Eastern Trip Discussed.

With his political advisers on the train the candidate discussed today the question of an eastern speaking trip late in October. It was indicated today that the whole plan to go into the east might be given up.

The ride in the engine cab was taken at the invitation of A. S. Black-mar, the engineer, who is an official of the Brotherhood of Locomotive Engineers. The senator chatted with the driver while his wife, in the fireman's place, opposite, kept up a rapid fife of questions about the mechan-

Mazola-the choice of leading hotels, clubs, and railroad dining cars in America!

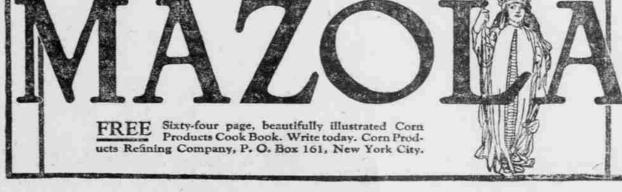

TATOMEN everywhere are finding out that lard is one of the most unsatisfactory of all cooking fats. It is absorbed into the food, making it heavy, soggy and indigestible at times. So much lard is taken up by the food during cooking that it becomes more expensive to use.

Mazola is 100% pure vegetable oil. It never penetrates into the food, but sears fish or meat over, and preserves all the good flavors. At the same time, it makes the food more digestible.

You too, should use Mazola for all cooking, baking, frying and sautéing purposes.

Thousands of people everywhere use Mazola as a delicious salad dressing, in preference to olive oil or any other vegetable oil. It costs about half what an acceptable grade of olive oil would cost.
