Women's Activities

AFTER many years of service to the community, the Portland Women's Exchange, as an organization, recently decided to terminate its activities, but the place that has been of such help to the consignors and of great value to the public will not be closed. The women who have been giving of their time and efforts to the cause deep appreciation has been expressed by many who have realized what the exchange has meant to them. It has given to widows and mothers of little children, to invalids who make dainty needlework, to many who were in need of financial help, a place where they might sell their wares and so make themselves self-supporting. To such women as Miss Henrietta Felling, Mrs. Victor Johnson, Mrs. Max Hirsch, Mrs. E. L. Thompson, Mrs. A. J. Meier, Mrs. Cabell and scores of others credit is due for the good work of past years. The exchange has been a power for good in the community and the closing of its records of achievement cannot be made without a word of appreciation.

Discolored, Wrinkled Skin Easily Removed

Since brown or yellow, over-red or blotchy complexion are decidedly not the fashion, it is difficult to understand why so many continue to wear them. Surely every woman has heard of mercurized wax. This will positively banish every unsightly tint. The wax really takes off a bad complexion. It gradually, harmlessly, absorbs the thin layer of surface skin, with such defects as liver spots, pimples, freckles, blackheads. Just as gradually the discarded skin is replaced by the clear, white, youthful skin underneath. Mercurized wax, procurable at any drug store, is applied nightly like cold cream and erased the next morning with a soft towel. One will produce the loveliest girlish complexion in less than a fortnight.

It is hard to understand, also, why folks will be bothered with wrinkles, since there are famous exact formulas for their public property. One ounce of powdered saxolite dissolved in a half-pint with basic makes a wash lotion that quickly effaces every line, even the deepest. —Adv.
