

STORY OF HEALING TOLD

CHRISTIAN SCIENCE LEADER SPEAKS IN AUDITORIUM.

Wonderful Works of Jesus Proved Laws of Matter Not God's, Says Speaker.

A large and attentive audience was present last night at the municipal auditorium to hear a lecture on "Christian Science—God's Law," by William D. Kilpatrick, C. S. P., of Detroit, Mich., member of the board of lecturership of the mother church, the First Church of Christ, Scientist, in Boston, Mass.

The speaker was introduced by Mrs. Violet Dunham. Mr. Kilpatrick said in part:

Christian Science has come to humanity to restore to it the lost art of healing which the great master, Jesus, Jesus the Christ, declared would exemplify the understanding of those truths of existence which he gave to the world some 20 centuries ago. Jesus taught that it was his understanding of God and God's government of his universe which enabled him to do the works of healing and regeneration he so freely accomplished throughout his brief ministry and of which he said in no unimpeachable terms: "He that believeth on me, the works that I do shall he do also."

If you will carefully follow the life of Jesus as given in the New Testament and consider his works in connection with what he taught you will discover that what he did was merely to establish as a demonstrable fact what he taught, and that what he taught and did were said and done in accord with, and in explanation of, some immutable, ever present, universal law.

And this law of God—this law, the knowledge and application of which Jesus said was the key to the understanding of what Christian Science has come to re-establish with men. Those wonderful works of Jesus prove conclusively that laws of matter are not God's laws and that God's laws are not only superior but are actually laws of annihilation to all material laws and thereby prove that material laws are the product of a mortal misconception of what constitutes true law.

We find, with reassurance, that this law of God is a law of life—not of death; a law of health—not of sickness; a law of abundance—not of lack and limitation; a law of harmony—not of discord; a law of peace—not of strife; a law of love—not of hate.

And now the question of how to bring into action this ever-present law of God, how to apply it to our present needs, how to heal the sick, comfort the sorrowing and save the sinner, as Jesus did, is actually presented itself. This, my friends, is accomplished in Christian Science solely through the prayer of understanding. Christian Scientists have learned that whatever is to be achieved in the way of healing and saving must be done through such prayer. This prayer must be without ceasing.

Mary Baker Eddy, the discoverer and founder of Christian Science, has incorporated the fundamental teachings of Christian Science in her book, "Science and Health with Key to the Scriptures." This is the textbook of the Christian Science denomination. Through its study the secrets and obscurities of holy writ have been made plain and instead of a book of mystery the Bible has come to be the chart of life to thousands upon thousands, whom it has heretofore been closed.

HART READY TO DIE

PENDETTON SLAYER WILL MOUNT GALLOWS ALONE.

Father of Convicted Man Awaits Return of Governor to Ask Death Reprieve.

SALEM, Or., Nov. 2.—(Special.)—Emmett Bennett, alias Neil Hart, who will be hanged in the state penitentiary here Friday morning at 8 o'clock, has become reconciled to his fate and has said he will mount the gallows without assistance from prison officials. In a statement to friends today Hart was quoted as saying that he had been converted and was ready to meet his creator.

For the past two weeks Hart has taken a deep interest in religious matters and has read his Bible almost continually. He sleeps well, according to prison attendants, and apparently relishes his meals, which have been served in his cell.

The youthful murderer's father, who arrived recently from Denver, was still in Salem awaiting the return of Governor Olcott, who has been absent from the city since last Tuesday. He brought with him a petition signed by more than 500 residents of Pendleton asking that the slayer's sentence be commuted to life imprisonment. Hart also was said today that the Salem Ministerial association would ask Governor Olcott to commute Hart's sentence because of the latter's alleged defective mental condition.

Hart at no time has made any complaint of the treatment received at the penitentiary, and yesterday said that he had been given every consideration by the constructing men by Mr. Bancroft's body will be sent to Denver, the home of his father.

MARSHFIELD EDITOR OUT

Glenn L. Foster Resigns Place After Month's Stay.

MARSHFIELD, Or., Nov. 2.—(Special.)—Glenn L. Foster, managing editor of the Daily News, severed his connection with that paper at the end of one month's service. Mr. Foster came to the Daily News from Portland newspaper.

The Daily News is the paper which was taken over by a syndicate of Marshfield business men who were organized by Rev. J. T. Anderson, general manager of the paper. His resignation was announced by Mr. Foster's resignation. A. R. O'Brien, former owner of the paper, is filling the vacancy until another managing editor can be obtained.

HALLOWEEN CELEBRATED

Fossil School Makes Merry on All Saints' Eve.

FOSSIL, Or., Nov. 2.—(Special.)—Never before was Halloween so universally celebrated here.

The young body of the Wheeler county high school held a carnival in the gymnasium, which was a great success. The primary grade under direction of Miss Flora Gillilan prepared songs and short verses and on Friday afternoon, unannounced, visited each of the other grades.

Mrs. Elizabeth Bowerman, member of the school board, gave a series of parties, which were unique.

GET RID OF THAT FAT

Free Trial Treatment on Request. Ask also for my "Pay-Yourself-Off" Book.

Free Trial Treatment on Request. Ask also for my "Pay-Yourself-Off" Book. My treatment has often reduced the rate of a pound a day. No dieting, no exercise, no fasting, no starvation and sure method.

Mrs. E. Bateman writes: "I have taken the treatment and it is wonderful how it does. It does just as you say, I have reduced a pound a day. I have reduced a pound a day. I have reduced a pound a day."

Mrs. Anna Schmidt writes: "I weighed 175 pounds before the treatment and I now weigh 135 pounds. You may see this if you wish."

These are just examples of what my treatment can accomplish. Let me send you more proof at my expense.

DR. R. NEWMAN, Licensed Physician, 286 Fifth Avenue, New York, Desk H-448.

NEW COURSE IS STARTED

Union Carpenters' Take Up Study of Graphic Statics.

UNIVERSITY OF OREGON, Eugene, Nov. 2.—(Special.)—Forty men of the carpenters' union of Eugene and the school of architecture, under the leadership of B. W. Steeman, head of the carpenters' union of Portland, have enrolled for either graphic statics or estimation, new courses offered by the extension division of the university.

A year ago, when the extension division offered to the carpenters' union of Portland a new graphic statics course, it met with hearty support. As a result of a hurried survey among the construction men by Mr. Steeman, the course again was inaugurated.

Anyone interested in the work, whether engaged in university or municipal construction work, or students of the school of architecture, may enter the course.

INSTITUTE IS SUCCESS

Washington County Teachers Hold Their Annual Convention.

HILLSBORO, Or., Nov. 2.—(Special.)—The annual convention of the Washington County Teachers' Institute closed a successful institute Monday. County Superintendent Frost had a splendid program arranged, among the speakers and instructors being Superintendent Churchill of Salem, President Ackerman of Oregon normal school, Professor Almack of University of Oregon, President Clark of Pacific university, Miss Gagnon of

Marshfield, Mr. Grant of Portland and Rev. Mr. Blair of Forest Grove.

It was the consensus of opinion that higher salaries are producing better schools in Washington county, and the teachers have adopted "service" as their watchword for 1920-21. For the first time the high school auditorium was crowded with the attendance from 110 districts represented.

Delegates chosen to the State Teachers' association at Portland next month were Earl E. Fisher of Beaver-ton and Lester Mooberry of Corvallis.

PULLMAN IS IMPROVED

WASHINGTON STATE WORKS FOR CALIFORNIA GAME.

Jenne Practices Punting for Crucial Contest of Season With Golden Bear Squad.

WASHINGTON STATE COLLEGE, Pullman, Nov. 2.—(Special.)—That the Cougar eleven has improved at least 50 per cent since the Idaho game is the consensus of opinion among local fans. Although the fighting Grizzlies Saturday held the Cougars at even terms during the opening quarter, the Welchmen uncorked a repertoire of plays in the second half the Missoulians were unable to fathom and which revealed outstanding offensive power and finesse.

In yardage figures, the Cougars had decided advantage, totaling 357 yards from scrimmage as against 131 for Montana. Jenne punted for an average of 67 yards during the contest, which is in keeping with his booting ability, for the Cougar back-fielder has been kicking the leather consistently in practice for that distance. Welch is counting strongly on this star player in preparation of his attack for the California game Saturday and tonight Jenne practiced dropkicks and punts throughout the entire practice period.

The Cougars will have but two practices in preparation for the season's crucial struggle with the California Bears at Berkeley. From now until the close of the season the crimson and gray eleven will be at home but five days, for it leaves immediately after the Oregon Aggie game, November 13, for Lincoln, Neb., to meet the Cornhuskers on Thanksgiving. The Cougars will have but one day's practice before meeting the Aggies here on Homecoming day.

PUREBRED STOCK SOUGHT

Offers to Exchange Blooded Bulls for Scrub Stock Taken.

MARSHFIELD, Or., Nov. 2.—(Special.)—Patrons of Portland stockyards distributors in some sections are now to get a shipment soon of some tough beef if plans of the Croos county banks agricultural ideas go through and increase in volume, as seems evident. Three banks of the county are supporting an improved stock campaign, and their latest offer is to trade to any farmer who wants to get rid of a scrub bull a purebred bull in exchange.

This offer has met with such a liberal response that 40 animals are already doomed to the abattoir. The manager of the banks' campaign declares the offer is still open, although the ranchers have taken to it so gladly, and he expects to ship at least two loads of bulls to the Portland stockyards.

BASEMENT SALES FOR MEN

—Here are savings every man should take advantage of. Items advertised below will be on sale for one day only at prices quoted. DOUBLE STAMPS.
