Advances of French Representatives Reported Recognition

THE OREGONIAN NEWS BUREAU, Washington, Oct. 18 .- Senator Hardwashington, Oct. 18.—Senator Harding's statement that he had been approached unofficially by France on the league issue undoubtedly came as a shock to several high officials of the government, but is understood to have been no surprise whatever to those in touch with diplomatic circles.

Whatever the French government Whatever the French government may have to say, it is understoed here that not only was the matter of a new association of nations presented informally to Senator Harding, but the French ambassador, it is asserted, has consulted Senator Lodge and several other senators relative to some method of establishing order out of the present international chaos.

European nations, it is said, are no less wise to what is going to happen on November 2 than are the people of the United States. They appreciate, it is asserted, the futility of further negotiations with Mr. Wilson and, they say to themselves, why confer with the state department when only a few months ago a secretary of state who was familiar with all the details of what went on in Paris was summarily dismissed from office for attempting to func-tion in the president's absence? Pacts Regarding "Approach" of French Representative Sought.

WASHINGTON, D. C., Oct. 18 .- Pres WASHINGTON, D. C., Oct. 18.—Fres-ident Wilson took steps to day to as-certain whether the French gov-ernment had given authority to "a representative of France" to approach Senator Harding "informally" with the request that the republican pres-idential nominee take the lead in the formation of an association of na-

tions.

The White House also made public the text of a letter addressed to Senator Harding by President Wilson inquiring as to the correctness of a statement attributed to the senator in a dispatch, dated St. Louis, October 16, in which he was quoted as having said he had been so approached.

"I need not point out to you," the president wrote, "the grave and extraordinary inferences to be drawn from such a statement, namely, that the government of France, which is

Neither officials at the White House nor at the state department would comment on the nature of the inquiry directed to the French government. It was understood, however, that the note was transmitted by the state department to the French by the state department to the French government through Ambasador Wal-lace in Paris. At the French embassy it was stated that no such communi-cation had been received there for

ransmission.

Secretary Tumulty said that no reply had been received by the White House either from Senator Harding or the French government.

Declaring that the state department "had always found the government of France most honorably mindful of its international obligations and punctiliously careful to observe all the proprieties of international intercourse," the president wrote that he hesitated "to draw the inference to which I have referred unless I am assured by you that you actually made the statement."

Be on Election Day, Is Prediction of Sullivan.

BY MARK SULLIVAN WASHINGTON, D. C., Oct. 19,-Special.)-It is hard to conceive that the election will be materially af-fected by anything happening be-tween now and November 2. Elections, or at least one presiden-tial election, has turned on an event that occurred during the last two weeks, but no such thing is likely to happen this year. As it stands today, so will it go on election day. Undoubtedly there is a slight ebbing away from republican strength, which was at high tide three weeks are. This is due not so much to which was at high tide three weeks, ago. This is due not so much to democratic gains as to republican loss of interest. Elections are largely a matter of crowd psychology and it is hard to keep the interest of the crowd at top pitch for five weeks.
