention of the United Typothetae of America today.

This action was the outgrowth of an agreement made last year by the closed-shop branch of the typothetae with the International Typographical Union granting a 44-hour week for printers, which, according to the resolution, caused "misrepresentation and misunderstanding" as to the position of the parent body.

MOTHER ASKS FOR HELP

Public Called On to Assist in Search for Missing Son.

SEATTLE, Wash., Sept. 15.—(Special.)—After five weeks of fruitless search for her 13-year-old son, Harry, who disappeared from home, 4218 Thirty-ninth avenue, Mrs. H. J. Haas today appealed to the public for assistance in the search for her missing boy.

STEALTHY ANEMIA

If we could only see ourselves as others see us, or if we would only read aright the reflection in our mirror we might be saved a great deal of suffering and sickness. Anemia approaches so stealthily that it is sometimes well advanced before its presence is advanced. Often the startled exclamation of a friend is the victim's first hint that there is a marked change in his appearance.

AMERICANS TO SIFT STRIFE IN IRELAND

Senators, Mayors, Judges and Others on Committee.

BOTH SIDES TO TESTIFY

Aim of Move Is to Prevent Drift in United States Toward War With Great Britain.

NEW YORK, Sept. 15.—Oswald Garrison Villard announced tonight that 100 representative Americans had accepted the invitation of his magazine, the Nation, to constitute a non-partisan commission to sift charges of another by the British government and the Sinn Fein.

The announcement says the committee of 100 on Ireland, as it will be known, feels that some neutral action is necessary in order to preserve Anglo-Saxon friendship and to prevent the spread of ill will, with the possibility of such irritation driving the United States and Great Britain into war.

Both Sides to Testify. The programme is not fully developed, but its sponsors suggest that the British government, Sinn Fein and others be asked to present evidence. The committee, it is said, will designate from its own members or outside, a small commission to hear testimony and make a thorough and impartial report.

WOMEN'S DECISION ASKED

REPUBLICAN STATEMENT IS SANGUINE ON LEAGUE.

Chairman Hays Willing to Leave Fate of Election in Hands of New Voters.

CHICAGO, Sept. 15.—Will H. Hays, chairman of the republican national committee, in a statement tonight said the republican party was willing to let the women of the country decide whether the United States should enter into obligations which will make her sons liable to be ordered by foreign powers to foreign soils to settle foreign disputes.

Mr. Hays' statement was made, he said, "in response to a statement which was entirely devoid of local issues, the fight being on the league of nations and Wilson." "For 150 years the women of this country have given being to our soldiers," said Mr. Hays. "For 150 years the women of this country have inspired our soldiers to deeds of unexampled heroism. But the women have had no voice in the disposition of these soldiers. Now, by the triumph of a supreme justice, the women will have a voice in the disposition of our soldiers. The republican party is ready to let the women decide whether the United States shall enter into obligations which will make her sons liable to be ordered by foreign powers to foreign soils to settle foreign disputes."

DRYS LAYING PLANS TO RUIN MOONSHINER

Vigorous Campaign Against Still Will Be Started.

\$50,000 TO BE ASKED

Funds of All Kinds Would Be Divided Equally Between Governor and Counties.

SALEM, Or., Sept. 15.—(Special.)—Because of the apparent increasing traffic in liquor, due to the operation of stills in various parts of the state, the Oregon anti-saloon league, in cooperation with other law enforcement bodies, probably will go before the legislature at its next session in January and ask for an appropriation of not less than \$50,000.

Under the present system of handling the special agent funds considerable money is expended by the state in running down bootleggers, while the total fines collected go into the funds of the counties.

Mr. Herwig recently arrived in Oregon from Kansas, and from some of his remarks it is apparent that he means to give the peace officers of Oregon every assistance in halting violations of the liquor laws. While there is yet considerable old stock liquor in the hands of bootleggers, Mr. Herwig said most of the whisky new being sold in various parts of Oregon was of the moonshine variety. "Operators of the illicit devices can be handled under both the federal and state laws," said Mr. Herwig.

Mr. Herwig has no fear of disastrous results from the recent ruling of Federal Judge Wolverson in Portland to the effect that it is not in the province of officers to search homes unless provided with a search warrant based on proper information.
