### WHITMAN READY FOR IDAHO

#### Walla Walla Football Eleven to Play Next Saturday.

WHITMAN COLLEGE, Walla Walla, Wash., Oct. 18.—(Special.)—With the College of Idaho furnishing the opposition, the Whitman football team plays its second football contest at Caldwell Saturday. In preparation for the game Coach "Big" Borleske has been putting the men through strenuous paces during the past week following the Washington contest, and the men are commencing to show improvement.

Whitman will be handicapped by the loss of "Bonerusher" Comrada, tackle, and Beck, end, both of whom will probably not be in the lineup Saturday. Comrada, who starred in the Whitman-Washington contest, suffered a fractured left arm, which is still in a cast, and also a badly injured right hand to Beck's "fixing" return to Whitman, and the loss of his weight on the line will be felt.

In playing the College of Idaho, Whitman meets a squad which for three years has not lost a game, and a close and fiercely contested battle is anticipated. Anson Cornell, former University of Oregon quarter and all-northwest quarter in 1912, is coach of the Idaho team. Saturday's game will mark the first time that these two institutions have met on the gridiron.

### MOB CHARGE PROMISED

#### REDESS FOR MARYSVILLE AT-TACK TO BE ASKED.

Harry Wood, Timber Worker Organizer, Declares Marshall Was Leader in Assault.

KLAMATH FALLS, Or., Oct. 18.—(Special.)—A telegram received today at central labor headquarters from Harry Wood, vice-president and organizer of the international timber workers' union, stated that Wood had reached San Francisco and would lay his complaint of alleged maltreatment at the hands of a Susanville, Cal., mob Monday night, October 11, before both state and federal authorities and press his demands for redress.

Wood declared that he was seized by a mob of 20 or 30 men, blindfolded and taken some distance from town, where he was turned loose and ordered to "beat it," with the threat that he would be hanged if he returned.

E. A. Massey, city marshal of Susanville, has made a statement that Wood was taken from him by a crowd who struck the marshal over the head and felled him. He said that when he recovered, the mob leaders told him to go home and Wood had disappeared. In statements made here prior to his departure for San Francisco, Wood declared that through the meshes in the sack used as a blind he recognized the marshal as the leader of the mob.

James H. Doyle, organizer of the California federation of labor, is conducting an investigation in Susanville. The affair has deeply stirred labor men in southern Oregon and northern California. Local timber workers are planning a big protest meeting for next Monday night.

mountain water was turned into the city mains for the first time yesterday. Housewives, accustomed to low-pressure service, were amazed while preparing the Sunday dinner when they discovered that the water faucets had gone on a rampage and kitchen utensils were sent clattering in sinks. The new gravity supply is brought to the city from the headwaters of Willow creek through a concrete and redwood pipe line 15 miles long. The city has long suffered from water shortage during the late summer months and it is believed that the new system will solve the water problem for a long while to come.

Your final test of a hat is that it shall look well on you. An intensely personal and individual matter, indeed!

IN this city and its environs, you can drop in on any one of ten, twenty, perhaps fifty Stetson hatters.

Out of the range of hats shown by any one of these men, you can pick the one hat that might have been made to your personal order.

Derby, Soft Hat, Velour—blocks to suit every type of face and physique. All the colorings that are good this season. Every variation and nicety of finish approved by the well-dressed man.

A welcome service, indeed, for the man who is really critical about the way his hat looks.
