

NEAR-EAST RELIEF READY FOR BUNDLES

28 Stations Open Today. Drivers Look for Signal.

BOXES ON WALKS IN PLACE

Men Prosecuted in Constantinople Said to Be Officials Arrested Months Ago.

Bundles day for the collection of clothing for the Near East Relief will start this morning with everything in readiness to care for the clothing.

Twenty-eight stations will be opened in various parts of the city. Grocery and department store drivers will watch for the towel hanging in the window as a sign to call for bundles and a central station will be ready in the Marshall-Wells building on Pine between Fourth and Fifth.

Boxes will be placed on the sidewalks at the Y. M. C. A., Elks club, Stock Exchange and Marshall-Wells building for the convenience of downtown givers.

Elks Volunteer Aid.

The Elks have volunteered to aid in the drive and Fred W. Wagner, chairman of the committee, is appealing to all Elks' families, particularly to prepare their bundles and if possible deliver them at the Elks temple. Those who are unable to bring their packages are asked to telephone Broadway 142. Any who have automobiles available to aid in the work of collection are asked to telephone the same number.

A telegram from the New York headquarters of the Near East Relief received here yesterday states Associated Press reports that officials of the Near East Relief were expanding relief funds for entertainment purposes were the result of the prosecution by relief officials of soldiers, formerly employed by the organization in Constantinople.

Theft Charge Prosecuted.

These men are now being tried on the charge of stealing supplies destined for the relief of starving women and children, declares Charles Y. Nickrey, general secretary, who has just returned from Constantinople.

"We were aware," states the telegram, "that the men charged with these thefts would seek to defend themselves by bringing counter charges against the relief organization in the hope of excusing their offense, but we determined to pursue the investigation to the very top."

BOYS LOOT SEVEN FIRMS

\$20 CASH, TOBACCO TAKEN; OIL BARRELS OPENED.

Youths Enter East Side Buildings With Pass Keys; Portland Natatorium Loses \$150.

Boys are believed by police detectives to be responsible for a series of small but destructive burglaries occurring within a radius of several blocks of each other in the central east side some time Sunday night. It was not until yesterday that Captain of Inspectors Circle allowed the burglaries to be made public.

Seven business houses were entered during the night. The thefts included about \$20 in silver, a small quantity of tobacco and candies and other articles of small value. In two places the thieves were armed with anything of value, and they spitefully opened the plugs of oil barrels allowing the oil to stream all over the floors.

At the Italian Importing company, 295 Grand avenue, they got \$11 in cash and a small quantity of cigars. Nothing was missed from the Harris Ice Machine Works, 174 East Water street. At the offices of the Lewiston Milling company they took several packages of pancake flour and a few tools.

Oil was permitted to pour upon the floor of the plant of Nottingham & Co., at 343 East Washington street. Another small quantity of oil was taken from the Pacific Lime and Gypsum company but there was nothing stolen. The G. W. Simpson company, 241 East Washington street, missed \$1 in cash and a few stamps. John Babegelah, 241 Union avenue, lost \$5 in cash to the prowlers.

Entrance to the buildings was gained by pass keys, reported detectives who made an investigation Monday. Because of the choice of loot taken they also believe it to be the work of youngsters.

J. W. Coffin, manager of the Portland Natatorium, 249 Broadway, reported that the entrance to the building by forcing open a transom above the front door. The loot consisted of \$100 in silver which was lying on a desk and between \$20 and \$50 which was contained in a money bag. The police are without clues.

Dan McPherson awoke in his room at the Danduth hotel, 65 North Sixth street, just in time yesterday morning to see a prowler escaping through his window with his trousers and money. Police could find no trace of the thief or the trousers.

FURS AND MYSTERY

By N. M. Ungar. Fur buying is a side to the fur business equally as important to the prospective purchaser as the selling of furs, whether they be sold honestly or dishonestly.

To deal honestly with the customers of his concern, the fur buyer must know furs from A. to Z.—he must know exactly what he is buying and must sell them for exactly what they are. Then, too, he must know just what constitutes a reasonable buying price and a legitimate selling price. Unless he knows these things and what constitutes a reasonable buying price, most of whom know really little regarding furs, it will not take long for his concern to establish a reputation not at all envied by its more honest competitors.

A dealer who wishes to deliberately deceive his patrons may, easily enough, offer imitations upon which the workmanship is so skilful that it is hard to distinguish between them and the genuine. Of course, it is easy to detect badly or heavily dyed imitations for the under fur is darkened where its natural state and the skin itself is stained, but a cleverly dyed skin will deceive all but an expert.

In imitation of the more or less expensive furs the domestic cat provides a wide variety of furs. White rabbit is sometimes sold as ermine, chinchilla or even fox; the muskrat readily lends itself to imitations of seal, mink, sable and otter; black fox and with white hairs added are sold as silver fox, one of the most expensive furs on the market.

The price of furs varies perhaps more than that of any other commodity of changeable value, and, as we have shown, substitution of one fur for another is comparatively easy. This makes it doubly advisable to "Beware of the Wolf in Sheep's Clothing."

Experienced Mothers know the wisdom of assisting nature before Baby's coming

It is natural to think of the expectant mother's influence upon the unborn babe. Her food, her habits, her hygiene, and even the condition of her mind, all have a part in determining the well-being or ill-being of her infant before birth.

No woman awaiting the joys of coming motherhood should allow the days to pass without giving nature a helping hand—because the conditions of pending motherhood, existing as they do, over a protracted period of months, create almost a new state of being for a woman.
