COMMUNITY SERVICE ORGANIZATION BEGUN

Meeting of All Neighborhoods in City Held

DR. PARSONS IS SPEAKER

Bonds That Hold Society Are Declared to Be in Danger of Being Broken.

The organization of all neighborhoods in the city for the purpose of doing community service work was started last night at a meeting held in library hall of representatives of nearly all the districts of the city.

The message of the meeting was given by Dr. Phillip A. Parsons, head of the Portland school of social work, who said that the bonds which hold society are in danger of being broken "because we are a mass of strangers." He explained that distrust, suspicion and antagonism are routed when neighbors discover that they are all human beings.

"The message of the meeting," said Dr. Parsons, "is to establish community service centers in the outskirts so that everyone who comes to the city may feel the effect of his work and see that he has a friend."

When W. E. Woodward, chairman, called the roll of the Portland districts with eight delegates present.

Dr. Parsons is also a professor of sociology on the University of Oregon faculty, stated that "unless we can again think in terms of each other instead of ourselves, we will be engulfed in a great world conflagration. The world is on the eve of a great crisis; mankind is sick of bloodshed and slaughter, but we are saturated with materialism."

PACKERS' PLAN IN DOUBT

U. S. MAY REJECT PROPOSAL ALMOST IN ENTIRETY.

Suggestion for Disposal of Stockyard Interests Believed Not to Likelihood of Court.

WASHINGTON, Sept. 27.—(By the Associated Press.)—The government may reject almost in its entirety the proposal of the "big five" Chicago packers for disposition of their stockyard interests.

Department of justice officials will file the government's views of the packer plan in the District of Columbia supreme court tomorrow. It was understood a counter-proposal would be made by the government. The case will be heard finally October 1.

Proposals of the packers provided for transferring their stockyard interests, estimated to involve about \$100,000,000, to Frederick H. Prince & Co., Chicago bankers. This suggestion was said to be regarded by government lawyers as meaning concentration of control to a greater degree than existed under the packer management. The nature of the counter-suggestion was not disclosed here.

The counter-suggestion would extend the time for development of a new plan by the packers.

Under terms of an option on the packer stockholdings, was obligated to organize a holding corporation for the stock which would be offered to farmers and producers and traders in livestock. The option provided also that interests in the holding corporation directorate and in management of the stock yards.

NATION'S ANNUAL FIRE LOSS TOTALS \$250,000,000.

Trees Being Cut and Destroyed Four Times as Fast as New Ones Are Being Grown.

WASHINGTON, Sept. 27.—Every time there is a forest fire it is a contributing factor to the increasing price of lumber, according to Charles Lathrop Paack, president of the American Forestry association, who, in a statement here today denounced the needless and antagonistic fire loss of the United States as "a waste-ful strain upon the resources of the nation."

"The wholesale prices on upper grades of soft wood lumber in this country were from \$20 to \$25 a thousand feet prior to 1905, when mills in the same areas were operating on a basis of \$25 to \$30 between 1885 and 1917, when most of the supply came from the Pacific coast."

BIG ARMISTICE DAY PROGRAMME URGED

Mayor Baker Speaks to Foreign War Veterans.

SMOKER HELD BY POST

City Executive Asks Co-operation of All Patriotic Organizations to Arrange Celebration.

All patriotic organizations of the city were urged to co-operate in arranging a big armistice day programme on November 11, making the coming anniversary of the ending of the war one of the gala days of the year.

Mayor Baker expressed his hearty endorsement of the work being done by the veterans' organizations of the city and gave them the assurance that the city would be behind them in their activities for the future.

On the coming armistice day, he said, the auditorium would be at their disposal and he announced his intention of appointing committees from the various groups of ex-soldiers to work in conjunction with the city in preparation for the coming celebration.

A high personal tribute was paid the assembled veterans, every one of whom had seen service overseas.

Great Future Is Foreseen.

"You can become a great factor in our government in the future when you take the place of the G. A. R.," declared the mayor. "I do not mean in a political way, but in personal service and example. We do not want bolsheviks or profiteers or radicals, but Americans. By sticking together and working together, you will insure their honor and their prestige."

Judge Morrow, in a brief address, prophesied a great economic and social good sure to result from the future work of the veterans' organization, and exhorted them to cherish and uphold the ideals of this and other kindred organizations.

He said, and it is a fact, that the people will be brought to realize the value of class distinctions and are educated to the knowledge that men are free and equal.

Good Boxing Card Is Held.

A good boxing card, including a fast three-round bout between Battling MacK and Sol Bloomberg, was on the program for the evening at the battle between two midwinters, "The Goose Hollow Bantams," who weighed in at 55 and 50 pounds.

DeForest Blair and Arthur McClure, received an ovation when they put on a veteran performance which resulted in a "knock-out" for McClure.

Other three-round bouts were staged by Kid Cox versus Battling Moore and Johnny Huback versus Kid Krall.

Three vocal selections were rendered by A. E. Davidson, accompanied by W. R. Boone. After the programme the assembled veterans "fell in" for refreshments.

It was announced that the smoker last night was partly in honor of the election of J. W. Jones, commander of the local post, to the position of junior vice-commander of the national organization at the 25th annual convention held at Washington, D. C. September 12-19.

It is said that this is the first time that a Pacific coast man has held a senior office in the national organization.
