

STRENGTH GARDIEN SURPRISE

Washington Fails to Show Stuff of Last Year.

OREGON GAME IS SHOCK

Lemon-Yellow Squad Barely Noses Out Winged M With Touch-down at Last Moment.

King football came into his own Saturday all along the Pacific coast and throughout the northwest. Few big games were carried, most of the contests being in the nature of preliminary or practice affairs. The contest, however, served to give the gridiron followers somewhat of a line on what kind of squads the Pacific coast universities and colleges have this fall.

The surprise of the Saturday battles was the tough game that Whitman in Seattle, Coach Borleske's Missionaries holding the Washington Sunborders to a 23-10 score. Last year the Sunborders gave Whitman an unmerciful beating, but failed to show so much stuff this year. Coach Allison might have something up his sleeve to save for the big teams, but the game was a shock. Many looked to see the club team go down to an inglorious defeat, but such was not the case. Hard-fought reports the game was a hard-fought affair from beginning to end and but for a last-minute forward pass registered by "Burr" Huntington's warriors the game would have gone down to the record books as a tie.

The University of California piled up a 127-0 score over the highly-touted St. Mary's college team, which means that the Bears will have to be reckoned with in the race for the title this season.

Washington state had things pretty much its own way in Spokane, defeating Gonzaga 35 to 0. Gonzaga never had a championship team, but always turned out a bunch of fighters. Following is a summary of Saturday's football results on the coast:

At Salem, Washington 12, Astoria 7.
At Seattle, Washington 33, Whitman 14.
At Palo Alto, Olympic club 10, Stanford 7.
At Berkeley, California 157, St. Mary's 0.
At Spokane, Washington 23, Gonzaga 0.
At Eugene, Oregon 7, Multnomah 0.

ROSCOE FAWCETT, SPORTS EDITOR, RETURNS TO ARMY

Originator of Bright Comparisons That Have Entertained Readers of The Oregonian's Page Is Now Captain in Air Service.

That was a classic. A good sample of his football style was his story last week on the clash between Harvard and the University of Oregon at Pasadena.

In the fall of 1917, shortly after the United States got into the war, he entered the first officers' training camp of the Presidio and was graduated from it with the rank of first lieutenant. His assignment to the air service soon followed. By the end of the war he had won a captain's commission and the University of Oregon at Pasadena.

While piloting an airplane from England to France a short time before the armistice, Captain Fawcett crashed in France. The officer with him was killed and Captain Fawcett sustained injuries that kept him in hospital for 14 months.

Captain Fawcett is a member of both the Waverley and Portland Golf clubs and is a player of ability. He has represented both clubs at various times on teams in interclub matches.

Singing Our Own Little Swan Song.

"Therefore, from job to job I've moved
Pay couldn't hold me when my time was done."
—RUDYARD KIPLING.

BY ROSCOE FAWCETT.

We, too, are faring somewhere on the road; Pay couldn't hold us—just to use Kipling's words.

We, too, have felt the potent, magic lure That strikes and moves the rustics
We have no message as we hear the call: No aghast, a fearful farwell squall;
This is our plea—'we've tried to keep one eye Fixed wily on the cryptic how and why.
If, sometimes, with us judgment seemed To break,
Please take from us that every mild mistake,
Each little slip, each foolish word apart,
So, goodby folks, and tra-la-lal-lal-lal-lal!
We're bound away on figurative skids,
God bless and guard you—Bou Nutt all.
God good night!
God keep you—there are some I wish I might.

Millions of Smiles

Now show beautiful teeth—this is why

Look at people's teeth when they smile. Many teeth are dingy and discolored. All one's attractions are marred by them.

Other teeth now glisten. For millions of people now brush teeth in a new way. Twice a day they fight the film which dulls them.

Your teeth are coated more or less if you brush them in old ways. See the difference when you brush them in the new way for a while. Ask for this ten-day test.

You must combat film

Brushing does not clean teeth if it leaves the film. It removes some debris, but it does not end the tooth's great enemy.

Millions find that well-brushed teeth still discolor and decay. Tooth troubles have been constantly increasing. Now modern dental science finds the reason in a film.

New film is viscous. You can feel it with your tongue. It clings to teeth, gets between the teeth and stays. Then, between your dental cleanings, it may do a ceaseless damage.

The ordinary tooth paste does not end film. A soapy tooth paste makes it more viscous. So brushing teeth in old ways has left much film intact. Its daily removal has in late years been a major dental problem.

How film ruins teeth

It is this film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acids. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film, and very few escape them.

Watch the change in a week

Send this coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears.

These effects mean much to you. Cut out the coupon now.

A 10-Day Tube of Pepsodent. Send coupon. Make this simple, pleasant home test. See for yourself the results.

Film makes teeth dim and dingy

You may not realize it, but remove the film and see how tooth look then.

Compare your teeth now with the teeth you see after this ten-day test. It will be a revelation.

Every woman owes this to herself.

These new factors are combined in a dentifrice called Pepsodent—an ideal tooth paste which complies with all the new requirements. Leading dentists everywhere advise it. To prove it quickly to all careful people, a ten-day tube is being sent to everyone who asks.

Five quick effects

Pepsodent brings five desired effects with every application. Some are at once apparent, and all soon show their benefits to teeth.

One ingredient is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling. Another instant result is multiplied alkalinity of the saliva to neutralize mouth acids.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

Thus with every application Pepsodent combats the teeth's great enemies in new and efficient ways. Both in Europe and America it is fast bringing a new era in teeth cleaning.

The way to know it is to try it. The first application reveals some new effects. A few-day test is most convincing. See these effects, read the reasons for them, and judge this new method for yourself.

If it brings you whiter, safer, cleaner teeth, tell others about it. There are few things more important.

Men who smoke will also see conspicuous results. Their teeth are often much discolored, for tobacco stains the film.
