

NEW METHOD TO TRY TEACHERS PROPOSED

Compromise Is Offered to School Board.

RESOLUTION IS ADOPTED

Commission Chosen Partly by Board and Partly by Instructors Is Wanted.

A new method of appointing the commission to try the cases of dismissed teachers is proposed by the High School Teachers' union as a compromise measure in place of abolishing the present commission. A majority of the school board has endorsed the modification of the present tenure of office law, one of the main changes being the abolishing of the commission. The board desires to have the final word in dismissing teachers.

The high school teachers have adopted resolutions in favor of substituting for the present trial commission, which is appointed by the judge of the circuit court, a commission chosen partly by the board and partly by the teachers.

Public to Be Represented.
The public is to be represented by a person chosen by the representatives of the board and the teachers. The disagreement between Portland school directors and teachers over proposed changes in the tenure law comes to a head in the legislature. It will not be because a compromise measure has not been suggested," said the high school teachers.

These teachers also stated that "if the compromise cannot be reached, all members of the teaching corps will oppose any change in the law."

Resolution Is Adopted.
The resolution follows:
Whereas, The impending struggle in the coming session of the legislature between the school board and the teachers in regard to the tenure of office law will inevitably lead to a lowering of the morale of the teaching corps and will work immeasurable harm to the children of the Portland school, and
Whereas, We believe that such a struggle can be avoided by a compromise measure in the tenure of office law, and
Whereas, The trend of the times is to foster democracy and co-operation in the administration of public affairs; and
Whereas, The struggle between school board and teachers is in the matter of the personnel of the trial commission; and
Resolved, That in any amendment to the tenure of office law provision be made for a commission to be formed as follows:
(1) The school board and the teachers shall each choose an equal number of representatives, and
(2) Such representatives when chosen shall select one representative from the general public. And be it further
Resolved, That should such proposal for change in the personnel of the trial commission fail to receive sufficient support to insure its enactment into law, we continue our support of the law as it now stands. And be it further
Resolved, That a copy of these resolutions be sent to each member of the school board, to the superintendent of the schools and to the press of the city.
