

HEALTH OFFICIAL'S QUERIES ANSWERED

City Attorney Explains Anti-Vaccination Measure.

BILL LIMITS ACTIVITIES

No Form of Inoculation Can Be Forced Upon School Children if Bill Is Passed.

Eight questions propounded by Dr. George Parrish, city health officer, in regard to the anti-compulsory vaccination amendment...

Among the questions asked by Dr. Parrish are: Could the work of the Cedars be continued? Could quarantine be enforced against self-limiting, common communicable diseases?

Detailed Answers Given.

The legal opinion set forth by Attorneys LaRoche and McInturf takes up each question in detail, of which the following is a summary: If the constitutional amendment be enacted, women who are affected with social diseases will have the right of access to the Cedars...

Quarantine Possible.

In answer to the third question, it would be possible to enforce quarantine against diseases that are not self-limiting, but which could be continued until the affected one died...

CHILD FARM HOME PLAN NOW COMPLETE

Drive for \$125,000 Starts November 15.

SUITABLE TRACT FOUND

Alfred C. Schmitt Gives Explanation of Work Done Thus Far by Board of Directors.

Arrangements for establishing the proposed farm home for dependent children have been completed and are dependent now upon success of the campaign drive for \$125,000...

An explanation of the work done thus far by the general committee and of the hopes of the people who are determined to make this movement a success, was given yesterday by Alfred C. Schmitt, Albany banker...

Suitable Tract Found.

"After due investigation a special committee, of which I was chairman, found that a suitable tract for the establishment of this farm home for dependent and orphan children could be purchased in Benton county, near Corvallis..."

"It is our intention to have a central administration building on the farm with cottages grouped about it as they are needed, each cottage to care for from 10 to 15 children with a motherly woman in charge of each one..."

Educational Advantages Planned.

"It is our intention that these children on the Woman's Christian Temperance union farm home shall be given the best educational advantages. It is planned to send them to a nearby district school and in case there is no such school near at hand, we will establish a school on the farm..."

On every hand the Woman's Christian Temperance union is receiving endorsements of this farm home movement. Governor Olson is honorary chairman of the campaign committee...

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Very few people, however careful, have escaped these film-caused troubles.

Now ways to combat it

Dental science has now found efficient film combatants. High authorities have proved this by many careful tests. Now leading dentists everywhere advise their daily application.

These five ways

- 1—A two-fold attack on film. 2—Well-polished teeth. 3—A multiplied salivary flow. 4—Multiplied starch digestant in the saliva, to digest starch deposits that cling. 5—Multiplied alkalinity of the saliva, to neutralize the acids which cause tooth decay.

Other desired effects

Pepsodent also aids Nature in its teeth-protecting efforts. It multiplies the salivary flow, the constant tooth protector. It multiplies the starch di-

Five New Ways That science found to benefit the teeth

Dental science, after years of research, has evolved new methods of teeth cleaning. Highest authorities now approve the new principles. And millions of people are employing these methods, largely by dental advice.

They mean a new era in teeth protection—whiter, cleaner, safer teeth. This is to urge that you make a ten-day test and watch the results for yourself.

Film—the great enemy

The chief object is to fight the film, the cause of most tooth troubles. Film is that viscous coat you feel. It clings to teeth, gets between the teeth and stays. Old ways of brushing have left much of it intact. So millions have found that well-brushed teeth discolored and decayed.

Film absorbs stains, making the teeth look dingy. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Very few people, however careful, have escaped these film-caused troubles.

A scientific film combatant which brings five effects now considered essential. Approved by authorities and now advised by leading dentists everywhere. All druggists supply the large tubes.

AIRPLANES TO JOIN PARKS

Yellowstone to Glacier Trip Could Be Made in Three Hours. BUTTE, Mont.—Commercial organizations in Butte are considering the project of establishing airplane passenger routes between Butte and Yellowstone national park. This has been suggested by Harry A. Bellgard of Billings, who was an aviator during the world war.

Butte of a number of 40-passenger airplanes built by the government for bombing. It is estimated that such an airplane could leave Butte at 7 o'clock in the morning and reach Yellowstone park at 9:30 A. M. Glacier park could be reached in the trip of three hours by air. The distance by road from Yellowstone to Glacier park is 400 miles, while by air it is only 275 miles.

Aviator Bellgard estimates he could make a trip with one of the large passenger planes to Glacier park in the morning and by leaving there at 4 P. M. could bring back passengers to Butte the same day. Bellgard has made a flight from Billings to Minneapolis in 12 hours.

Pe Ell Cannery Started. CENTRALIA, Wash., Oct. 24.—(Special.)—Operations were started this morning at the Pe Ell cannery. Apples are being received in large quantities at the plant, where a force of 21 men and women is employed.

To stop street cars at railroad crossings or drawbridges should a motorman ignore a signal, an inventor has designed a spring bumper to be raised level with their front sills.

Increased Ocean Service

PORTLAND AND SAN FRANCISCO by the San Francisco & Portland S. S. Co. COMMENCING SATURDAY, NOVEMBER 6, 1920

The popular ocean service of the "Rose City" will be augmented by the addition of the finely equipped steamship "Alaska," and the two will operate between the ports named on the following schedule:

Table with columns: STEAMERS, Leave Portland, Leave Astoria, Arrive San Francisco, Leave San Francisco, Arrive Astoria, Arrive Portland. Rows include Rosa City, Alaska, Rose City, Alaska, Rose City, Alaska.

From each port every five days thereafter. PASSAGE FARES

Table with columns: FROM, TO, First Class, Second Class, Third Class (Males Only). Rows include Portland to Astoria, Astoria to Portland, Portland to San Francisco, San Francisco to Portland.

These fares do not include 5 per cent war tax, which must be added. All fares include berth and meals while at sea. Apply to any of our representatives to make your reservations.

CONSOLIDATED TICKET OFFICE, Third and Washington Streets. Phone Main 3555. L. E. OMER, City Passenger Agent, 701 Wells Fargo Building, Phone Broadway 4509.

C. F. HEYWOOD, Agent, Alnsworth Dock, Broadway 265. W. M. McMURRAY, General Passenger Agent, Portland, Oregon.

FREE To all who ask You are welcome to this ten-day test. See coupon. Millions have already made it. And the glistening teeth seen everywhere today show one result it leads to.

gestant in the saliva. That is to digest the starch deposits which otherwise cling and may form acid. It multiplies the alkalinity of the saliva, to neutralize the acids which cause tooth decay.

These results come from every application. Twice a day the teeth's great enemies are effectively combated. The benefits to teeth are such as old methods never brought.

Another ingredient is pepsin. Pepsodent attacks the film in two efficient ways. Then it keeps the teeth so highly polished that film cannot easily adhere.

Delightful results appear quickly

Some results of Pepsodent are instant. The very first use reveals some of the benefits. Within a week the delightful results can be usually seen in the mirror.

Send the coupon for the 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears.

The book we send will tell the reason for each new result. You will know how natural and how necessary are the effects. You will see and feel that teeth are cleaned far better than before.

These are the methods science now advises. Make this ten-day test.
